'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .

Bierce exploits the comic potential of the dictionary format to mock the doublespeak prominent in post-Civil War politics. Using short, pithy entries on a variety of subjects, this "reference book" inverts the meaning of words, skewers popular hypocrisy and showcases Bierce's dark humor. Many of these entries began as newspaper columns Bierce wrote in the 1870s. One hundred years later, it is clear that the America he lampoons is not that different from our own.

In this fascinating story of evolution, religion, politics, and personalities, Matthew Chapman captures the story behind the headlines in the debate over God and science in America. Kitzmiller v. Dover Board of Education, decided in late 2005, pitted the teaching of intelligent design (sometimes known as "creationism in a lab coat") against the teaching of evolution. Matthew Chapman, the great-great-grandson of Charles Darwin, spent several months covering the trial from beginning to end. Through his in-depth encounters with the participants—creationists, preachers, teachers, scientists on both sides of the issue, lawyers, theologians, the judge, and the eleven parents who resisted the fundamentalist proponents of intelligent design—Chapman tells a sometimes terrifying, often hilarious, and above all moving story of ordinary people doing battle in America over the place of religion and science in modern life.

The History of the Devil (1900) is a philosophical study by Paul Carus. A lifelong Monist, Carus sought to apply a scientific analysis to the principles of humanity 's religions. Credited with bridging the gap between Eastern and Western beliefs, Carus believed that the dualism rampant in the West could be replaced in order to establish a more equitable world where difference and diversity would be accepted and nurtured, rather than suppressed. " This world of ours is a world of opposites. There is light and shade, there is heat and cold, there is good and evil, there is God and the Devil. The dualistic conception of nature has been a necessary phase in the evolution in human thought. " Recognizing the need for dualism in the history of humanity, Carus sought to promote the principles of Monism in the West, believing it could lead to a universal worldview capable of uniting East and West. A positivist and pantheist, Carus believed that by pursuing " in religion the same path that science travels, [...] the narrowness of sectarianism [would] develop into a broad cosmical religion which shall be as wide and truly catholic as is science itself. " To lay the groundwork for this " cosmical religion, " he investigates the figure of the Devil and the historical evolution of the concept of evil, which he saw as predating belief in goodness and God. With a beautifully designed cover and professionally typeset manuscript, this edition of Paul Carus ' The History of the Devil is a classic of philosophy reimagined for modern readers.

But when she discovers that her husband is having a passionate affair with the lovely romantic novelist Mary Fisher, she is so seized by envy that she becomes truly diabolic. Within weeks she has burnt down the family home, collected the insurance, made love to the local drunk and embarked on a course of destruction and revenge. A blackly comic satire of the war of the sexes, THE LIFE AND LOVES OF A SHE DEVIL is the fantasy of the wronged woman made real.
