The conference of our European Institute for social security was held from the 16th till the 19th of October 1980 in Peruggia. As usual the theme of the Conference was the same of that of the preparatory Colloque held in Brussels in 1979: Social security reforms in Europe. The reports of that Colloque were published as Part I I of the Yearbook 1978-1980. Part I of the Yearbook 1980-1981 contains the reports presented in Peruggia. The reports are focussed on three items: The financing of social security (J.P. Launay, Jan B.M. Pierik, Jø rn Henrik Petersen and Guy Perrin); The social benefits (Bernd Schulte and Sven Guldburg) and The organization of

social security (A.J. Ogus, A. Berenstein and Jef van Langendonck) . The Yearbook contains also two national reports (M. Magrez and Asbj~rn Kj ø nstad), not available to be included in Yearbook I I 1978-1980. Finally the Yearbook contains a report from Guy Perrin on the social security problems of migrant workers and the synthesis report of Pasquale Sandulli. It's a pity that we could not include the report of Lucia Vitali, Le prestazini per inval idita nel sistema ital iano di sicurezza sociale: un anal isi economica, and the report of the Region of Umbria since there was no English or French translation available. The Institute once again wants to

express its sincere gratitude to Pasquale Sandulli and his colleagues for the adequate way in which they organized the conference.

In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary. The Treaty Series, where treaties are published in the chronological order of registration, also provides details about their subsequent history (i.e., participation in a treaty, reservations, amendments, termination, etc.). Comprehensive Indices covering 50-volume-lots are published separately.

**Sociology and Catholic Social Teaching: Contemporary Theory and Research** offers critical insights into a badly needed alternative vision to the alienation and cynicism that plague our political discourse. Arguing that Catholic social teaching stands as an important morally grounded framework for addressing

today's pressing social problems, contributors explore the general principles and specific criteria required for both evaluating and advocating models of social improvement. This anthology is meant for advanced undergraduate and graduate students of sociology or Catholic social thought, as well as scholars in these areas interested in how sociology and Catholic social teaching converge.
