What do you get when you mix a mad scientist, a psychopath, an ice cream lady and a repo man? Something perfectly toxic... Melanie Scarlet is a knife-wielding badass who knows how to dispose of a body, and make evidence disappear. But Mel, a.k.a., the Ice Cream Lady, draws the line at one thing: she refuses to live with her husband, Cash Maddox, unless he quits the repo business that nearly got him killed—no matter how much she loves him. To thaw Mel's heart and convince her to leave the Everglades and move back home to Tallahassee, Cash is finally ready to retire from his adrenaline-fueled job...until homeless men begin vanishing. As Mel investigates the disappearances, Cash's temper goes into overdrive when he realizes his wife has been keeping a dangerous secret from him. She's been doing more than scooping ice cream—she's a cleaner for the underground criminal investigation agency, Above the Law. Mel isn't the only one with a secret. A scientist has created a drug that will cure psychopaths by deadening the urge to dominate, hurt and murder. To prove his chemical combination works, he uses the homeless as test subjects. He breaks and scrambles their minds, turns them into killers, then tries to fix them. But what if the scientist creates a killer he can't fix? A true psychopath he can't control? As Cash joins Mel and the ATL crew, they learn firsthand, the results could be...toxic.

There are so many models of trains coming from so many different eras that you can never run out of ideas for new projects. A leading activist museum director explains why museums are at the center of a political storm In an age of protest, cultural institutions have come under fire. Protestors have mobilized against sources of museum funding, as happened at the Metropolitan Museum, and against board appointments, forcing tear gas manufacturer Warren Kanders to resign at the Whitney. That is to say nothing of demonstrations against exhibitions and artworks. Protests have roiled institutions across the world, from the Abu Dhabi Guggenheim to the Akron Art Museum. A popular expectation has grown that galleries and museums should work for social change. As Director of the Queens Museum, Laura Raicovich helped turn that New York municipal

institution into a public commons for art and activism, organizing high-powered exhibitions that doubled as political protests. Then in January 2018, she resigned, after a dispute with the Queens Museum board and city officials. This public controversy followed the museum's responses to Donald Trump's election, including her objections to the Israeli government using the museum for an event featuring Vice President Mike Pence. In this lucid and accessible book, Raicovich examines some of the key museum flashpoints and provides historical context for the current controversies. She shows how art museums arose as colonial institutions bearing an ideology of neutrality that masks their role in upholding conservative, capitalist values. And she suggests ways museums can be reinvented to serve better, public ends.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.
