Located just north of Boston, Nashua, New Hampshire, is known as a quiet city--until a series of violent murders makes front page news just before Memorial Day weekend. The brutal killings leave citizens terrified, and the NH State Police respond by bringing in an experienced investigator. Detective Sergeant John Osborne is an abrasive but competent state trooper from the major crimes unit. Osborne immediately butts heads with Detective David Boyle, his liaison to the Nashua police department. Both men begin investigating the grisly murders, which seemingly happened with absolutely no apparent connection except for the killer placing a white pillowcase over the victim's head and tying the end of it off in a knot around the neck. As if the killer didn't want to see the victims face, the skull is pummeled rendering them unrecognizable. Nothing is as it seems as both investigators clash every step of the way. Their own personal dislike and inter-departmental hostility for each other threatens to jeopardize the investigation. Ironically, both of them might actually be closer to the truth than they realize upon learning of an eerily similar crime committed in Maryland the year before. In fact, the killer has already decided that one of them must become the next victim.

Voltara para casa no Natal... para arranjar uma esposa? Noutros tempos, Cole Adams e Cassie Campbell tinham sido inseparáveis e tinham recorrido um ao outro nos maus momentos. Cassie andava há dez anos a tentar seguir em frente com a sua vida e esquecer o passado, mas agora Cole voltara para casa no Natal e não conseguia evitá-lo... nem a ele, nem às lembranças. Cole sabia que Cassie mudara. Agora, estava viúva e cuidava dos outros de forma incansável. No entanto, ele conhecia-a bem e conseguia ver a dor que escondia por trás do seu sorriso alegre. Conseguiria chegar ao fundo do seu coração maltratado e transformar o seu anjo de Natal na sua esposa?
Reports of Cases Argued and Determined in the Supreme Court of the State of Missouri Bloomsbury Publishing USA

This thoroughly updated third edition provides students with an accessible overview of Vygotsky's work, combining reprints of key journal and text articles with rich editorial commentary. Lev Vygotsky provided the twentieth century with an enticing mix of intellectual traditions within an attempt to provide an account of the social formation of the mind. His legacy is an exciting, but at times challenging fusion of ideas. Retaining a multi-disciplinary theme, Introduction to Vygotsky, 3rd edition begins with a review of current interpretations of Vygotsky's original work. Harry Daniels goes on to consider the development of Vygotsky's work against a backdrop of political turmoil in the developing USSR. Major elements explored within the volume include the use of the 'culture' concept in social development theory, the development of means of describing social life, the concept of mediation, and implications for teaching, learning and assessment This book will be essential reading for Vygotskian students in developmental psychology, education and social sciences, as well as to students on specialised courses on cultural, cross-cultural and socio-cultural psychology, philosophical psychology,

philosophy of science, history of psychology and Soviet/Russian history.

Upchurch Bulletin Abbott Press

Consciousness in Interaction is an interdisciplinary collection with contributions from philosophers, psychologists, cognitive scientists, and historians of philosophy. It revolves around the idea that consciousness emerges from, and impacts on, our skilled interactions with the natural and social context. Section one discusses how phenomenal consciousness and subjective selfhood are grounded on natural and social interactions, and what role brain activity plays in these phenomena. Section two analyzes how interactions with external objects and other human beings shape our understanding of ourselves, and how consciousness changes social interaction, self-control and emotions. Section three provides historical depth to the volume, by tracing the roots of the contemporary notion of consciousness in early modern philosophy. The book offers interdisciplinary insight on a variety of key topics in consciousness research: as such, it is of particular interest for researchers from philosophy of mind, phenomenology, cognitive and social sciences, and humanities.

Best Eaten Cold and Other Stories showcases a group of highly regarded, award-winning crime writers who all share a special passion for crime, which is reflected in this superb new volume. Funny and sad, atmospheric and dark, ingenious and frightening, each of the thirteen stories in this collection will thrill lovers of crime fiction.

[Crown of Souls \(The Tox Files Book #2\)](#) Totally Entwined Group (USA+CAD)

A "fantastic" new romance from the author of Return to Me and "one of the top 10 reads of 2013" For ten months, bestselling novelist Alec Winston hasn't been able to type a single word, and he's coming dangerously close to breaching his publishing contract. An invitation from his brother to spend the summer in Wilmington Beach might be just the thing to blast through his writer's block. Yet Alec discovers more than a spark of inspiration on the sunny sands. He meets an amber-eyed muse who makes him think about much more than books... Faith Armstrong has finally gathered the courage to leave her past behind and accepted a job as a private tutor, hoping for a fresh start on the North Carolina coast. This is the home she's always longed for—not just a place, but a state of mind. She's felt invisible her whole life, so the host of new friends and the attention of a sexy author have her head spinning. But Alec has a secret that could prove this isn't the life Faith dreamed of after all... *Carla Neggers, New York Times bestselling author **Kathy Altman of USA Today on The Dysfunctional Test

All of Me Bethany House

FROM EXCITING AUTHOR OF LGBT+ PARANORMAL ROMANCE, S.J. COLES Vampires are attempting to integrate into human society. When Alec MacCarthy first meets a 'haemophile' in the flesh, it's not the obvious dangers that frighten him. Alec MacCarthy, Lord of Avimore and largely-forgotten descendent of a once-proud family line, keeps the wolf from the door of the crumbling family mansion by restoring classic cars. He leaves the real world alone and wishes nothing more than for it to return the favor. But in a reality where haemophiles—still colloquially known as vampires, despite the publicity campaigns—have come out of hiding and are attempting to integrate into human society, the real world is rapidly becoming a disrupted and conflicted mess that threatens to trouble even Alec in his remote Scottish hideaway. When he unwittingly attends a Blood Party to please a friend, he has his first meeting with one of these mysterious and dangerous beings. Terje is like nothing he has ever encountered before...literally. His reactions are as troublesome as they are undeniable. Alec's snap decision to help the haemophile rather than sample his sense-heightening and addictive blood sets them both on a path that will lead them into a tangled web of intrigue with consequences that will change their lives—and the world—forever.

Visualizing the invisible with the human body Candlewick Press

Physiognomy and ekphrasis are two of the most important modes of description in antiquity and represent the necessary precursors of scientific description. The primary way of divining the characteristics and fate of an individual, whether inborn or acquired, was to observe the patient's external characteristics and behaviour. This volume focuses initially on two types of descriptive literature in Mesopotamia: physiognomic omens and what we might call ekphrastic description. These modalities are traced through ancient India, Ugaritic and the Hebrew Bible, before arriving at the physiognomic features of famous historical figures such as Themistocles, Socrates or Augustus in the Graeco-Roman world, where physiognomic discussions become intertwined with typological analyses of human characters. The Arabic compendial culture absorbed and remade these different physiognomic and ekphrastic traditions, incorporating both Mesopotamian links between physiognomy and medicine and the interest in characterological 'types' that had emerged in the Hellenistic period. This volume offers the first wide-ranging picture of these modalities of description in antiquity.

Air Force Register Harlequin, uma divisã o de HarperCollins Ib é rica, S.A.

At twenty-seven, Tibby Mack's the youngest resident of Yaqui Springs, a retirement community near California's Salton Sea. The folks there have become her family, her friends...and her matchmakers. But since the youngest man in town is sixty-five, their chances of success are slim to none. So when Cole O'Donnell comes to Yaqui Springs, he meets all the matchmakers' qualifications. Age: thirty. Looks: gorgeous. And he's inherited his

grandfather's property. He's the answer to their prayers. Except that Tibby's livelihood—her late aunt's legacy—is located smack in the middle of Cole's inheritance...and Tibby won't let Cole install putting greens and water hazards on her small patch of the world for anything! But the matchmakers know these two are in love and that, every once in a while, love needs a nudge...

The Bean Tree

The critically acclaimed laboratory standard for more than forty years, Methods in Enzymology is one of the most highly respected publications in the field of biochemistry. Since 1955, each volume has been eagerly awaited, frequently consulted, and praised by researchers and reviewers alike. Now with more than 300 volumes (all of them still in print), the series contains much material still relevant today truly an essential publication for researchers in all fields of life sciences. Key Features * Presents alternatives to mammalian model systems * Discusses virulence and essential gene identification * Defines global gene expression

[The Dictionary of Biographical Quotation of British and American Subjects](#) C & R Crime

"Fascinating, profane... One of the most original and realistic depictions of the sex lives of young people to come around in a long time" (LA Times), from bestselling, award-winning Daniel Handler. Cole is a boy in high school. He runs cross country, he sketches, he jokes around with friends. But none of this quite matters next to the allure of sex. "Let me put it this way," he says. "Draw a number line, with zero is, you never think about sex and ten is, it's all you think about, and while you are drawing the line, I am thinking about sex." Cole fantasizes about whomever he's looking at. He consumes and shares pornography. And he sleeps with a lot of girls, which is beginning to earn him a not-quite-savory reputation around school. This leaves him adrift with only his best friend for company, and then something startling starts to happen between them that might be what he's been after all this time--and then he meets Grisaille. All the Dirty Parts is an unblinking take on teenage desire in a culture of unrelenting explicitness and shunted communication, where sex feels like love, but no one knows what love feels like. With short chapters in the style of Jenny Offill or Mary Robison, Daniel Handler gives us a tender, brutal, funny, intoxicating portrait of an age when the lens of sex tilts the world. "There are love stories galore," Cole tells us. "This isn't that. The story I'm typing is all the dirty parts."

Arabic and English (DRA) Bible - OT3 AuthorHouse

Arabic Grammar in Context offers a unique and exciting approach to learning grammar. It presents grammar as a necessary and essential tool for understanding Arabic and for developing comprehension and production skills. Features include: authentic texts from a rich variety of sources, literary and non-literary, used as the starting point for the illustration and explanation of key areas of Arabic grammar clear and authoritative demonstration of the relevance of grammar for understanding and interpreting Arabic a wide range of appropriate exercises designed to consolidate learning fully vocalized exercises and texts a glossary of vocabulary and expressions provided at the end of the book audio readings of the texts available online for additional listening practice. Suitable for class use and independent study, Arabic Grammar in Context is ideal for intermediate to advanced learners of Arabic.

John D. Calvin Bean, son of Richard Bean, was born in the late 1700s or early 1800s in North Carolina. He married Alice Setser in 1825 in Burke County, North Carolina. They had fourteen children. They moved to Hawkins County, Tennessee in the mid 1830s. Descendants and relatives lived mainly in Tennessee and Kentucky.

Warning Signs Penguin

THE NEW YORK TIMES BESTSELLER Investigator Elvis Cole and his partner Joe Pike take on the deadliest case of their lives in the new masterpiece of suspense from #1 New York Times bestselling author Robert Crais. It seemed like a simple case—before the bodies started piling up... When single-mother Devon Connor hires Elvis Cole, it's because her troubled teenage son Tyson is flashing cash and she's afraid he's dealing drugs. But the truth is devastatingly different. With two others, he's been responsible for a string of high-end burglaries, a crime spree that takes a deadly turn when one of them is murdered and Tyson and his girlfriend disappear. They stole the wrong thing from the wrong man, and, determined to get it back, he has hired two men who are smart and brutal and the best at what they do. To even the odds, Cole brings in his friend Joe Pike, but even the two of them together may be overmatched. The police

don't want them anywhere near the investigation, the teenagers refuse to be found, and the hired killers are leaving a trail of bodies in their wake. Pretty soon, they'll find out everything they need to know to track the kids down—and then nothing that Elvis or Joe can do may make any difference. It might even get them killed.

A magazine intended for the alumni and friends of Norwich University.

Consciousness in Interaction Walter de Gruyter GmbH & Co KG

Drawing upon material from Britain, Canada, the United States, Australia and New Zealand, Making Representations explores the ways in which museums and anthropologists are responding to pressures in the field by developing new policies and practices, and forging new relationships with communities.

Simpson examines the increasing number of museums and cultural centres being established by indigenous and immigrant communities as they take control of the interpretive process and challenge the traditional role of the museum. Museum studies students and museum professionals will all find this a stimulating and valuable read.

Diabetes Literature Index Penguin

Long repressed following the collapse of empire, memories of the French colonial experience have recently gained unprecedented visibility. In popular culture, scholarly research, personal memoirs, public commemorations, and new ethnicities associated with the settlement of postcolonial immigrant minorities, the legacy of colonialism is now more apparent in France than at any time in the past. How is this upsurge of interest in the colonial past to be explained? Does the commemoration of empire necessarily imply glorification or condemnation? To what extent have previously marginalized voices succeeded in making themselves heard in new narratives of empire? While veils of secrecy have been lifted, what taboos still remain and why? These are among the questions addressed by an international team of leading researchers in this interdisciplinary volume, which will interest scholars in a wide range of disciplines including French studies, history, literature, cultural studies, and anthropology.

Customize your NAV applications Key Features Gain from the insights and methods of industry-leading experts and tailor your applications to best suit the needs of your business Learn through the detailed explanations and useful examples that are presented in a logical, step-by-step manner

This comprehensive guide is written with the goals of being used as a classroom text, a self-study text, and as a handy in-depth reference guide Book Description Microsoft Dynamics NAV is a

full business solution suite, and a complete ERP solution that contains a robust set of development tools to support customization and enhancement. These tools provide greater control over financials and can simplify supply chain, manufacturing, and operations. This book will take you from an introduction to Dynamics NAV and its integrated development tools to being a productive developer in the Dynamics NAV Development Environment. You will find this book very useful if you want to evaluate the product's development capabilities or need to manage Dynamics NAV based projects. It will teach you about the NAV application structure, the C/SIDE development environment, the C/AL language paired with the improved editor, the construction and uses of each object type, and how it all fits together to build universal applications. With this new edition, you will be able to understand how to design and develop using Patterns and new features such as Extensions and Events. What you will learn Productively and effectively use the development tools that are built into Dynamics NAV Understand the strengths of NAV's development tools and how they can be applied to address functional business requirements Learn how to do programming using the C/AL language in the C/SIDE Development Environment Explore functional design and development using C/AL Leverage advanced Dynamics NAV development features and tools Get to know the best practices to design and develop modifications of new functionality integrated with the standard Dynamics NAV software Who this book is for This book will appeal to all those who want to learn about NAV's powerful and extensive built-in development capabilities. It assumes that you understand programming and are familiar with business application software, although you aren't expected to have worked with NAV before. ERP consultants and managers of NAV development will also find the book helpful.
