In this internationally acclaimed novel, Steve Sem-Sandberg brilliantly refracts the story of Büchner's groundbreaking play *Woyzeck* through a new lens *W.*, the astonishing new novel by August Prize-winning author Steve Sem-

Sandberg, is a literary reimagining of one of modern literature's touchstone texts, the play *Woyzeck*. Considered the first modern drama, *Woyzeck* tells the story of a loyal soldier and survivor of the Napoleonic Wars who, in a fit of jealous rage, kills the woman he loves. In 1836 this true story inspired Georg Büchner to write the play, unfinished at his death at just twenty-three years old. *W.* grippingly recounts the lovers' relationship, the murder case, and the soldier's execution. The story unfolds as the soldier *W.* struggles to recount the events of his life. He grasps at understanding and experiences feelings of time and

timelessness. He finds patterns and repetitions, but these are of no interest to those determining his fate. Sem-Sandberg searched court archives to bring new light to this story, and he masterfully sustains a rich period atmosphere through poetic and controlled prose, down to the choice of pronouns as the soldier is held at a cold distance in court proceedings when addressed with the formal, capitalized "You." Against a landscape devastated by inhumanity and greed that, yet, manages to sustain hope, Steve Sem-Sandberg's *W.* tells a ruthless, moving, and utterly relevant story as the soldier *W.* desperately and humanly fights to make something of

the life given to him.

range of workbooks designed especially for learners pursuing ILM qualifications. BPP Learning Media specialises in the publishing of user-friendly books which are up-to-date and focused on relevant subject areas and offer you a wealth of expertise from our authors and tutors. The Contours of Police Integrity Human Sciences Research The contribution that this book makes to scholarship is regarded as ground-breaking, as it is based on recent

research conducted with teachers on the ground-level, as well as on research and experiences of practitioners, gained over many years. In this volume, Understanding education for the visually impaired, the focus falls on understanding visual impairment within the South African context, more specifically on what the education of these learners entails. In addition to the contribution to existing literature in the fields of inclusive education and visual impairment, the publication has

practical application of the value for teachers and practitioners who work with and support such learners.

Cognella Academic Publishing

Presenting a comprehensive overview of the potential for police misconduct worldwide, leading criminal justice scholars have compiled survey and case data from 10 countries chronicling police integrity and misconduct.

Shaping the Future of South Africa's Youth DCAF

This book foregrounds emerging and different perspectives on the

centenary of the ANC which was celebrated in February 2012. Differing in tenor, methodology and style, we present nineteen chapters that tackle various epochs and events in the making of the centenary of the oldest political organisation in Africa. The book offers new angles to our understanding of what sustained the ANC over one hundred years in spite of all the internal and external contradictions. There is arguably a view that part of what distinguishes the ANC from

other revolutionary movements in the continent is that from the turn of the twentieth century its founders prioritised national unity across tribal, ethnic, linguistic, religious, gender and racial identities. This ideal of national unity informed their responses to the formation of the Union of South Africa in 1910 and the declaration of the South African Republic in 1961. In principle, the leadership was opposed not to these manifestations of concrete nation state formation but to the practice of

excluding the majority of South African citizens according to racial markers. As a contribution to the historiography of the ANC and that of South Africa which it was established to liberate, the book tackles the following critical questions: what traits in the ANC's genetic code have kept it alive for one hundred years? Is the ANC on course to meeting its historical mission of building an equitable, nonracial, non-sexist and socially-democratic society as articulated in the Africans' Claims, the Freedom Charter and the Strategy and Tactics documents? Finally, would the ANC continue to retain relevance for a bicentenary especially as it now contends with new internal and external contradictions in an increasingly unequally society and unipolar world order? This new hypothetical architecture, hopefully, will be employed by many others engaged in the study of the rise and fall of political organisations. Interim Policy for Early Childhood Development
 African Minds
 This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the

The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

Report of the Study Team on the Implementation of

the National Qualifications Framework SAGE Publications
In Finding Voice, Kim Berman demonstrates how she was able to use visual arts training in disenfranchised communities as a tool for political and social transformation in South Africa. Using her own fieldwork as a case study, Berman shows how hands-on work in the arts with learners of all ages and backgrounds can contribute to economic stability by developing new skills, as well as enhancing public health and gender justice within communities.

Berman 's work, and the community artwork her book documents, present the visual arts as a crucial channel for citizens to find their individual voices and to become agents for change in the arenas of human rights and democracy.

Introduction to Policing The Open University

This year's 'Word Development Report', the twenty-

eighth, looks at the role of equity in the development process. It defines equity in terms of two basic principles. The first is equal opportunities: that a person's chances in life should be determined by his or her talents and efforts, rather than by pre-determined circumstances such as race, gender, social or family background. The second principle is the avoidance of extreme deprivation in outcomes, particularly in health, education and consumption levels. This principle thus includes the objective of poverty reduction. The report's main message is that, in the

long run, the pursuit of equity and the pursuit of economic prosperity are complementary. In addition to detailed chapters exploring these and related issues, the Report contains selected data from the 'World Development Indicators 2005'--an appendix of economic and social data for over 200 countries. This Report offers practical insights for policymakers, executives, scholars, and all those with an interest in economic development. Social Anthropology of Work Routledge Introduction to Policing, Third Edition continues to focus on the thought-

provoking, contemporary issues that underscore the challenging and rewarding world of policing. Steven M. Cox, Susan Marchionna, and experienced law enforcement officer Brian D. Fitch balance theory, research, and practice to give students a comprehensive, yet concise, overview of both the foundations of policing and the expanded role of today 's police officers. The accessible and engaging writing style, combined with stories from the field, make policing concepts and practices easy for students to

understand and analyze. Unique coverage of policing in multicultural communities, the impact of technology on policing, and extensive coverage of policing strategies and procedures — such as those that detail the use of force — make this bestselling book a must-have for policing courses. Parliamentary Oversight of the Security Sector University of Michigan Press Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country ' s apartheid system was

replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency—the South African Police Service (SAPS)—that would provide unbiased policing to all the country ' s people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South

Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers, probing their familiarity with official rules, their expectations of discipline within the

SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

From a renowned group of international

scholars, this new work examines how leading economic countries use sport business to drive and further economic development by raising brand awareness (country as a brand), transforming lagging communities, and enhancing travel and tourism in the country.

The Casino Model
SAGE
South Africa: Past, Present, and Future

generates discussion and interest in a country that is rich in both material and cultural resources. The

anthology provides a well-rounded look at South Africa from diverse perspectives, and places South Africans at the center of their history. The three sections of the book detail the history of South Africa including its historical and cultural roots as a great country within the family of nations, apartheid and its collapse, and the country after apartheid as South Africans struggle to reconcile and reconstruct a democratic "Rainbow Nation." The selected readings address a

variety of topics including the land reform crisis, the fight for justice for women, the role of capitalism, and South Africa's political parties. Each selection is framed by an original introduction to contextualize the readings, post-reading commentary, and review questions. South Africa: Past, Present, and Future offers readers in-depth, accurate information. The anthology is designed for courses that study the history and politics of the country and the

region. It is also an excellent text for courses that examine the relationship between the United States and South Africa.

and an expanded post-school educational system -- Trends in training in South Africa -- Key issues in the assessment of South Africa's national skills development strategy -- Opening the doors of learning? Viewing the post-school education and training landscape from a youth perspective.

Police Integrity in South Africa
Twenty years after the introduction of BEE, Phinda Madi believes it's time to reflect on its success. Clear trends can now be discerned and there are numerous lessons to be learned. He contends there is an unfortunate narrative that is gaining traction in

South Africa generally baby both survives and in the corporate world in particular, that BEE has been nothing but a "e;smoke-and-mirrors"e; initiative towards oligarchy, hence the chosen title: BEE 20 years later - The Baby and The Bathwater. As the title suggests, there is a tendency to want to 'throw the baby out with the bathwater'. His book argues that we need to make a clear distinction between the bouncing baby and the (at times) dirty bathwater. This book puts forward a very frank, clinical and balanced argument on how this distinction needs to be made, as well as why and how we should ensure the

Diagrams, charts and graphs

and thrives going forward, whilst getting rid of the ugly side of BEE (the dirty bathwater). But more importantly, he examines how to restore the credibility of this process, so it truly and genuinely moves away from just being seen as the enrichment of the few and lives up to its true promise: The economic empowerment of the many. This is the book that will ignite the change in BEE in South Africa!
