This book explores the linguistic ecology of the Kumaun region of Uttarakhand, India through the experiences and discourses of minority youth and their educators. Providing in-depth examples of Indian multilingualism, this volume analyses how each language is valued in its own context; how national-level policies are appropriated and contested in local discourses; and how language and culture influence educational opportunities and identity negotiation for Kumauni young women. In doing so, the author examines how students and educators navigate a multilingual society with similarly diverse classroom practices. She simultaneously critiques the language and education system in modern India and highlights alternative perspectives on empowerment through the lens of a unique Gandhian educational context. This volume allows Kumauni women and their educators to take centre stage, and provides a thoughtful and nuanced insight into their minority language environment. This unique book is sure to appeal to students and scholars of multilingualism, sociolinguistics, language policy and minority languages.

When the idea of penning down my memories of a life, varied across many facets, first struck the author, it was then little more than ticking off an item in a wish list. Gradually, this changed to be a more substantial effort, to a journal of life, a legacy of sorts to people who have made a difference to his life, for better or worse. When we think of human interactions and relationships, covering bonds of love, friendship, hatred and indifference, we soon realize that they are far more complex than the simple and deterministic laws of physics and chemistry. What we 'know' can only be understood through a multi-dimensional function of time, persona and many other unknown factors. Over the last six decades, the author has seen relationships change colour and shape, form and strength, not once but many times. Does that make us chameleons, in a sense? No, it is just that the human mind and heart resemble kaleidoscopes that keep generating different images, even if exactly the same stimulus is given, but at different points of time.

WINNER OF THE EDGAR® AWARD • LONGLISTED FOR THE WOMEN'S PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Time • The Washington Post • NPR • The Guardian • Library Journal In a sprawling Indian city, a boy ventures into its most dangerous corners to find his missing classmate. . . . Through market lanes crammed with too many people, dogs, and rickshaws, past stalls that smell of cardamom and sizzling oil, below a smoggy sky that doesn't let through a single blade of sunlight, and all the way at the end of the Purple metro line lies a jumble of tin-roofed homes where nine-year-old Jai lives with his family. From his doorway, he can spot the glittering lights of the city's fancy high-rises, and though his mother works as a maid in one, to him they seem a thousand miles away. Djinn Patrol on the Purple Line plunges readers deep into this neighborhood to trace the unfolding of a tragedy through the eyes of a child as he has his first perilous collisions with an unjust and complicated wider world. Jai drools outside sweet shops, watches too many reality police shows, and considers himself to be smarter than his friends Pari (though she gets the best grades) and Faiz (though Faiz has an actual job). When a classmate goes missing, Jai decides to use the crime-solving skills he has picked up from TV to find him. He asks Pari and Faiz to be his assistants, and together they draw up lists of people to interview and places to visit. But what begins as a game turns sinister as other children start disappearing from their neighborhood. Jai, Pari, and Faiz have to confront terrified parents, an indifferent police force, and rumors of soul-snatching djinns. As the disappearances edge ever closer to home, the lives of Jai and his friends will never be the same again. Drawing on real incidents and a spate of disappearances in metropolitan India, Djinn Patrol on the Purple Line is extraordinarily moving, flawlessly imagined, and a triumph of suspense. It captures the fierce warmth, resilience, and bravery that can emerge in times of trouble and carries the reader headlong into a community that, once encountered, is impossible to forget.

A Boy from Digboi - A Memoir Penguin UK
Jenny Huberman provides an ethnographic study of encounters between western tourists and the children who work as unlicensed peddlers and guides along the riverfront city of Banaras, India. She examines how and why these children elicit such powerful reactions from western tourists and locals in their community as well as how the children themselves experience their work and render it meaningful. *Ambivalent Encounters* brings together scholarship on the anthropology of childhood, tourism, consumption, and exchange to ask why children emerge as objects of the international tourist gaze; what role they play in representing socio-economic change; how children are valued and devalued; why they elicit anxieties, fantasies, and debates; and what these tourist encounters teach us more generally about the nature of human interaction. It examines the role of gender in mediating experiences of social change—girls are praised by locals for participating constructively in the informal tourist economy while boys are accused of deviant behavior. Huberman is interested equally in the children's and adults' perspectives; her own experiences as a western visitor and researcher provide an intriguing entry into her interpretations.

Nobel Prize-winning author Rabindranath Tagore's most ambitious work *Gora* unfolds against the vast, dynamic backdrop of Bengal under British rule, a divided society struggling to envisage an emerging nation. It is an epic saga of India's nationalist awakening, viewed through the eyes of one young man, an orthodox Hindu who defines himself against the British colonialist culture and finds himself approaching his nationalist identity through the prism of organized religion. First published in 1907, *Gora* questions the dogmas and presuppositions inherent in nationalist thought like few books have dared to do. This new, lucid and vibrant translation brings the complete and unabridged text of the classic to a new generation of readers, underlining its contemporary relevance.
