Read the book that Kirkus Review called: "A complex, witty page-turner, ideal for YA fans of scandal and romance." Seventeen-year-old Isis Blake hasn't fallen in love in three years, nine weeks, and five days, and after what happened last time, she intends to keep it that way. Since then she's lost eighty-five pounds, gotten four streaks of purple in her hair, and moved to Buttcrack-of-Nowhere, Ohio, to help her mom escape a bad relationship. All the girls in her new school want one thing—Jack Hunter, the Ice Prince of East Summit High. Hot as an Armani ad, smart enough to get into Yale, and colder than the Arctic, Jack Hunter's never gone out with anyone. Sure, people have seen him downtown with beautiful women, but he's never given high school girls the time of day. Until Isis punches him in the face. Jack's met his match. Suddenly everything is a game. The goal: Make the other beg for mercy. The game board: East Summit High. The reward: Something neither of them expected. Over the past few decades, the use of the arts in health has burgeoned. What, for many centuries, was seen as a fringe

activity is now being recognised as a field that has enormous potential for impacting positively on both individuals and societies. However, despite this surge in interest and activity, there is still limited support available for people working in the field. Although the number of practical training courses for artists is growing and more universities are establishing research groups, most training activity occurs in either practice or research; there are relatively few opportunities to gain parallel experience in both. *Arts in Health: Designing and Researching Interventions* provides a complete overview of how to go about undertaking research and practice in the field of arts in health. It starts by exploring the context for arts in health interventions, including the history of the use of arts in health and the theoretical and political developments that have laid the foundations for its flourishing. It also considers what 'arts in health' encompasses and the range of disciplines involved. Part II examines how to design an arts in health intervention, develop partnerships and find funding and considers the sensitivities around working in healthcare. Part III considers the value of research for the field of arts in health and how to design and undertake a research project. Finally, part IV provides a fact file of arts in health research and practice, showing how the arts can be applied and the benefits they can bring across a range of medical disciplines. The book will be valuable for researchers, practitioners, healthcare professionals and those interested in learning more about the field.

The world is at the brink of ruin . . . or is it salvation? Astaroth has been weakened, and the demon Prusias is taking full advantage of the situation to create an empire of his own. His formidable

The first installment in The Curse Workers series from New York Times bestselling author Holly Black: "Urban fantasy, con story—whatever you call it, read it" (Kirkus Reviews, starred review). Cassel comes from a family of con artists and grifters, all of them curse workers but him. On top of that, Cassel is plagued

by guilt that he killed his best friend, Lila, years ago. When Cassel begins to have strange dreams about a white cat and people around him are losing their memories, he starts to wonder what really happened to Lila, and what that means about his actions. In Cassel's search for answers about Lila and himself, he realizes that his brothers have been conning him for years, and that the final piece in their quest for power is about to fall into place. Cassel has other ideas. He's going to create an even more elaborate trap and, with Lila's help, con a bunch of magic using conmen. This "beautifully realized dark fantasy...with prose that moves from stark simplicity to almost surreal intensity in a moment" (Publishers Weekly, starred review) is rife with the unexpected. "Readers will be hooked" (Booklist) on *White Cat*.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené

Brown's work, this book is for anyone who wants to step up and into brave leadership.
