Many people,

who have good command over the language and are well are of its grammar and composition, can't speak the language fluently. Why? The answer is simple. While speaking they try to construct a sentence in their mother language and do the mental translation before uttering a single line. This creates not only confusion but utter chaos in their mind. As a result they feel great hesitation to speak simple sentences. In some cases, however, the problem is more complex, as they lack the basic knowledge of the English language. Rapidex English Speaking Course takes care of both the cases. So, what are you waiting for? Go ahead and discover the secret of fluency in English speaking. Explore and develop your hidden potential and face the world with a new-found confidence and smartness. Only the sky should be your limit. Mary Ann Hallenborg Potential whistle-blower beware. Whistling blowing act might lead to career suicide. So think carefully before you plunge into action, because ultimately the price you have to pay is your dismissal. Government agency apparently is rarely prepared to admit mistakes or attend to the views expressed by their workers. In fact, more often than not, they

would rather deny the charges from workers and continue to not respond to it or even lie about it. Government agency often issues its policy statement encouraging its employees to freely express their view without fear of retribution or reprisals. But be careful before you take the bait, which I did. Employees should know that there is also an unwritten policy, which is to harass or retaliate against people critical of or who disagree with any action taken by the agency. These people are labeled troublemakers and will eventually be terminated. Remember government rarely practices what it preaches, period. Government will often spend an enormous amount of time and resources to orchestrate the removal of the so-called whistle

blowers, a.k.a. troublemakers. These whistle blowers are often persecuted for the only crime they committed which is to tell the truth, and would ultimately be dismissed from their jobs. My advice to the would-be whistle blower is this: do not blow the whistle unless you are prepared to lose everything. It is better to remain silence than to speak out to lose your job. Residential Landlord and Tenant Law, 1980 Mary Ann Hallenborg Every California landlord and property manager should have this book--which covers everything they need to know about deposits, leases and rental agreements, inspections, habitability, discrimination, and rent control.
