Learn to harness and capture infrared wavelengths with an infrared-converted digital camera. The authors teach you how those invisible light wavelengths will be recorded in-camera and the steps you ' ll need to take to ensure the best-possible photographs. You ' ll study myriad images that show how various materials—from skin, hair, and eyes to the sky, trees, grasses, and clouds—will appear in your images and learn to predict the way that the colors and tones you perceive with your naked eyes will be rendered in-camera. You will discover

compositional techniques that will visually engage your audience.

Finally, you ' ll learn how to use artistic applications to add selective color to your black & white infrared images, how to create dramatic color infrared photographs that take infrared capture to a whole new level, and how to edit your images in postproduction for enhanced contrast and superb detail.

New York in the mid-1950s was a time of detectives, G-men, mobsters, and crime photographers. Weegee (American. b. Austria, 1899-1968) fit this last profile perfectly. Speed Graphic camera in hand, he dashed around the city responding to the police radio, recording accidents, arrests, fires, and murders. This volume in the J. Paul Getty Museum's In Focus series examines approximately fifty of the ninety-five Weegee prints in the collection, surveying his photojournalism as well as additional works that picture life in the Bowery, Greenwich Village, and Harlem. Judith Keller, Associate Curator in the Department of Photographs, provides an introduction to Weegee and commentary on the plates. The photographer was the subject of a colloquium at the Getty Museum on

August 27, 2004, where the author was joined by David Featherstone, Michael Hargraves, Weston Naef, Miles Orvell, Ira Richer, Colin Westerbeck, and Cynthia Young in discussing his life and work. This conversation, captured here in an edited transcript, traces Weegee's transition from crime photography to social documentarian, with special attention paid to his publications, including *Naked City* (1945). William McCleery, in the foreword to that book, calls Weegee "an Artist" with "his own conception of what constitutes beauty." With the issuance of this In Focus installment, readers can again share in Weegee's conception.

Flash: The Making of Weegee the Famous Goliath Books

Tells the remarkable tale of Edwin Land's one-of-a-kind invention--from Polaroid's first instant camera to hit the market in 1948, to its meteoric rise in popularity and adoption by artists such as Ansel Adams, Andy Warhol, and Chuck Close, to the company's dramatic decline into bankruptcy in the late '90s and its unlikely resurrection in the digital age.

Luc Sante's *Low Life* is a portrait of America's greatest city, the riotous and anarchic breeding ground of modernity. This is not the familiar saga of mansions, avenues, and robber barons, but the messy, turbulent, often murderous story of the city's slums; the teeming streets--scene of innumerable cons and crimes whose cramped and overcrowded housing is still a prominent feature of the cityscape. *Low Life* voyages through Manhattan from four different directions. Part One examines the actual topography of Manhattan from 1840 to 1919; Part Two, the era's opportunities for

vice and entertainment--theaters and saloons, opium and cocaine dens, gambling and prostitution; Part Three investigates the forces of law and order which did and didn't work to contain the illegalities; Part Four counterposes the city's tides of revolt and idealism against the city as it actually was. *Low Life* provides an arresting and entertaining view of what New York was actually like in its salad days. But it's more than simply a book about New York. It's one of the most provocative books about urban life ever written--an evocation of the mythology of the quintessential modern metropolis, which has much to say not only about New York's past but about the present and future of all cities.

A wildly entertaining and surprisingly educational dive into art history as you've never seen it before, from the host of the beloved ArtCurious podcast We're all familiar with the works of Claude Monet, thanks in no small part to the ubiquitous reproductions of his water lilies on umbrellas, handbags, scarves, and dorm-room posters. But did you also know that Monet and his cohort were trailblazing rebels whose works were originally deemed unbelievably ugly and vulgar? And while you probably know the tale of Vincent van Gogh's suicide, you may not be aware that there's pretty compelling evidence that the artist didn't die by his own hand but was accidentally killed--or even murdered. Or how about the fact that one of Andy Warhol's most enduring legacies involves Caroline Kennedy's moldy birthday cake and a collection of toenail clippings? ArtCurious is a colorful look at the world of art history, revealing some of the strangest, funniest, and

most fascinating stories behind the world's great artists and masterpieces. Through these and other incredible, weird, and wonderful tales, ArtCurious presents an engaging look at why art history is, and continues to be, a riveting and relevant world to explore.

Exile and migration played a critical role in the diffusion and development of modernism around the globe, yet have long remained largely understudied phenomena within art historiography. Focusing on the intersections of exile, artistic practice and urban space, this volume brings together contributions by international researchers committed to revising the historiography of modern art. It pays particular attention to metropolitan areas that were settled by migrant artists in the first half of the 20th century. These arrival cities developed into hubs of artistic activities and transcultural contact zones where ideas circulated, collaborations emerged, and concepts developed. Taking six major cities as a starting point – Bombay (now Mumbai), Buenos Aires, Istanbul, London, New York, and Shanghai – the authors explore how urban topographies and landscapes were modified by exiled artists re-establishing their practices in metropolises across the world.

Questioning the established canon of Western modernism, *Arrival Cities* investigates how the migration of artists to different urban spaces impacted their work and the historiography of art. In doing so, it aims to encourage the discussion between international scholars from different research fields, such as exile studies, art history, social

history, architectural history, architecture, and urban studies.

Artist as Reporter Farrar, Straus and Giroux

Arthur Fellig's ability to arrive at a crime scene just as the cops did was so uncanny that he became known as "Weegee," claiming that he functioned as a human Ouija board. Weegee documented better than any other photographer the crime, grit, and complex humanity of midcentury New York City. In *Flash*, we get a portrait not only of the man (both flawed and deeply talented, with generous appetites for publicity, women, and hot pastrami) but also of the fascinating time and place that he occupied. From self-taught immigrant kid to newshound to art-world darling to latter-day caricature--moving from the dangerous streets of New York City to the celebrity culture of Los Angeles and then to Europe for a quixotic late phase of experimental photography and filmmaking--Weegee lived a life just as vivid as the scenes he captured. *Flash* is an unprecedented and ultimately moving view of the man now regarded as an innovator and a pioneer, one whose photographs are among the most powerful images of urban existence ever made.

The Weegee Guide to New York Da Capo Press, Incorporated
Weegee not only captured the gritty underbelly of New York City in his explosive photographs, but he lived it as well. This long out-of-print autobiography, brought back with complete and unabridged text by Devault-Graves Digital Editions, was written toward the end of Weegee's life before he was the photographic legend he is today. Here he tells the story of how an impoverished Jewish immigrant named Arthur Fellig from Zlothev, Austria, came to grips with one of the toughest cities in the world and made it his own. In wisecracking prose that is a match for his unblinking ferocity behind the camera, Weegee recounts his days of taking tintypes of kids on ponies and how this knowledge of the streets and neighborhoods of New York led to him being the first on the scene of the city's every murder, disaster, and heartbreak. In *Weegee: The Autobiography* the author candidly and without reserve tells readers about documenting the grisly street executions by Murder, Inc., tenements up in flames, child killers, lovers in the back rows of movie theaters, and the sexual misadventures of streetwalkers, pimps, and transsexuals, all in a voice that had seen it all and loved it all. Fans of Weegee's photography will not want to miss his story-told in the way only Weegee himself could tell. The new Devault-Graves Digital Editions version of *Weegee: The Autobiography* contains a wealth of new material for readers. An original Afterword by author and critic Ed Ward and extensive

annotations and endnotes are included.

Weegee's People Picador

"While Berenice Abbott, Margaret Bourke-White, and Alfred Steiglitz photographed New York's sleek skyscrapers, Arthur Fellig (called Weegee) documented the seamy underside of depression-era New York. In this extraordinary book, Richard Meyer and Anthony Lee tell a gripping tale, filled with historical detail about Weegee's transformation from freelance newspaper photographer to fine artist with the publication of his enormously successful book *Naked City*, in 1945."—Cécile Whiting, author of *Pop L.A.: Art and the City in the 1960s* "Lee and Meyer return Weegee to his 'working world' by exploring the multiple contexts of his production—the Photo League, the tabloids, the exhibition galleries, and the book market. The volume adds an important dimension to our understanding of how Weegee

straddled the worlds of popular culture, photojournalism, and left politics."—Miles Orvell, author of *American Photography and John Vachon's America: Photographs and Letters from the Depression to World War II* (UC Press)

"Groundbreaking. Anthony Lee and Richard Meyer delve deeply into a rich archive of media and exhibition history, criticism, and biography to arrive at original interpretations of the most enigmatic photographer in modern visual and print culture."—Jordana Mendelson, author of *Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939*

A reexamination of the woman who created the legend of Robert Capa, the world's first female photojournalist to die in combat, Gerda Taro In Paris in 1934, a young and beautiful Jewish émigrée, Gerda Pohorylles, met a Hungarian political exile, André Friedmann. They reinvented themselves as the photographers Gerda Taro and Robert Capa—and he would become the most important photojournalist of his generation. When Gerda was killed in the Spanish Civil war at the age of 26, Robert Capa was her most notable mourner—his grief was beyond control. Her funeral drew crowds of thousands and she became a hero of the political left. Despite the legend that was built around

her, she subsequently became a mere footnote in Capa's story. Seventy years after her death a long-lost suitcase was discovered in Mexico, containing thousands of negatives by Capa and Taro. Most astonishingly of all, the "Mexican suitcase" showed that photographs that had been attributed previously to Capa were, in fact, the work of Taro. Jane Rogoyska's book will trace Taro's life and reveal the depth of her relationship with Capa. Charismatic and extraordinary, they epitomized one of the most tumultuous periods of the century.

Kinky Lingerie Girls Flammarion

The comprehensive biography of the iconic twentieth-century American photographer Berenice Abbott, a trailblazing documentary modernist, author, and inventor. Berenice Abbott is to American photography as Georgia O'Keeffe is to painting or Willa Cather to letters. She was a photographer of astounding innovation and artistry, a pioneer in both her personal and professional life. Abbott's sixty-year career established her not only as a master of American photography, but also as a teacher, writer, archivist, and inventor. Famously reticent in public, Abbott's fascinating life has long remained a mystery—until now. In *Berenice Abbott: A Life in Photography*,

author, archivist, and curator Julia Van Haaften brings this iconic public figure to life alongside outlandish, familiar characters from artist Man Ray to cybernetics founder Norbert Wiener. A teenage rebel from Ohio, Abbott escaped first to Greenwich Village and then to Paris—photographing, in Sylvia Beach’s words, “everyone who was anyone.” As the Roaring Twenties ended, Abbott returned to New York, where she soon fell in love with art critic Elizabeth McCausland, with whom she would spend thirty years. In the 1930s, Abbott began her best-known work, *Changing New York*, in which she fearlessly documented the city’s metamorphosis. When warned by an older male supervisor that “nice girls” avoid the Bowery—then Manhattan’s skid row—Abbott shot back, “I’m not a nice girl. I’m a photographer...I go anywhere.” This bold, feminist attitude would characterize all Abbott’s accomplishments, including imaging techniques she invented in her influential, space race–era science photography and her tenure as The New School’s first photography teacher. With more than ninety stunning photos, this sweeping, cinematic biography secures Berenice Abbott’s place in the histories of photography and modern art, while framing her incredible accomplishments as a female artist and entrepreneur.

The first comprehensive biography of Weegee—photographer, “psychic,” ultimate New Yorker—from Christopher Bonanos, author of *Instant: The Story of Polaroid*. Arthur Fellig’s ability to arrive at a crime scene just as the cops did was so uncanny that he renamed himself “Weegee,” claiming that he functioned as a human

Ouija board. Weegee documented better than any other photographer the crime, grit, and complex humanity of midcentury New York City. In *Flash*, we get a portrait not only of the man (both flawed and deeply talented, with generous appetites for publicity, women, and hot pastrami) but also of the fascinating time and place that he occupied. From self-taught immigrant kid to newshound to art-world darling to latter-day caricature—moving from the dangerous streets of New York City to the celebrity culture of Los Angeles and then to Europe for a quixotic late phase of experimental photography and filmmaking—Weegee lived a life just as worthy of documentation as the scenes he captured. With *Flash*, we have an unprecedented and ultimately moving view of the man now regarded as an innovator and a pioneer, an artist as well as a newsman, whose photographs are among most powerful images of urban existence ever made.

Weegee: Serial Photographer W. W. Norton & Company
Diane Arbus was one of the greatest photographers of the last century. Her portraiture of freaks, circus performers, twins, nudists and others on the social margins connected with a wide public at a deep psychological level. Her suicide in New York in 1971 overshadowed the reception to her work. Her posthumous exhibition at the Museum of Modern Art a year later drew lines around the block. She was born into a Russian-Jewish family, the Nemerovs, who owned a department store on Fifth Avenue. They were family friends with the Avedons. Richard Avedon later championed

Arbus's work. Avedon rose to greater and greater commercial success through the magazine world. Arbus died in a rent-protected apartment scrambling to earn her keep with odd teaching assignments. Lubow's biography begins at the moment Arbus quit the world of commercial photography to be an artist. She was uncompromising in that ambition. The book ends with her death. The entire narrative is a slow march towards that event.
