Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains, in many

ways, an enigma, and his art continues to be as elusive as it is compelling. In Dosso's *Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary sources and his painting technique. The result

is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy. " Salvator Rosa (1615 – 1673) was a colorful and controversial Italian painter, talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patty analyzes Rosa ' s tremendous influence on French writers, chiefly those

of the nineteenth century, such as Stendhal, Honoré de Balzac, Victor Hugo, George Sand, and Théophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, *Salvator Rosa in French Literature* forms a narrative account of the reception of Rosa's life and work in the world of French letters. James S. Patty, professor emeritus of French at

Vanderbilt University, is the author of *Dürer in French Letters*. He lives in Nashville, Tennessee. *La semaine juridique* Bloomsbury Publishing On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATERRE-EAG, and the National Park Service, under the aegis of

US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and

microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing. L'illustration Hippocrene Books

There is an increasing trend within both the study of visual culture and fashion itself to restore fashion to an aesthetic role - one that moves beyond its commercial success as a global industry and places fashion within a nexus of art, the body, and

femininity. This emphasis aims to separate fashion from mere clothing, and illustrate its cultural power as an integral aspect of modern life. In this innovative new book, Alison Bancroft re-examines significant moments in twentieth-century fashion history through the focal lens of psychoanalytic theory. Her discussion centres on studies of fashion photography, haute couture, queer dressing, and fashion/art in an attempt to shed new light on these key issues. According to Bancroft, problems of subjectivity are played out through fashion, in the public arena, and not just in the dark, unknowable unconscious mind. The question of what can be said,

and what can only be experienced, and how these two issues may be reconciled, become questions that fashion addresses on an almost daily basis. Psychoanalysis has been profoundly influential in the arts, thanks to its capacity to add layers of meaning to things that, without it, would remain obtuse and intractable. It has proved crucial to the development of film studies, art theory and literary criticism. What it has not yet been brought into dialogue with in great depth is fashion. By interpreting fashion within a psychoanalytic frame, Bancroft illustrates how fashion articulates some of the essential, and sometimes frightening, truths about the body, femininity and the

self.
