to connect with the goddesses, the author reveals the long-lost personalities and powers of each deity. She explores the Norse goddess Frigg the Allmother, wife of Odin, along with the 12 Asynjur, or Aesir goddesses, associated with her, such as Sjofn the peacemaker, Eir the Healer, and Vor the Wisewoman. She shares their appearances in the Eddas and Germanic mythology and explains the meanings of their names, their relationships to each other, and their connections

to the roles of women in Old Norse society. She provides detailed instructions for invocations and rituals to call each goddess forth for personal and group spirit work. She also offers a comprehensive guide to ritual tranceworking to allow anyone to directly experience deities and spiritual beings and develop spirit-work relationships with them.

Magic Whispers (1342 +) to Simplify Your Life Nicholas Mag Winner, 2017 Etel Adnan Poetry Prize  
In the magic my body becomes, Jess Rizkallah seeks a vernacular for the inescapable middle ground of being Arab American—a space that she finds, at times, to be too Arab for America and too American for her Lebanese elders. The voice here freely asserts gender, sexuality, and religious beliefs, while at the same time it respects a generational divide: the younger's privilege gained by the sacrifice of the

---

older, the impossibility of separating what is wholly hers from what is hers second-hand. In exploring family history, civil war, trauma, and Lebanon itself, Rizkallah draws from the spirits of canonical Arab and Middle Eastern poets, and the reader feels these spirits exorcising the grief of those who are still alive. Throughout, there is the body, a reclamation and pushback against cultures that simultaneously sexualize and shame women. And there is a softness as inherent as rage, a resisting of stereotypes that too often speak

louder than the complexities of a colonized, yet resilient, cultural identity. Rizkallah's the magic my body becomes is an exciting new book from an exciting young poet, a love letter to a people as well as a fist in the air. It is the first book in the Etel Adnan Poetry Series, publishing first or second books of poetry in English by writers of Arab heritage.

Body stories capture a nuanced, interconnected, interactive, and complex telling of our understanding, perception, and experience of and through our bodies. Plenty has been published on body image but image suggests a static fixed body, unmitigated through our social interactions and varying times and spaces. This book is not a "how-to" guide for fat confidence. It's not a compendium of fat suffering. It's simply a collection of narratives about what it's like to survive in a weight-hating world. It resists the ways that marginalized bodies are being written and researched and put into other people's ideas about

---

our existence. The stories in this book are celebratory and are painful. They look at intersections of race and queerness; they destabilize womanhood by presenting a range of possible female embodiments. They explore issues of disability and madness. The full range of possibilities that are collected here give a picture of what it means to live in a society with strong and powerful messages about size, about normalcy, about what a moral and healthy life and body look like. This book is a snapshot of its place and time, but these stories remind us that we're here to stay. The body stories will change but we will keep owning our own narratives. While

story, especially written by women, is often seen as outside the academic canon, these stories, these creative offerings, are theory, are research, and are activism. They are nothing less than the blueprint for liberation. Writing about fat and about bodies outside of medicalized narratives, without ignoring the impact of race, sexuality, class, ability, gender, fashion, appearance, and beyond, is radical and rigorous. It is impossible to think about the future without wishing for liberation. Liberation can come in many forms. It can mean an awareness, the ability to confront. The stories in this book display the ways that
