Criminal Justice in Germany Walter de Gruyter

Few discussions in modern social science have occupied as much attention as the changing nature of welfare states in western societies. Gosta Esping-Andersen, one of the most distinguished contributors to current debates on this issue, here provides a new analysis of the character and role of welfare states in the functioning of contemporary advanced western societies. Esping-Andersen distinguishes several major types of welfare state, connecting these with variations in the historical development of different western countries. Current economic processes, the author argues, such as those moving towards a post-industrial order, are not shaped by autonomous market forces but by the nature of states and state differences. Fully informed by comparative materials, this book will have great appeal to everyone working on issues of economic development and post-industrialism. Its audience will include students and academics in sociology, economics and politics.

Revue internationale de criminologie et de police technique Council of Europe

This book deals with the rules that are in force in Europe for juvenile offenders. The aim of the rules is to uphold the rights and safety of juvenile offenders subject to sanctions or measures and to promote their physical, mental and social well-being when subject to community sanctions or measures, or any form of deprivation of liberty. It is based on Recommendation Rec(2008)11 of the Committee of Ministers of the Council of Europe on the European Rules for juvenile offenders subject to sanctions or measures, which was adopted on 5 November 2008. The first part of the book contains the text of the recommendation and is followed by a commentary which explains in finer detail the rules and the points raised by the text. The final section provides an analysis of the national replies to a questionnaire related to the treatment of juvenile offenders. This work will be of interest to human rights scholars, researchers and students of law, criminology and international relations.
