Ruth Crawford Seeger (1901-1953) is frequently considered the most significant American female composer in this century. Joining Aaron Copland and Henry Cowell as a key member of the 1920s musical avant-garde, she went on to study with modernist theorist and future husband Charles Seeger, writing her masterpiece, *String Quartet 1931*, not long after. But her legacy extends far beyond the cutting edge of modern music. Collaborating with poet Carl Sandburg on folk song arrangements in the twenties, and with the famous folk-song collectors John and Alan Lomax in the 1930s, she emerged as a central figure in the American folk music revival, issuing several important books of transcriptions and arrangements and pioneering the use of American folk songs in children's music education. Radicalized by the Depression, she spent much of the ensuing two decades working aggressively for social change with her husband and stepson, the folksinger Pete Seeger. This engrossing new biography emphasizes the choices Crawford Seeger made in her roles as composer, activist, teacher, wife and mother. The first woman to win a Guggenheim Foundation Fellowship in music composition, Crawford Seeger nearly gave up writing music as the demands of family, politics, and the folk song movement intervened. It was only at the very end of her life, with cancer sapping her strength, that she returned to composing. Written with unique insight and compassion, this book offers the definitive treatment of a fascinating twentieth-century figure.

This volume is a comprehensive and detailed survey of music and musical life of the entire Soviet era, from 1917 to 1991, which takes into account the extensive body of scholarly literature in Russian and other major European languages. In this considerably updated and revised edition of his 1998 publication, Hakobian traces the strikingly dramatic development of the music created by outstanding and less

well-known, 'modernist' and 'conservative', 'nationalist' and 'cosmopolitan' composers of the Soviet era. The book's three parts explore, respectively, the musical trends of the 1920s, music and musical life under Stalin, and the so-called 'Bronze Age' of Soviet music after Stalin's death. *Music of the Soviet Era: 1917-1991* considers the privileged position of music in the USSR in comparison to the written and visual arts. Through his examination of the history of the arts in the Soviet state, Hakobian's work celebrates the human spirit's wonderful capacity to derive advantage even from the most inauspicious conditions.

The Music of Hugh Wood provides the first ever in-depth study of this well-known, yet only briefly documented composer. Over the years, Wood (b. 1932) has produced a sizeable oeuvre that explores the established genres of symphony, concerto, and quartet on the one hand, and songs and choruses on the other. Underpinned by an awareness of recent philosophical, theoretical and analytical concepts, Dr Edward Venn highlights both the technical basis of Wood's music and the expressive force of his work. In doing so, a picture emerges of Wood as an artist of considerable merit and power. The eclectic blend of national and international influences in the music of Hugh Wood combine to create an individual and distinctive musical language all his own. The book provides an overview of Wood's style, focussing on his engagement with modernism and the melodic, rhythmic, harmonic and formal characteristics of his musical language. From here a more detailed consideration of Wood's development as a composer is advanced, in which his technical development is illustrated alongside an exploration of various aspects of musical meaning embodied in his works. In the process, numerous analytical strategies ranging from formalist to

narrative structures are utilized, demonstrating the fecundity and expressivity of Wood's music.

Pierre Key's Music Year Book Ignatius Press

This collection of new interviews with twenty-five accomplished female composers substantially advances our knowledge of the work, experiences, compositional approaches, and musical intentions of a diverse group of creative individuals. With personal anecdotes and sometimes surprising intimacy and humor, these wide-ranging conversations represent the diversity of women composing music in the United States from the mid-twentieth century into the twenty-first. The composers work in a variety of genres including classical, jazz, multimedia, or collaborative forms for the stage, film, and video games. Their interviews illuminate questions about the status of women composers in America, the role of women in musical performance and education, the creative process and inspiration, the experiences and qualities that contemporary composers bring to their craft, and balancing creative and personal lives. Candidly sharing their experiences, advice, and views, these vibrant, thoughtful, and creative women open new perspectives on the prospects and possibilities of making music in a changing world.

Music After the Fall Routledge

Music after the Fall is the first book to survey contemporary Western art music within the transformed political, cultural, and technological environment of the post-Cold War era. In this book, Tim Rutherford-Johnson considers musical composition against this changed backdrop, placing it in the context of globalization, digitization, and new media.

Drawing connections with the other arts, in particular visual art and architecture, he expands the definition of Western art music to include forms of composition, experimental music, sound art, and crossover work from across the spectrum, inside and beyond the concert hall. Each chapter is a critical consideration of a wide range of composers, performers, works, and institutions, and develops a broad and rich picture of the new music ecosystem, from North American string quartets to Lebanese improvisers, from electroacoustic music studios in South America to ruined pianos in the Australian outback. Rutherford-Johnson puts forth a new approach to the study of contemporary music that relies less on taxonomies of style and technique than on the comparison of different responses to common themes of permission, fluidity, excess, and loss.

Bob Dylan, Willie Nelson, Emmylou Harris, U2, Peter Gabriel, and the Neville Brothers all have something in common: some of their best albums were produced by Daniel Lanois. A French-speaking kid from Canada, Lanois was driven by his innate curiosity and intense love of music to transcend his small-town origins and become one of the world's most prolific and successful record producers, as well as a brilliant musician in his own right. Lanois takes us through his childhood, from being one of four kids raised by a single mother on a hairdresser's salary, to his discovery by Brian Eno, to his work on albums such as U2's *The Joshua Tree*, Bob Dylan's *Time Out of Mind*, and Emmylou Harris's *Wrecking Ball*. Revealing for the first time ever his unique recording secrets and innovations, Lanois delves into the ongoing evolution of technology, discussing his earliest sonic experiments with reel-to-reel decks, the birth of the microchip, the death of discrete circuitry, and the arrival of the download era. Part technological treatise, part philosophical manifesto on the nature of artistic excellence and the overwhelming need for music, *Soul Mining* brings the reader viscerally inside the recording studio, where the surrounding forces have always been just as important as the resulting albums. Beyond skill, beyond record budgets, beyond image and ego, Lanois's work and music show the value of dedication and soul. His lifelong quest to find the perfect mixture of tradition and innovation is inimitable and unforgettable.

*Contemporary World Musicians* Routledge

The best music of the 20th century "developed our capacity for feeling, deepened our compassion, and furthered our quest for and understanding of what Aristotle called 'the perfect end of life' ". — from the Foreword by NPR music critic Ted Libbey

The single greatest crisis of the 20th century was the loss of faith. Noise—and its acceptance as music—was the product of the resulting spiritual confusion and, in its turn, became the further cause of its spread. Likewise, the recovery of modern music, the theme to which this book is dedicated, stems from a spiritual recovery. This is made explicitly clear by the composers whose interviews with the author are collected in this book. Robert Reilly spells out the nature of the crisis and its solution in sections that serve as bookends to the chapters on individual composers. He does not contend that all of these composers underwent and recovered from the central crisis he describes, but they all lived and worked within its broader context, and soldiered on, writing beautiful music. For this, they suffered ridicule and neglect, and he believes their rehabilitation will change the reputation of modern music. It is the spirit of music that this book is most about, and in his efforts to discern it, Reilly has discovered many treasures. The purpose of this book is to share them, to entice you to listen—because beauty is contagious. English conductor John Eliot Gardiner writes that experiencing Bach's masterpieces "is a way of fully realizing the scale and scope of what it is to be human". The reader may be surprised by how many works of the 20th and 21st centuries of which this is also true. The book includes 100s of CD recommendations, which will be regularly updated on the website for the book: [www.SurprisedByBeauty.org](http://www.SurprisedByBeauty.org).
