Acclaimed as a "gifted, courageous writer" (The New York Times), Chris Adrian brings all his extraordinary talents to bear in *The Great Night*—a brilliant and mesmerizing retelling of Shakespeare's "A Midsummer Night's Dream." On Midsummer Eve 2008, three people, each on the run from a failed relationship, become trapped in San Francisco's Buena Vista Park, the secret home of Titania, Oberon, and their court. On this night, something awful is happening in the faerie kingdom: in a fit of sadness over the end of her marriage, which broke up in the wake of the death of her adopted son, Titania has set loose an ancient menace, and the chaos that ensues will threaten the lives of immortals and mortals alike. Selected by *The New Yorker* as one of the best young writers in America, Adrian has created a singularly playful, heartbreaking, and humorous novel—a story that charts the borders between reality and dreams, love and magic, and mortality and immortality.

The Great Night William Heinemann

Located northeast of Damascus, in an oasis surrounded by palms and two mountain ranges, the ancient city of Palmyra has the aura of myth. According to the Bible, the city was built by Solomon. Regardless of its actual origins, it was an influential city, serving for centuries as a caravan stop for those crossing the Syrian Desert. It became a Roman province under Tiberius and served as the most powerful commercial

center in the Middle East between the first and the third centuries CE. But when the citizens of Palmyra tried to break away from Rome, they were defeated, marking the end of the city's prosperity. The magnificent monuments from that earlier era of wealth, a resplendent blend of Greco-Roman architecture and local influences, stretched over miles and were among the most significant buildings of the ancient world—until the arrival of ISIS. In 2015, ISIS fought to gain control of the area because it was home to a prison where many members of the outlawed Muslim Brotherhood had been held, and ISIS went on to systematically destroy the city and murder many of its inhabitants, including the archaeologist Khaled al-Asaad, the antiquities director of Palmyra. In this concise and elegiac book, Paul Veyne, one of Palmyra's most important experts, offers a beautiful and moving look at the history of this significant lost city and why it was—and still is—important. Today, we can appreciate the majesty of Palmyra only through its pictures and stories, and this book offers a beautifully illustrated memorial that also serves as a lasting guide to a cultural treasure.

The imagery in this book, which revolves around radial shapes and concepts, also forms the basis of a video work in the exhibition. Specific for the book is the use of two separate layers of black ink, allowing Suter to create double images and to merge patterns and screens. Departing from pages scanned from her collection of second hand tomes--mainly concerning natural science, precision machinery, and art history--Suter freely manipulates them and reorders them within the space of a book, which can be seen as a condensed exhibition on paper. The result is a journey along visual phenomena that reconnects us with the endless curiosity and patience of our younger selves leafing through an encyclopedia, unattended and unable to read, yet all the more sensitive to its inner visual rhymes and correspondences. With a text by Henri Michaux from 1968 [in English translation and French].

Reverend Billy's revival tour across America is the subject of the upcoming Morgan Spurlock film *What Would Jesus Buy?*, his first movie since the national hit *Super Size Me!* The book is an inspiring—love-a-lujah!—compendium of the reverend in full flow, from his exhortations from the pulpit to his reflections on why lesbian marriage will save the Spotted Owl. Reverend Billy believes big box brainless consumerism is destroying our culture and our planet. Reverend Billy first began preaching in Times Square and has since been incessantly spreading the word at major retail stores from San Francisco to New York City. He has been regularly featured in the national media, most recently in the *New York Times*, and was arrested with great panache as he led prayers against consumerism in Disneyland. *What Would Jesus Buy?* will entertain, convince, convert, and give readers actions they can take to become a member of the Church of Stop Shopping.

#### The Life of William Cavendish

*Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
