Creaselighting was my third collection of models. It followed from *Origami Projects* and *More Origami projects*. The premise of the book was to develop a book around folding techniques rather than what the model was. The project explores folding techniques and different styles of folding. Central to the book is the question "How do I fold?" rather than, "What am I folding?". For most of the projects the folding journey should be as interesting as the destination. I have tried to avoid complexity and kept all the models as simple and elegant as possible. My main consideration is producing models that are enjoyable to make. The next section starts to explore some of the themes in the book and gives a bit more background to the models themselves and why I have included them. Most of all, if you have got this far, I hope you enjoy the origami. It took several years to develop the models and ideas in *Creaselighting*. If you have any thoughts or comments, do let me know. In 2004 I embarked on working full time as an origami designer. This has given me many more opportunities to write and develop origami books. Although many of these were commissions and designed in conjunction with the respective publishers.

Skateboard stickers have always been highly collectable, and this will be the first book to bring together some of the most popular stickers, both classic and new. At a time when skateboarding has already established itself in the mainstream, and is now coming back into the 'cool', the book will have massive appeal, combining a nostalgic 'revival' element appealing to the older generation of skaters, while also having a big appeal to current younger skateboard enthusiasts.

The book will also have global appeal due to the widespread popularity of skateboarding culture. The book will feature stickers from the following brands: Alien Workshop, REAL, Toy Machine, Girl, and Santa Cruz. Approximately 30 stickers will be included from each brand.
