The New International Encyclopaedia Dorrance Publishing Newburgh: The Heart of the City focuses on one

of the widest thoroughfares in the Northeast, Broadway, the main street in Newburgh, measuring one hundred thirty-two feet across. Known as "the heart of the city," Broadway was the activity center in the twentieth century. It was lined with government offices, commercial and business enterprises, schools, churches, restaurants, firehouses, farms, fortune-tellers, and

entertainment and recreational establishments. Broadway was not only the street of everyman but also the street of presidents, playing host to both Franklin D. Roosevelt and John F. Kennedy.

On March 15, 1783, General George Washington addressed a group of angry officers in an effort to rescue the American Revolution from mutiny at the highest level. After

the British surrender at Yorktown, the Revolution blazed on, and as peace was negotiated in Europe, grave problems surfaced at home. The government was broke, paying its debts with loans from France. Political rivalry among the states paralyzed Congress. The army ' s officers, encamped near Newburgh, NY, and restless without an enemy to fight, brooded over a civilian population seemingly indifferent to their sacrifices. The result was the Newburgh Affair, a mysterious event in which Continental Army officers, disgruntled by a lack of pay and pensions, collaborated with nationalist-minded

politicians such as Alexander Hamilton, James Madison, and Robert Morris to pressure Congress and the states to approve the new taxes and strengthen the central government. A Crisis of Peace provides a fresh look at the end of the American Revolution while speaking to issues that concern us still: the fragility of civil-military relations, how even victorious wars end ambiguously, and what veterans and civilians owe each other.

lived with a wound at the heart of the neighborhood, a wasteland of vacant lots known as the Seward Park Urban Renewal Area (SPURA). Most of the buildings on the fourteen-square-block area were condemned in 1967, displacing thousands of low-income people of color with the promise that they would soon return to new housing—housing that never came. Over decades, efforts to keep out affordable housing sparked deep-rooted enmity and stalled development, making SPURA a dramatic study of failed urban renewal, as well as a microcosm epitomizing the greatest challenges faced by American cities since World War II. Artist and urban

scholar Gabrielle Bendiner-Viani was invited to enter this tense community to support a new approach to planning, which she accepted using collaboration, community organizing, public history, and public art. Having engaged her students at The New School in a multi-year collaboration with community activists, the exhibitions and guided tours of her Layered SPURA project provided crucial new opportunities for dialogue about the past, present, and future of the neighborhood. Simultaneously revealing the incredible stories of community and activism at SPURA, and shedding light on the importance of

collaborative creative public projects, Contested City bridges art, design, community activism, and urban history. This is a book for artists, planners, scholars, teachers, cultural institutions, and all those who seek to collaborate in new ways with communities.

The History of English Affairs, covering the years 1066-1197, was written at the close of the twelfth century and has been described as being "both in substance and in form ... the finest historical work left to us by an Englishman of the twelfth century" (The Dictionary of National Biography). The author's critical ability, gifts of acute observation, clear judgment and tolerant impartiality justify

his high reputation as an original authority. Book Two covers the years 1154-1175, and incorporates the murder of Thomas Becket in Canterbury Cathedral, the capture of the King of Scots at Alnwick, and the first subjugation of Ireland by the English. It also documents the career of Nicholas Breakspear, the only Englishman to become Pope. Early American Steamers Matthew Stridiron Ya Sankofa! By:

Torrance R. Harvey M.S. ED. Sometimes I must move slowly like a cat... Sometimes I must move with dispatch. There are times I must be silent, unheard. Just like the morning spring sun shining over the harmonious tweeting birds. Then, there is that one moment in time I must ROAR loudly For everyone to hear and fear everywhere. Bringing their hearts and minds to understand ONE THING. I AM the TRUE

Lion and the King! Ya Sankofa! is a literary journey of reflection. It is an artistic expression of cultural awareness in a contemporary sense from a historical lens in the form of a series of poems. *Court of Appeals: Daniel D.  In April 1782, Gen. George Washington rode into Newburgh and found a sprawling town. At the end of what is now Library Street was the

fieldstone house of the late Col. Jonathan Hasbrouck. From April 1782 to August 1783, Hasbrouck's house became Washington's home and his longest-occupied military headquarters. At the end of the American Revolution, Washington left "headquarters," as it came to be known, and the Hasbrouck family reclaimed the house. A period of extended decline followed, until the Hasbrouck family could no longer maintain the property, and it was ultimately purchased by the State of New York. On July 4, 1850, Washington's Headquarters was named a state

historic site and became the first of its kind in the nation. **Hearings** University of Iowa Press

Once hailed for its historic importance in serving as George Washington's Headquarters during the American Revolutionary War, the city of Newburgh, New York has since statistically been ranked as one of the most dangerous places to live in the United

States because of its local agencies, and gun violence and other problems. Despite how the city itself has declined, its local politics have become more intertwined with the town's institutions and the lives of its people. At the center of all of this, children growing up within the city must demonstrate resilience as they work to overcome one obstacle after the next. *Scheming in the Dark* is a true story told by an individual who grew up in Newburgh and lived around people who sought to end the city's intergenerational cycle of poverty. Watch how the author saw these people come together, start an investigation with

send shockwaves across New York. Through this inspirational, career-defining story, the author directly confronts his hometown's recent past and also shows just how far a family will go to protect its members when things get rough. Will the author and the rest of his hometown residents have time to undo the damage inflicted on Newburgh, or is it already too late to save the community they love? [New York Court of Appeals. the economic and social life of the city of Newburgh, New York, and the towns that had stations along its 19-mile route between Newburgh and the Erie main line. Only five miles of this once vital rail link survive today. Looking at this lightly used rail spur today, the casual passerby would have no hint of the rich history that can be seen for only a moment from the car window. Erie Railroad's Newburgh Branch will take both dedicated and new railfans back to the days when rail travel was every town's modern mode of transport as well as its economic lifeblood. It was a simpler

time, before the age of air travel and America's love affair with a new invention called the automobile."

While passing through Newburgh Bay in 1609, explorer Henry Hudson's shipmate noted that the locale would be ideal for a village. True to his prediction, some 200 years later Newburgh was incorporated as a village and has since become the Queen City of the Hudson. It

is a city of historical reputation. Here, Gen. George Washington awarded the first Purple Heart and wrote his famous letter refusing to become a king. The Newburgh site known today as Washington's Headquarters is America's first historic preservation building--the 1750 Hasbrouck House. Newburgh provides a glimpse into the city's past, with chapters that tell the story of a city of industry and innovation.

Newburgh had telephone service as early as 1879 and was the second city to have a street illuminated by an electric light bulb. Its East End contains the largest historic district in the state, covering a total of 445 acres from the Hudson riverfront westward. Within the district are rare examples of Greek Revival, Federal, Italianate, and Second Empire designs.

New York Court of Appeals. Records and Briefs. With the war between the Mexican state and the drug traffickers operating within its borders having claimed over

70,000 lives since 2006, noted journalist and author Michael Deibert zeroes in on the story of the notorious Gulf Cartel, their deadly war with their former allies Los Zetas, the cartel's connections in Mexican politics and what its trajectory means for Mexico's--and America's--future. Punctuated by the disappearance of busloads of full of people from Mexican highways, heavy-weapon firefights in once-picturesque colonial towns and the discovery of mass graves, nowhere has the violence of Mexico's drug war been more intense than directly across the border from

East Texas, the scene of a scorched earth war between two of Mexico's largest drug trafficking organizations: The Gulf Cartel, a criminal body with roots stretching back to Prohibition, and Los Zetas, a group famous for their savagery and largely made up of deserters from Mexico's armed forces. From the valleys and sierras of rural Tamaulipas and Nuevo León to the economic hub of Monterrey, the violence rivals anything seen in the more well-known narco war in Ciudad Juárez, 830 miles to the west. Combining dozens of interviews that the author has conducted over the

last six years in Mexico and other countries in the region along with a vast reserve of secondary source material, In the Shadow of Saint Death gives U.S. readers the story of the war being waged along our border in the voices of the cartel hitmen, law enforcement officials, politicians, shopkeepers, migrants and children living inside of it year-round. Through their stories, the book will pose provocative questions about the direction and consequence of U.S. drug policy and the militarized approach to combating the narcotics trade on both sides of the border.
