First Aid, Survival, and CPR Simon and Schuster
This New American Red Cros CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children.

Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your

most important responsibility as a professional rescuer- the responsibility to save lives.

2020 American Heart Association Guidelines
Staywell Company

The First Aid Manual is the UK's only fully authorised first aid guide, endorsed by St John Ambulance, St Andrew's First Aid and the British Red Cross and packed with step-by-step first aid advice. Used as the official training manual for the UK's leading first aid organisations' courses, the bestselling First Aid Manual covers all aspects of first aid, from emergency first aid and first aid for babies and children, to the latest guidelines on resuscitation, helping a drowning casualty, and snake bites. Find out how to treat over 100 different conditions from splinters and sprained ankles to strokes and unresponsiveness and how to use essential equipment including a defibrillator. Step-by-step photography, all shot in-situ to reflect real-life issues, shows you what to do in any situation. The ideal first aid book for you and your family, keep the First Aid Manual handy; it could be a life-saver. (Previous edition ISBN 9781409342007)

Pediatric Advanced Life Support Provider Manual Harper Collins

Caregivers and teachers need to know what to do when a child is injured or becomes suddenly ill. Most injuries that require first

aid care are not life-threatening. However, first aid can sometimes mean the difference between life and death. This course is designed to give caregivers and teachers the education they need to effectively care for children.

Heartsaver Pediatric First Aid

The #1 New York Times bestselling memoir of

U.S. Navy Seal Chris Kyle, and the source for

Clint Eastwood's blockbuster, Academy-

Award nominated movie. "An amazingly

detailed account of fighting in Iraq--a

humanizing, brave story that's extremely

readable." —PATRICIA CORNWELL, New

York Times Book Review "Jaw-

dropping...Undeniably riveting." —RICHARD

ROEPER, Chicago Sun-Times From 1999 to

2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.
