A Guide to the Teachers College Reading and Writing Project Classroom Libraries

Heinemann

"These assessment tools make progress in writing as transparent, concrete, and obtainable as possible and put ownership for this progress into the hands of learners,

allowing students and teachers to work toward a very clear image of what good writing entails." -Lucy Calkins, Writing Pathways Lucy Calkins' groundbreaking performance assessments offer instructional tools to support continuous assessment, timely feedback, and clear goals tied to learning progressions that have been aligned with world-class standards. Originally published as part of the bestselling Units of Study in Opinion/Argument, Information, and Narrative Writing, grades K-8, Writing

Pathways is ideal for writing workshop, but suitable for any writing instruction context or curriculum. This practical guide includes: Learning progressions for opinion/argument, information, and narrative writing, which map the specific benchmarks students will master for every grade level On-demand writing prompts that support schoolwide performance assessment Student checklists to help students set goals and integrate crucial self-assessment into their work

Rubrics to support individual teachers and professional learning communities as they evaluate mastery and plan instruction within and across grade levels. Student writing samples that illustrate different ways students have exemplified standards and highlight essential features of each writing genre. Annotated exemplar pieces of writing on the same topic for every grade level that highlight the traits you can expect to see at each level of the learning progressions. Who needs Writing Pathways? Educators

who are not yet ready to implement the full Units of Study curriculum can use Writing Pathways to get started with Lucy Calkins' proven approach to writing assessment and instruction. Coaches and administrators who are supporting implementation of Lucy Calkins' Units of Study will find Writing Pathways to be an ideal resource to guide their work. Who doesn't need Writing Pathways? The content in this stand-alone edition is the same as in the previous editions found in

Lucy Calkins' Units of Study (K-5 and 6-8 are combined in this new edition). Teachers who have the Units of Study do not need this new edition. *Units of Study in Opinion, Information, and Narrative Writing* Firsthand Books Interactive Writing is specifically focused on the early phases of writing, and has special relevance to prekindergarten, kindergarten, grade

1 and 2 teachers. *Amazing Arctic Animals* Firsthand Books "Seventh graders relish their growing sense of control over their own lives and their sense of agency. In this first unit of the year, Writing Realistic Fiction: Symbolism, Syntax, and Truth, students write engaging short fiction. They lift the sophistication of their writing through attention to individual scenes, symbols, and writing techniques they've discovered from close readings of powerful

short fiction. Next, in Unit 2, Writing About Reading: From Reader's Notebooks to Companion Books, students learn to analyse the craft and structure of the authors they admire and to write for real audiences about why that craft matters. Finally, in Unit 3, The Art of Argument: Research-Based Essays, students learn to write essays that build convincing, nuanced arguments, balancing evidence and analysis to persuade readers to shift their beliefs or take action"--pearson.com.

Launching the Writing Workshop Perfection Learning In their first edition of Mentor Texts, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. In Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built

around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues.

The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

"The start of first grade is a time for dusting off the skills and habits that children learned during kindergarten. In the first unit, Building Good Reading Habits, you'll reinforce children's learning from kindergarten, and you'll establish ability-based partnerships that tap into the social power of peers working together to help each other become more strategic as readers. The second unit, Learning About the World: Reading Nonfiction, taps into children's natural curiosity as they explore nonfiction, while you teach comprehension strategies, word

solving, vocabulary, fluency, and author's craft. The third unit, *Readers Have Big Jobs to Do: Fluency, Phonics, and Comprehension*, focuses on the reading process to set children up to read increasingly complex texts. The last unit of first grade, *Meeting Characters and Learning Lessons: A Study of Story Elements*, spotlights story elements and the skills that are foundational to literal and inferential comprehension, including empathy, imagination, envisioning, prediction, character study, and interpretation"--provided by publisher.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins
Teaching Writing is Lucy Calkins at her best—a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to

inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics—the writing process, conferring, kinds of writing, and writing assessment—she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these simple yet powerful teaching acts. Download a sample chapter for more information.

Units of Study for Teaching Reading: Building good reading habits Firsthand Books

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Designed to help educators assess the “Big Five” components of reading

instruction as identified by the National Reading Panel—phonemic awareness, phonics, vocabulary, fluency, and comprehension—the CRI is recognized as a leader in the field for its ability to ensure quick and reliable assessment of the reading skills and needs of students in grades Pre-K through 12. The groundbreaking features that made this book’s original edition a top choice of teachers and literacy coaches for many decades are continued here, along with a number of changes that make

the analysis of data more efficient and increase student learning, among them a Spanish version to help educators better serve the needs of English speakers and/or English learners. *Boxes and Bullets* Stenhouse Publishers
Lucy Calkins and her colleagues at the Reading and Writing Project have helped thousands of educators design their own pathways to the Common Core. Now, with *Pathways to the Common Core*, they are ready to help you find your way. Designed for teachers, school leaders, and professional learning communities looking to navigate

the gap between their current literacy practices and the ideals of the Common Core, Pathways to the Common Core will help you understand what the standards say, suggest, and what they don't say; recognize the guiding principles that underpin the reading and writing standards; identify how the Common Core's infrastructure supports a spiraling K-12 literacy curriculum; and scrutinize the context in which the CCSS were written and are being unrolled. In addition to offering an analytical study of the standards, this guide will also help you and your colleagues implement the standards in ways that lift the level of teaching and learning throughout your school.

Narrative Craft Firsthand Books This book, part of the Whole Language Umbrella Series, offers a critical reexamination of "inquiry" and "whole language" as tools for rethinking literacy, schooling, and humanistic citizenship in the complexities of today's multicultural world. The essays in the book explore the political implications of literacy theories and practices by asking what kinds of inquiries promote or hinder the acquisition of literacies as tools for envisioning, critically exploring, and reconstructing knowledge and societies that are socially just. After an introduction ("The Inquirers and Their Questions" by the editors), essays in the book

are: (1) "What Education as Inquiry Is and Isn't" (Jerome C. Harste); (2) "Curriculum as Inquiry" (Kathy G. Short and Carolyn L. Burke); (3) "The Journey from Pedagogy to Politics: Taking Whole Language Seriously" (Susan M. Church); (4) "What's It Going To Be?" (Patrick Shannon); (5) "Critical Inquiry or Safe Literacies: Who's Allowed To Ask Which Questions?" (Barbara Comber); (6) "Writing for Critical Democracy: Student Voice and Teacher Practice in the Writing Workshop" (Timothy J. Lensmire); (7) "Classrooms in the Community: From Curriculum to Pedagogy" (Timothy Shannon and Patrick Shannon); (8) "'I Knew That Already': How Children's

Books Limit Inquiry" (Jennifer O'Brien); (9) "Examining Poverty and Literacy in Our Schools: Janice's Story" (Connie L. White); (10) "Classroom Inquiry into the Incidental Unfolding of Social Justice Issues: Seeking Out Possibilities in the Lives of Learners" (Vivian Vasquez); (11) "Our Kinds of Questions You Wouldn't Find in a Book" (Robyn Jenkin); (12) "Young Researchers in Action" (David Wray, Maureen Lewis, with Carolyn Cox); (13) "Different Cultural Views of Whole Language" (Lee Gunderson); and (14) "Inviting Reflective Global Inquiries: Politicizing Multicultural Literature, Mediated Student Voices, and English Literacies"

(Sibel Boran). (RS)

"This book will make the case for multiple, diverse kinds of analysis to be taught in the high school English classroom. In addition to showing what written analysis looks like "in the wild," the authors will provide readers with a framework of fundamental analytical skills for instruction. Importantly, Marchetti and O'Dell will advocate for framing analytical writing around

students' (of all levels and abilities) passions and expertise. And just as they do in their previous Heinemann book, *Writing with Mentors*, they will share resources for bringing many different kinds of analytical writing into the classroom"--

The book you're about to read is not only a superb analysis of rubrics but a lesson in how to

apply careful thinking to classroom practice. -Alfie Kohn, Author of *The Case Against Standardized Testing* This book will create the conversations educators desperately need about accurate assessment, quality in writing, and informed teaching. -Randy Bomer, Author of *For a Better World* The conventional wisdom in English education is that rubrics are the best and easiest tools for assessment. But sometimes it's better to be unconventional. In *Rethinking Rubrics in Writing Assessment*, Maja Wilson offers a new perspective on rubrics and argues for a better, more responsive way to think about assessing writers' progress. Though you may sense a

disconnect between student-centered teaching and rubric-based assessment, you may still use rubrics for convenience or for want of better alternatives. *Rethinking Rubrics in Writing Assessment* gives you the impetus to make a change, demonstrating how rubrics can hurt kids and replace professional decision making with an inauthentic pigeonholing that stamps standardization onto a notably nonstandard process. With an emphasis on thoughtful planning and teaching, Wilson shows you how to reconsider writing assessment so that it aligns more closely with high-quality instruction and avoids the potentially damaging effects of

rubrics. Stop listening to the conventional wisdom, and turn instead to a compelling new voice to find out why rubrics are often replaceable. Open *Rethinking Rubrics in Writing Assessment* and let Maja Wilson start you down the path to more sensitive, authentic style of writing assessment.

"In second grade, children move from a "little-kid" focus on print to a "big-kid" focus on meaning. The first unit, *Second-Grade Reading Growth Spurt*, teaches children to take charge of their reading, drawing on everything they know to figure out hard words, understand author's craft, and build big ideas about the books they read. Children learn that books can be their teachers in the second unit, *Becoming Experts: Reading Nonfiction*,

in which they learn more about figurative language, familiar topics and grow punctuation, and even patterns understanding of new topics to construct a series and evoke while working on word solving, feelings in vocabulary development, and readers"--Pearson.com. comparing and contrasting information across texts.
