Land Rover Series II, IIA and III Haynes Manuals N. America, Incorporated  
This book neutrally discusses the concepts and potential implications of the recent executive order by Donald J Trump; America's 45th President, to close the US borders from seven majority-Muslim countries; (i) Iran; (ii) Iraq; (iii) Syria; (iv) Libya; (v) Sudan; (vi) Somalia; (vii) and Yemen. An exploration of how this decision could affect global economies, enterprises, socio-culture and domestic citizens, will be analysed and concluded with recommendations; which if implemented appropriately by governments and global/national institutions, could lead to favourable outcomes for majority and minority

subjects. The imperatives of US social values and beliefs are also explored, thus enabling a comprehensive and unbiased debate to occur allowing readers to evaluate all presented arguments; and come to their own logical conclusion(s). Social interconnectivity and modernistic values underpin the majority of major economic decisions and policies in 2017, therefore the repercussions of an agenda which could be construed as divisive may have significant social, political and economic ramifications for America's 44th President. An academic methodology is used to ensure evaluative criticality, theoretical reasoning and warranted recommendations throughout this piece. Oh, and thanks for reading; feel free to share this literature with associates, friends, and family to generate broader opinion across this highly pertinent and engulfing subject matter, thank you.
