Situated between Po Valley and the Mediterranean Sea, Liguria appears as a rainbow-shaped and mountainous island, extending from the Tuscan sandy shores of Versilia to the French Alps. Through several modern and contemporary poets and novelists, Pagano illustrates fragile beauty of this quintessential Mediterranean landscape.

A celebration of the language and culture of Italy, *La Bella Lingua* is the story of how a language shaped a nation, told against the backdrop of one woman's personal quest to speak fluent Italian. For anyone who has been

to Italy, the fantasy of living the Italian life is powerfully seductive. But to truly become Italian, one must learn the language. This is how Dianne Hales began her journey. In *La Bella Lingua*, she brings the story of her decades-long experience with the “the world's most loved and lovable language” together with explorations of Italy's history, literature, art, music, movies, lifestyle and food in a true opera amorosa — a labor of her love of Italy. Over the course of twenty-five years, she has studied Italian through Berlitz, books, CDs, podcasts, private tutorials and conversation groups, and, most importantly, time spent in Italy. In the process the Italian language became not just a passion and a pleasure, but a passport into Italy's storia and its very soul. She invites readers to join her as she traces the evolution of Italian in the zesty graffiti on the walls of Pompeii, in Dante's incandescent cantos and in Boccaccio's bawdy Decameron. She portrays how social graces remain woven into the fabric of Italian: even the chipper “ciao,” which does double duty as “hi” and “bye,” reflects centuries of bella figura.

---

And she exalts the glories of Italy's food and its rich and often uproarious gastronomic language: Italians deftly describe someone uptight as a baccala (dried cod), a busybody who noses into everything as a prezzemolo (parsley), a worthless or banal movie as a polpettone (large meatball). Like Dianne, readers of *La Bella Lingua* will find themselves innamorata, enchanted, by Italian, fascinated by its saga, tantalized by its adventures, addicted to its sound, and ever eager to spend more time in its company.

The saints' Lives in this book were written in Italy in the thirteenth and fourteenth centuries. Here translated into English and in full for the first time, they shed light on the ways in which both lay men and women sought God in the urban environment, and how they were understood and described by contemporaries. Only one of these saints (Homobonus of Cremona) was formally canonised by the Pope: the others were locally venerated within the communities which had nurtured them. Raimondo Palmario of Piacenza, contemporary with Homobonus, was remembered as both pilgrim and a vigorous exponent of practical charity. The nobleman Andrea Gallerani of Siena turned from a life of violence to good works, while another Sienese, the holy comb-seller Pier Pettinaio, exemplified the godly business man who insisted on the just price and on paying his taxes. Two very different women are included: Umiliana

de'Cerchi of Florence, a widow with children, and the 'servant-saint' Zita of Lucca. The last of the Lives contains a bishop's account of how the cult of the humble Rigo was launched in Treviso in 1315. The book will be welcomed by students and other readers interested in medieval Italian cities during this period of growth and vitality, and in how the religious life was lived in urban settings. Images of southern Italy as a place of arrival for migrants with different origins and backgrounds have in recent years proliferated in Italian media as well as in contemporary Italian literature and cinema. The unprecedented perspective which presents the mezzogiorno as a place where people arrive, and not only as a place of departure, constitutes a major change in the collective imaginary on the region and fosters new engagements with its migratory histories. This book presents one of the first studies to focus entirely, through in-depth readings of a range of contemporary literary and cinematic texts, on the representation of contemporary migration to southern Italy, and on the concomitant changes in the tradition of representation of the region. Informed by translation theory, and by decolonial, queer and feminist critique, this innovative study zeroes in on the mutual construction of race, gender and sexuality, and on the translation and hybridization of languages and cultures at the southern border. By giving a rich and compelling account of texts which tell multiple

stories of mobility from, to and through the South, this book traces the emergence of a transnational imaginary of the mezzogiorno which offers useful tools for an urgent reconfiguration of collective and individual identities.

The Italian Gothic horror genre underwent many changes in the 1980s, with masters such as Mario Bava and Riccardo Freda dying or retiring and young filmmakers such as Lamberto Bava (*Macabro*, *Demons*) and Michele Soavi (*The Church*) surfacing. Horror films proved commercially successful in the first half of the decade thanks to Dario Argento (both as director and producer) and Lucio Fulci, but the rise of made-for-TV products has resulted in the gradual disappearance of genre products from the big screen. This book examines all the Italian Gothic films of the 1980s. It includes previously unpublished trivia and production data taken from official archive papers, original scripts and interviews with filmmakers, actors and scriptwriters. The entries include a complete cast and crew list, plot summary, production history and analysis. Two appendices list direct-to-video releases and made-for-TV films.

It's one thing to travel abroad—to stay in charming hotels and deliberate over whether to visit this museum or relax at that café, even to head off the beaten track for a glimpse of "real" life—and another thing altogether to move to another country. *Expat* chronicles the experiences of twenty-two ordinary

women living extraordinary lives in outposts as far flung as Borneo, Ukraine, India, Greece, Brazil, China and the Czech Republic. In vivid detail, these writers share how the realities of life abroad match up to the expat fantasy. One woman negotiates the rough courtesies of Serbia, finding lives limned by harshness and an insurmountable spirit. Another is tutored on English manners by an eclectic bunch from Liverpool: "The cardinal sin in America is to be insincere, whereas the cardinal sin in England is to be boring." For some, their new home prompts them to reconnect or confront lost parts of themselves: One woman rediscovers her Judaism—in Japan; another writer's Western outlook is challenged by Javanese mysticism. Many share their own naïve blunders and private confessions: a Thanksgiving dinner that doesn't translate in Paris, a sudden yearning for bad Hollywood films. And all discover that what it means to be "American" is redefined, again and again. Expat taps into the bewilderment, the joys and surprises of life overseas, where the challenges often take unexpected forms and the obstacles overcome are all the more triumphant. Featuring an astonishing range of perspectives, destinations and circumstances, this collection offers a beautiful portrait of expatriate life.

The Solitary Sphere in the Age of Virgil uses an enriched tripartite model of Roman culture-touching not only the public and the private, but also the solitary-in order to present a radical re-interpretation of Latin literature and of the historical causes of this third sphere's relative invisibility in scholarship. By connecting Cosmos and Imperium to the Individual, the solitary sphere was not so much a way of avoiding politics, as a political education in itself. As re-imagined by literature in this age literature, this sphere was an essential space for the formation of the new Roman citizen of the Augustan revolution, and was behind many of the notable features of the literary revolution of Virgil's age: the expansion of the possibilities of the book of poetry, the birth of the literary cursus, new coordinations of cosmology and politics within strictly organized schemes, the attraction of first-person genres, and the subjective style. Through close readings of Cicero's late works and the oeuvres of Virgil, Horace, and Propertius and the works of other authors in the age of Virgil, The Solitary Sphere thus presents a revelatory reassessment of the classicism of classical Roman literature, and contributes to the study of pre-modern culture more generally, especially for traditions that have taken antiquity as too fixed a point in their own literary, religious, and cultural histories. In this carefully researched and engaging book, Kenneth Scambray surveys the lives and contributions of Italian immigrants in

thirteen western states. He covers a variety of topics, including the role of the Roman Catholic Church in attracting and facilitating Italian settlement; the economic, political, and cultural contributions made by Italians; and the efforts to preserve Italian culture and to restore connections to their ancestral identity. The lives of immigrants in the West differed greatly from those of their counterparts on the East Coast in many ways. The development of the West—with its cheap land and mining, forestry, and agriculture industries—created a demand for labor that enabled newcomers to achieve stability and success. Moreover, female immigrants had many more opportunities to contribute materially to their family's well-being, either by overseeing new revenue streams for their farms and small businesses, or as paid workers outside the home. Despite this success, Italian immigrants in the West could not escape the era's xenophobia. Scambray also discusses the ways that Italians, perceived by many as non-White, interacted with other Euro-Americans, other immigrant groups, and Native Americans and African Americans. By placing the Italian immigrant experience within the context of other immigrant narratives, *Italian Immigration in the American West* provides rich insights into the lives and contributions of individuals and families who sought to build new lives in the West. This unique study reveals the impact of Italian immigration and the immense diversity of the immigrant experience outside the East's urban centers.

This book explores the life and scientific legacy of Manfred Schroeder through personal reflections, scientific essays and Schroeder's own memoirs. Reflecting the wide range of Schroeder's activities, the first part of the book contains thirteen articles written by his

colleagues and former students. Topics discussed include his early, pioneering contributions to the understanding of statistical room acoustics and to the measurement of reverberation time; his introduction of digital signal processing methods into acoustics; his use of ray tracing methods to study sound decay in rooms and his achievements in echo and feedback suppression and in noise reduction. Other chapters cover his seminal research in speech processing including the use of predictive coding to reduce audio bandwidth which led to various code-excited linear prediction schemes, today used extensively for speech coding. Several chapters discuss Schroeder's work in low-peak factor signals, number theory, and maximum-length sequences with key applications in hearing research, diffraction gratings, artificial reverberators and decorrelation techniques for enhancing subjective envelopment in surround sound. In style, the articles range from truly scientific to conversationally personal. In all contributions, the relationship between the current research presented and Manfred Schroeder's own fields of interest is, in general, evident. The second part of the book consists of Schroeder's own memoirs, written over the final decade of his life. These recollections shed light on many aspects not only of Schroeder's life but also on that of many of his colleagues, friends and contemporaries. They portray political, social and scientific events over a period that extends from pre-war to the present. These memoirs, written in an inimitable and witty style, are full of information, entertaining and fun to read, providing key insight into the life and work of one of the greatest acousticians of the 20th century.

Investigating the interrelationships between orality and writing in elite and popular textual culture in early modern Italy, this volume shows how the spoken or sung word on the one hand, and manuscript or print on the other hand, could have interdependent or complementary roles to play in the creation and circulation of texts. The first part of the book centres on performances, ranging from realizations of written texts to improvisations or semi-improvisations that might draw on written sources and might later be committed to paper. Case studies examine the poems sung in the piazza that narrated contemporary warfare, commedia dell'arte scenarios, and the performative representation of the diverse spoken languages of Italy. The second group of essays studies the influence of speech on the written word and reveals that, as fourteenth-century Tuscan became accepted as a literary standard, contemporary non-standard spoken languages were seen to possess an immediacy that made them an effective resource within certain kinds of written communication. The third part considers the roles of orality in the worlds of the learned and of learning. The book as a whole demonstrates that the borderline between orality and writing was highly permeable and that the culture of the period, with its continued reliance on orality alongside writing, was often hybrid in nature.

The constant dialogue between literary forms of the Old and the New World is the core concern of the essays in *Through the Periscope*, which examine these ever-changing historical, intellectual, and psychological landscapes through the lens of Italian American culture. Moving beyond Little Italy, the book widens the spectrum of "pure" immigrant studies. It analyzes the *longue durée* of the revolutionary energies of 1848, an arc that leads from Margaret Fuller to Bob Dylan via the Great Migration of European peoples and languages, as well as the merging of various immigrant voices in the

"changing culture" of turn-of-the-century New York. It reclaims the importance of Dante for Italian American writers and follows the metamorphosis of a Romance language dense in masterworks and oral nuances through the multiple signs of a new "illiterature." Points of arrival are both the majestic proletarian novels of the 1930s and a contemporary poem like Robert Viscusi's *Ellis Island*. Martino Marazzi's volume underlines the richness of such an epic cultural transformation and its fundamental importance for a more thorough understanding of Euro-American relations.

This book argues that the sudden decline of old rural vernaculars – such as French patois, Italian dialects, and the Irish language – caused these languages to become the objects of powerful longings and projections that were formative of modernist writing. Seán Ó Ríordáin in Ireland and Pier Paolo Pasolini in Italy reshaped minor languages to use as private idioms of poetry; the revivalist conception of Irish as a lost, perfect language deeply affected the work of James Joyce; the disappearing dialects of northern France seemed to Marcel Proust to offer an escape from time itself. Drawing on a broad range of linguistic and cultural examples to present a major reevaluation of the origins and meaning of European literary modernism, Barry McCrea shows how the vanishing languages of the European countryside influenced metropolitan literary culture in fundamental ways.

Poised between the land and the sea,

enabling the dynamic flow of people and goods, while also figuratively representing a safe place of rest and refuge, the harbor constitutes a liminal, ambivalent space par excellence that has been central to the American imagination and history since the early colonial days. From the mythical tales of discovery and foundation to the endless flows of migrants, through the dark pages of the slave trade and the imperialistic dream of an ever-expanding nation, harbors, both as a trope and as physical spaces, powerfully signify the American experience. Today, at a time when ideas of border protection and policing gain political prominence in the U.S. and elsewhere, harbors and the constellation of meanings they subsume have become an even more crucial object of critical inquiry. In this volume, thirty-two American Studies scholars from around the world interrogate the manifold significance of ports and of the exchanges they enable or restrain, casting a decentered look onto the complex positioning of the United States in its political, ideological, and cultural relationships with the rest of the world. This collection thus offers a cutting-edge, interdisciplinary investigation of the U.S.A., engaging the most recent trends in American Studies and actively participating in the international and transnational reconfiguration of the field.
