Constitutional Amendment Relating to School Prayer ABC-CLIO

In *Hear the Word of the Lord: The Lectionary in Catholic Ritual*, Martin Connell offers an in-depth understanding of the Roman Catholic Lectionary for Mass. He presents a theology of the Word of God that is grounded in both ancient and ongoing liturgical practices of hearing and proclaiming the Word in the Church. Steeped in the history and composition of the New Testament, Connell traces the development of the Lectionary from the letters of St. Paul to the current Lectionary, demonstrating the way in which a listening assembly serves as an essential component of both our experience and our understanding of Scripture. In addition, Connell presents a comprehensive look at the structure of the Lectionary and its role in the liturgical year. *Catholic Baby's First Prayers* Infobase Publishing

"Solomon's fascinating and sweeping history of the legal fight over mandatory school prayers is compelling, judicious, and elegantly written. Fabulous!" — David Rudenstine, Dean, Benjamin N. Cardozo School of Law, Yeshiva University "Stephen Solomon's Ellery's Protest provides a brilliant analysis of a major Supreme Court decision that redefined the relationship between church and state almost a half century ago. This study goes well beyond simply offering a gripping account of the course of litigation that brought before the Justices the contentious issue of prayer and Bible reading in public schools, though the thoroughness of that account would merit careful reading by itself. Especially impressive is the author's deep probing of hitherto neglected sources, and invaluable primary material including extensive direct contact with the plaintiff, the 'Ellery' of the book's title. Finally, and perhaps most impressive, is Solomon's careful placement of the issue and the case in a far broader context that is as critical to national life and policy today as it was four and a half decades ago when the high Court first tackled these questions." — Robert O'Neil, Professor of Law, University of Virginia Great legal decisions often result from the heroic actions of average citizens. Ellery's Protest is the story of how one student's objection to mandatory school prayer and Bible reading led to one of the most controversial court cases of the twentieth century—and a decision that still reverberates in the battle over the role of religion in public life. *Abington School District v. Schempp* began its journey through the nation's courts in 1956, when sixteen-year-old Ellery Schempp protested his public school's compulsory prayer and Bible-reading period by reading silently from the Koran. Ejected from class for his actions, Schempp sued the school district. The Supreme Court's decision in his favor was one of the most important rulings on religious freedom in our nation's history. It prompted a conservative backlash that continues to this day, in the skirmishes over school prayer, the teaching of creationism and intelligent design, and the recitation of the Pledge of Allegiance with the phrase "under God." Author Stephen D. Solomon tells the fascinating personal and legal drama of the Schempp case: the family's struggle against the ugly reactions of neighbors, and the impassioned courtroom clashes as brilliant lawyers on both sides argued about the meaning of religious freedom. But Schempp was not the only case challenging religious exercises in the schools at the time, and Ellery's Protest describes the race to the Supreme Court among the attorneys for four such cases, including one involving the colorful atheist Madalyn Murray. Solomon also explores the political, cultural, and religious roots of the controversy. Contrary to popular belief, liberal justices did not kick God out of the public schools. Bitter conflict over school Bible reading had long divided Protestants and Catholics in the United States. Eventually, it was the American people themselves who removed most religious exercises from public education as a more religiously diverse nation chose tolerance over sectarianism. Ellery's Protest offers a vivid account of the case that embodied this change, and a reminder that conservative justices of the 1950s and 60s not only signed on to the Schempp decision, but strongly endorsed the separation of church and state.

In 1962 and 1963 the U.S. Supreme Court announced its rulings

enjoining prayers and devotional Bible reading in the public schools. Stunned by the edicts, hundreds of thousands of Americans expressed their ire by imploring members of Congress to initiate a constitutional amendment to overturn the federal decrees, a step for which there had been precedents in the enactment of the Eleventh and Sixteenth Amendments. Despite spectacular efforts to frame a school prayer amendment in the two houses of Congress, passage failed in each case. Notwithstanding the disillusionment which attended these failures, school prayer advocates continue to press relentlessly for legislative action. - Preface.

It isn't just in recent arguments over the teaching of intelligent design or reciting the pledge of allegiance that religion and education have butted heads: since their beginnings nearly two centuries ago, public schools have been embroiled in heated controversies over religion's place in the education system of a pluralistic nation. In this book, Benjamin Justice and Colin Macleod take up this rich and significant history of conflict with renewed clarity and astonishing breadth. Moving from the American Revolution to the present—from the common schools of the nineteenth century to the charter schools of the twenty-first—they offer one of the most comprehensive assessments of religion and education in America that has ever been published. From Bible readings and school prayer to teaching evolution and cultivating religious tolerance, Justice and Macleod consider the key issues and colorful characters that have shaped the way American schools have attempted to negotiate religious pluralism in a politically legitimate fashion. While schools and educational policies have not always advanced tolerance and understanding, Justice and Macleod point to the many efforts Americans have made to find a place for religion in public schools that both acknowledges the importance of faith to so many citizens and respects democratic ideals that insist upon a reasonable separation of church and state. Finally, they apply the lessons of history and political philosophy to an analysis of three critical areas of religious controversy in public education today: student-led religious observances in extracurricular activities, the tensions between freedom of expression and the need for inclusive environments, and the shift from democratic control of schools to loosely regulated charter and voucher programs. Altogether Justice and Macleod show how the interpretation of educational history through the lens of contemporary democratic theory offers both a richer understanding of past disputes and new ways of addressing contemporary challenges.

School Prayer Constitutional Amendment UPNE

For most people most of the time, prayer is hard. It is especially difficult—not to mention unsatisfying—when people experience it as formal, dry, and repetitious. But what might happen if you discovered a simple prayer that changed all that? What if you discovered a prayer that changed you? In *A Simple, Life-Changing Prayer*, Jim Manney introduces Christians to a 500-year-old form of prayer that dramatically altered his perception of prayer and the way he prayed. The prayer is the examen, which St. Ignatius Loyola developed for the purpose of nurturing a reflective habit of mind that is constantly attuned to God's presence. What makes the prayer so powerful is its capacity to dispel any notion that God is somewhere "up there," detached from our day-to-day tasks and concerns. Instead, the examen leads us into a relationship with a God who desires to be personally caught up in the lives of those whom he created. By following five simple yet powerful steps for praying the examen, we can encounter the God who, as Scripture tells us, "is not far from each one of us"—the God whose presence in our lives can make all the difference in the world.
