School teachers and administrators may be the largest single group of rule enforcers in American society. Operating under legislative statutes, court cases, board policies, program regulations, and so on, there appears to be no end to the part of their profession that calls on them to be on-the-spot enforcers in an adult-to-child relationship. This handbook takes both the broader and narrower aspects of the law and combines them to provide an extended understanding of the realities in which professionals must perform as employees in elementary and secondary schools. Organized by broad topics, the volume covers all key aspects of the law as it applies from administering personnel to religion in the schools.

Named one of Grown & Flown's “Best Book on College Admissions and Paying for College” “The most honest, most helpful book I’ve ever read on applying to college” —New York Times bestselling author Adam Grant A former Ivy League Admissions Officer offers an inspiring battle cry for sanity in the college application process that looks beyond the rankings to successfully determine what’s truly the best school for you or your child. After spending years

as a college admissions director at Dartmouth, Becky Munsterer Sabky had seen it all. The perfect grades, the perfect scores, and the perfect extracurriculars. Valedictorians were knocking at the gate, but Becky realized that in their quest for admission many of these students were missing something. Their transcripts were golden, their interviews polished, but they weren’t applying for college, they were competing for it—and in the end they didn’t know what prize they were really striving for. In *Valedictorians at the Gate*, Sabky looks beyond the smoke and mirrors of the intimidating admissions gauntlet and places the power firmly where it should be: in the hands of the students themselves. Offering prescriptive, actionable advice for students and their (hopefully not helicoptering) parents, Sabky illuminates the pathway to finding the school that is the ideal match. Witty and warm, informative and inspiring, *Valedictorians at the Gate* is the needed tonic for overstressed, overworked, and overwhelmed students on their way to the perfect college for them.

It should be a welcome addition to academic and large public libraries. Also available as an ebook." — Booklist The Encyclopedia of Education Law is a compendium of information drawn from the various dimensions of education law that tells its story from a variety of perspectives.
