This volume commemorates the 100th anniversary of Vincent van Gogh's death by reexamining the painter's place in the art world of his time, the phenomenal growth in his reputation, and his influence on later art movements and individual artists. Among the topics examined by leading van Gogh scholars are iconography; van Gogh's poetry as well as the literature that influenced him and that he, in turn, influenced; psychological and religious aspects of van Gogh's painting and self-imaging; and how van Gogh has been interpreted.

A section on his legacy in art concludes this major reassessment of van Gogh's place in art history.

Unbelievable
Rockridge Press
This groundbreaking first volume of the Series has a number of features that set it apart from other books on this subject: Firstly, it

focuses on interpersonal, humanistic and ecological views and approaches to P/MH nursing. Secondly, it highlights patient/client-centered approaches and mental-health-service user involvement. Lastly, it is a genuinely European P/MH nursing textbook – the first of its kind – largely written by mental health scholars from Europe, although it also includes contributions from North America and Australia/New Zealand. Focusing on clinical/practical issues, theory and empirical findings, it adopts an evidence-based or

evidence-informed approach. Each contribution presents the state-of-the-art of P/MH nursing in Europe so that it can be transferred to and implemented by P/MH nurses and the broader mental health care community around the globe. As such, it will be the first genuinely 21st century European Psychiatric Mental Health Nursing book.
