Research shows that diverse workgroups are more productive, creative and innovative than homogeneous groups. In a global marketplace, and with the rapidly changing racial makeup of America, having a high function, diverse workforce is imperative for your organization's success. Change the WorkGame has been designed to show you how establish a diverse workforce throughout all strata of your organization and how to sustain your progress. As a human resources executive, diversity and inclusion consultant, and a member of historically marginalized communities, I have experienced wildly unsuccessful diversity and inclusion strategies; and advised, coached, and led wildly successful diversity and inclusion initiatives. Business leaders and department heads have used the steps outlined in this how-to guide to successfully recruit and retain diverse talent. Chris, a small business owner, says, "the diversity recruitment steps listed in the book, matched with real life scenarios really helps bring to life not only how to go about recruiting and retaining a diverse workforce, but why it is important." I promise that if you follow the 7 steps outlined in Change the WorkGame, you will increase the diversity of your workforce within 6 months following the activation of the last step and you will increase employee satisfaction by enhancing your managers and the inclusivity of your workplace. Don't wait to activate your diversity initiative. Don't wait to make your workforce stronger, nimbler, more creative, and more dynamic. Don't wait to establish an inclusive work environment where everyone feels respected, appreciated and heard. Be the person to take the lead towards Change. If not you, then who!? The workforce diversity and inclusion

strategies and scenarios you are about to read have been proven to create positive and long lasting results for leaders. These strategies will help ALL employees inside your organization, but will specifically help you recruit and retain underrepresented employees. Each chapter will give you new insights towards enhancing your workforce and your workplace. Let me show you how to be the Change for your company.

2020 upended every aspect of our lives. But where is our world heading next? Will pandemic, protests, economic instability, and social distance lead to deeper inequalities, more nationalism, and further erosion of democracies around the world? Or are we moving toward a global re-awakening to the importance of community, mutual support, and the natural world? In our lifetimes, the future has never been so up for grabs. The New Possible offers twenty-eight unique visions of what can be, if instead of choosing to go back to normal, we choose to go forward to something far better. Assembled from global leaders on six continents, these essays are not simply speculation. They are an inspiration and a roadmap for action. With essays by: Kim Stanley Robinson, Michael Pollan, Varshini Prakash, Vandana Shiva, Jack Kornfield, Mamphela Ramphele, Justin Rosenstein, Jack Kornfield, Helena Nordberg-Hodge, David Korten, Tristan Harris, Eileen Crist, Francis Deng, Riane Eisler, Arturo Escobar, Rebecca Kiddle, Mike Joy, Natalie Foster, Jess Rimington, Jeremy Lent, Atossa Soltani, Mark Anielski, Ellen Brown, John Restakis, Zak Stein, Oren Slozberg, Anisa Nanavati, and Fr. The New Possible Attard Coaching and Consulting

'A landmark in the process of decolonizing imperial Western knowledge.' Walter D. Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

This book provides a comprehensive introduction to modern auction theory and its important new applications. It is written by a leading economic theorist whose suggestions guided the creation of the new spectrum auction designs. Aimed at graduate students and professionals in economics, the book gives the most up-to-date treatments of both traditional theories of 'optimal auctions' and newer theories of multi-unit auctions and package auctions, and shows by example how these theories are used. The analysis explores the limitations of prominent older designs, such as the Vickrey auction design, and evaluates the practical responses to those limitations. It explores the tension between the traditional theory of auctions with a fixed set of bidders, in which the seller seeks to squeeze as much revenue as possible from the fixed set, and the theory of auctions with endogenous entry, in which bidder profits must be respected to encourage participation.

Shiva: Destroyer and Protector, Supreme Ascetic and Lord of the Universe. He is Ardhanarishwara, half-man and half-woman; he is Neelakantha, who drank poison to save the three worlds-and yet, when crazed with grief at the death of Sati, set about destroying them. Shiva holds within him the answers to some of the greatest dilemmas that have perplexed mankind. Who is Shiva? Namita Gokhale examines this question and many others that lie within the myriad of stories about Shiva. Even as she unravels his complexities, she finds a philosophy and worldview that is terrifying and yet life affirming-an outlook that is to many the essence of Indian thought.

In 1913, photos of The Nataraja bronze from the Chennai Museum inspired Auguste Rodin's text The Dance of Shiva. Written at the end of his life, this vision of Shiva, Lord of actor/dancers, revealed the underlying links between Rodin's dance sculptures (1910), the Cambodian dancer drawings, and his private collection of antique Venus and Buddha sculptures and wood carvings from India. In this book, historians, artists and poets both French and Indian, bring us a new international vision of Rodin's work.
