Fall of the Angels focuses on a biblical tradition whose significance has been recognised, elaborated and explored in literature and art outside the Bible. Its extensive influence on religion and culture during the last two millenia is reflected in the wide variety of interpretations of this tradition among communities as they came to terms with religious identity in the face of opposition.

## The Rise and Fall of the Shah BRILL

The son of the deposed Shah of Iran reflects on Iran's political situation (without mentioning his father) and argues for a campaign of civil disobedience to the current Iranian regime that would hopefully lead to a

constitutional monarchy restoring a Pahlavi to the throne of Iran. He discusses energy policy, foreign policy, and the Iranian Diaspora suggesting that the policies of the current clerical leaders of Iran have led to disastrous results for the Iranian people. He counters this with some rather bland bromides about international cooperation, secularization, self-determination, and cultural preservation. If brought back to the throne, he claims he will consult all of the Iranian people in governing the nation. Annotation copyrighted by Book News, Inc., Portland, OR.

The Last Shah Lulu.com

An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration. In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the American embassy in Tehran; American families caught up in the drama; even Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.

Quintus was a poet who lived at Smyrna some

four hundred years after Christ. His work, in fourteen books, is a bold and generally underrated attempt in Homer's style to complete the story of Troy from the point at which the Iliad closes. Quintus tells us the stories of Penthesilea, the Amazonian queen; Memnon, leader of the Ethiopians; the death of Achilles; the contest for Achilles' arms between Ajax and Odysseus; the arrival of Philoctetes; and the making of the Wooden Horse. The poem ends with the departure of the Greeks and the great storm which by the wrath of heaven shattered their fleet.

Unabridged (100% Original content) Font adjustments & biography included Illustrated About The Fall Of The House Of Usher: By Edgar Allan Poe The story begins with the unnamed narrator arriving at the house of his friend, Roderick Usher, having received a letter from him in a distant part of the country complaining of an illness and asking for his help. As he arrives, the narrator notes a thin crack extending from the roof, down the front of the building and into the lake. Although Poe wrote this short story before the invention of modern psychological science, Roderick's condition can be described according to its terminology. It includes a form of sensory overload known as hyperesthesia (hypersensitivity to textures, light, sounds, smells and tastes), hypochondria (an excessive preoccupation or worry about having a serious illness) and acute anxiety. It is revealed that Roderick's twin sister, Madeline, is also ill and falls into cataleptic, deathlike trances. The narrator is impressed with Roderick's paintings, and attempts to cheer him by reading with him and listening to his improvised musical compositions on the guitar. Roderick sings "The Haunted Palace", then tells the narrator that he believes the house he lives in to be alive, and that this sentience arises from the arrangement of the masonry and vegetation surrounding it.

Reza Shah's authoritarian and modernising reign transformed Iran, but his rule and Iran's independence ended in ignominy in 1941. In this book, Shaul Bakhash tells the full story of the Anglo-Soviet invasion which led to his forced abdication, drawing upon previously unused sources to reveal for the first time that the British briefly, but seriously, toyed with the idea of doing away altogether with the ruling Pahlavis and considered reinstalling on the throne a little-regretted previous dynasty.

---

Bakhash charts Reza Shah's final journey through Iran and into his unhappy exile; his life in exile, his reminiscences; his testy relationship with the British in Mauritius and Johannesburg; and the circumstances of his death. Additionally, it reveals the immense fortune Reza Shah amassed during his years in power, his finances in exile, and the drawn-out dispute over the settlement of his estate after his death. A significant contribution to the literature on Reza Shah and British imperialism as it played out in the case of one critical country during World War II, the book reveals the fraught relationship between a once powerful ruler in his final days and the British government at a critical moment in recent history.

The Fall of Heaven Mike Frost

"The search for the Promised Land took socialists in diverse directions: revolution, communes and kibbutzim, social democracy, communism, fascism, Third Worldism. But none of these paths led to the prophesied utopia. Nowhere did socialists succeed in creating societies of easy abundance or in midwifing the birth of a "New Man," as their theory promised. Some socialist governments abandoned their grandiose goals and satisfied themselves with making slight modifications to capitalism, while others plowed ahead doggedly, often inducing staggering human catastrophes. Then, after two hundred years of wishful thinking and fitful governance, socialism suddenly imploded in the 1990s in a fin du siecle drama of falling walls, collapsing regimes and frantic revisions of doctrine."--BOOK JACKET.
