

Das Lexikon Der Ersten Und Letzten Male

When somebody should go to the books stores, search commencement by shop, shelf by shelf, it is truly problematic. This is why we offer the ebook compilations in this website. It will agreed ease you to look guide **Das Lexikon Der Ersten Und Letzten Male** as you such as.

By searching the title, publisher, or authors of guide you truly want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections. If you aspire to download and install the Das Lexikon Der Ersten Und Letzten Male, it is utterly easy then, since currently we extend the join to purchase and make bargains to download and install Das Lexikon Der Ersten Und Letzten Male for that reason simple!

Plett - Schmidseher Walter de Gruyter

In forty-one essays eminent historians of culture, religion, and social history redefine and redirect the debate regarding the scope and impact of European anticlericalism during the period 1300-1700. The meaning of reform and resentment is here clearly articulated.

Mein erstes Kinder-Lexikon des Wissens BRILL

The series Handbooks of Linguistics and Communication Science is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction.

Sing Romantic Music Romantically BRILL

This book offers a long-overdue examination of choral performance practices in the 1800s, including expressive devices, pronunciation, instruments, and choral/orchestral placement. More than one-hundred musical examples, illustrations, tables, and photographs and contemporaneous sources detail how choral music was sung in this time period.

Mein erstes Lexikon Walter de Gruyter

Twenty scholars have contributed to this book which deals with the development and characteristics of the literature of ancient Egypt over a period of over more than two millenia, from the monumental origins of autobiography at the end of the Old Kingdom (ca. 2150 BC) down to the latest literary compositions in Demotic during the Graeco-Roman period (300BC-200AD). The book is divided into thirty chapters concerned with the definition of literary discourse, the history and genre of the texts, their linguistic and stylistic features and the image of Egypt as displayed in later literary traditions - Greek, Coptic and Arabic. Thoroughly interdisciplinary. "Sprich doch mit deinen Knechten aram ä isch, wir verstehen es!" Walter de Gruyter

The series Handbooks of Linguistics and Communication Science is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction.

Universal-Lexikon Der Tonkunst Walter de Gruyter

Reveals Ann Tizia Leitich, American correspondent for Austrian newspapers in the 1920s and 1930s, as an important cultural mediator between the two countries.

Sociolinguistics / Soziolinguistik. Volume 2 BRILL

A scholar of Hellenistic and Prussian history, Droysen developed a historical theory that at the time was unprecedented in range and depth, and which remains to the present day a valuable key for understanding history as both an idea and a professional practice. Arthur Alfaix Assis interprets Droysen's theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history, and focuses on Droysen's claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically. In addition, Assis examines the connections and disconnections between Droysen's theory of historical thinking, his practice of historical thought, and his political activism. Ultimately, Assis not only shows how Droysen helped reinvent the relationship between historical knowledge and human agency, but also traces some of the contradictions and limitations inherent to that project.

Absolute War BRILL

Wars have played a fundamental part in modern German history. Although infrequent, conflicts involving German states have usually been extensive and often catastrophic, constituting turning-points for Europe as a whole. Absolute War is the first in a series of studies from Mark Hewitson that explore how such conflicts were experienced by soldiers and civilians during wartime, and how they were subsequently imagined and understood during peacetime, from Clausewitz and Kleist to J ü nger and Adorno. Without such an understanding, it is difficult to make sense of the dramatic shifts characterising the politics of Germany and Europe over the past two centuries.

The studies argue that the ease - or reluctance - with which Germans went to war, and the far-reaching consequences of such wars on domestic politics, were related to soldiers' and civilians' attitudes to violence and death, as well as to long-term transformations in contemporaries' conceptualisation of conflict. *Absolute War* reassesses the meaning of military conflict for the millions of German subjects who were directly implicated in the Revolutionary and Napoleonic Wars. Based on a re-reading of contemporary diaries, letters, memoirs, official correspondence, press reports, pamphlets, treatises, plays, and cartoons, this volume refocuses attention on combat and conscription as the central components of new forms of mass warfare. It concentrates, in particular, on the impact of violence, killing, and death on many soldiers' and some civilians' experiences and subsequent memories of conflict. War has often been conceived of as 'an act of violence pushed to its utmost bounds', as Clausewitz put it, but the relationship between military conflicts and violent acts remains a problematic one.

Ancient Egyptian Literature Rowman & Littlefield

Das fünfbändige "Lexikon der Mathematik" bietet in insgesamt ca. 17.000 Stichworteinträgen einen umfassenden Überblick über die moderne Mathematik, ihre Fachterminologie und ihre Anwendungen. Die behandelten Fachgebiete reichen von klassischen Themengebieten wie Geometrie, Zahlentheorie und Geschichte der Mathematik – über Numerische Mathematik, Graphentheorie, Versicherungsmathematik und Optimierung – bis hin zu modernen Anwendungsbereichen wie etwa Wavelets, Codierungstheorie oder Neuronale Netze. Besondere Berücksichtigung finden die Biographien bedeutender Wissenschaftler von der Antike bis zur Gegenwart. Dadurch wird dem Umstand Rechnung getragen, dass gerade in der Mathematik eine Fülle von Verfahren, Methoden oder auch Lehrsätzen existieren, die nach berühmten Persönlichkeiten benannt sind – z.B. abelsche Gruppe, Satz des Pythagoras und euklidischer Algorithmus. Ein Charakteristikum des Werkes sind die zahlreichen Essays von international anerkannten Fachleuten, in denen entweder ein mathematisches Fachgebiet übersichtlich vorgestellt oder ein "Highlight" der Mathematik besonders gewürdigt wird. Im vorliegenden ersten Band finden Sie unter anderem Essays zu den Themen Arabische Mathematik und Codierungstheorie. Hauptzielgruppen des Lexikons sind neben Mathematikern in Schule, Hochschule und Wirtschaft vor allem Fachleute und Wissenschaftler benachbarter Disziplinen sowie mathematisch interessierte Laien. Mit der vorliegenden Neuauflage wird das in Umfang und Qualität auf dem deutschsprachigen Markt einzigartige Werk – 15 Jahre nach der Erstveröffentlichung – wieder lieferbar gemacht. Aus diesem Anlass wurden kleinere Ungenauigkeiten korrigiert sowie die Lebensdaten einiger inzwischen leider verstorbener Persönlichkeiten aktualisiert. Aufgrund rechtlicher Unklarheiten mussten die im Erstdruck enthaltenen Porträtabbildungen bekannter Mathematikerinnen und Mathematiker leider entfernt werden.

Journal of Institutional and Theoretical Economics Walter de Gruyter GmbH & Co KG

Since the publication of the first edition of the handbook *Sociolinguistics/Soziolinguistik*, the then young

discipline has changed and developed considerably. The field has left behind its status as an interdiscipline between sociology and linguistics and is now a worldwide established field. Sociolinguistics continues to contribute to solving practical problems in areas such as language planning and standardization, language policy, as well as in language didactics and speech therapy. Moreover, new topics and areas of application have arisen from the autonomy of the discipline - these have been systematically and extensively included in the second edition of the handbook. The new overall concept depicts the regional and disciplinary representativity of sociolinguistic research while offering an encyclopedia-like usability for all its readers. This includes theoretical depth and stringency for readers interested in theory, as well as methodical abundance and detail for empirical researchers. The descriptions of methods are so informative and precise that they can directly be used in the preparation of project planning. Similarly, the descriptions in the practice-oriented articles are so precise that users can accurately assess to what extent they can expect a certain sociolinguistic approach to help solve their problems. With an extensive description as its goal, the second edition of the handbook *Sociolinguistics/Soziolinguistik* takes into account the current standing of the discipline and the modified structure of the field.

Red Vienna, White Socialism, and the Blues Walter de Gruyter

The "Dictionary of German National Biography" is unique, complete and comprehensive with biographies of 60,000 people from the German-speaking world. It covers not only individuals from Germany but also from Austria, Switzerland and other countries where German is or used to be spoken. Coverage stretches all the way from the time of Charlemagne to the present day and includes lesser-known as well as world-famous Germans. In order to ensure that entries were as objective as possible, only individuals whose life and works have come to an end were included.

Lexicographica. Series Maior features monographs and edited volumes on the topics of lexicography and meta-lexicography. Works from the broader domain of lexicology are also included, provided they strengthen the theoretical, methodological and empirical basis of lexicography and meta-lexicography. The almost 150 books published in the series since its founding in 1984 clearly reflect the main themes and developments of the field. The publications focus on aspects of lexicography such as micro- and macrostructure, typology, history of the discipline, and application-oriented lexicographical documentation.

Fachsprachen / Languages for Special Purposes. 2. Halbband Boydell & Brewer

This volume pays tribute to the diversity of Adolf Deissmann's work as philologist, theologian and ecumenist and attempts to contextualise contemporary debates on his contribution historically. Dieser Sammelband würdigt das facettenreiche Schaffen Adolf Deissmanns als Philologe, Theologe und Ökumeniker und versucht, die zeitgenössischen Debatten um seine Leistungen historisch zu kontextualisieren.
