In 1888 the dreaded figure of Jack the Ripper stalked London 's East End murdering prostitutes. His crimes set in motion a huge police operation and have held a dark fascination over the public 's imagination for over a century, yet his identity has never been proved. Now, for the first time, two

---

leading Ripper experts have joined forces to treat the case like a police investigation. Drawing on their unparalleled knowledge of the Jack the Ripper murders and their professional experience as police officers, they uncover clues that have remained undetected for over a hundred years. There are five 'canonical' Ripper victims, yet Scotland Yard's 'Whitechapel Murders' files include another six suspected victims. Drawing the reader into the world of police investigation in Victorian London, Evans and Rumbelow reveal the conflict between the City and Metropolitan forces and the ridicule heaped on the police by the press. Investigating each murder, they conclude that only four of the eleven victims were actually killed by the Ripper. Perhaps most tellingly, they question the motives behind the destruction of evidence – particularly the message 'The Juwes are the men that will not be blamed for nothing', which was chalked on the wall near one murder site and rubbed out on order of the Chief Commissioner – and ask whether the enigmatic Dr Robert Anderson, officer in charge of the investigation, knew the Ripper's true identity. Jack the Ripper: Scotland Yard Investigates strips away much of the nonsense that has accumulated since 1888 and reopens files on a case that will perhaps never be fully solved but will always fascinate.

Bob Odenkirk is a legend in the comedy-

---

writing world, winning Emmys and acclaim for his work on Saturday Night Live, Mr. Show with Bob and David, and many other seminal TV shows. This book, his first, is a spleen-bruisingly funny omnibus that ranges from absurdist monologues (“Martin Luther King, Jr’s Worst Speech Ever”) to intentionally bad theater (“Hitler Dinner Party: A Play”); from avant-garde fiction (“Obituary for the Creator of Madlibs”) to free-verse poetry that’s funnier and more powerful than the work of Calvin Trillin, Jewel, and Robert Louis Stevenson combined. Odenkirk’s debut resembles nothing so much as a hilarious new sketch comedy show that’s exclusively available as a

streaming video for your mind. As Odenkirk himself writes in “The Second Coming of Jesus and Lazarus,” it is a book “to be read aloud to yourself in the voice of Bob Newhart.”

Across Africa, growing economic inequality, instability and urbanization have led to the rapid spread of private security providers. While these PSPs have already had a significant impact on African societies, their impact has so far received little in the way of comprehensive analysis. Drawing on a wide range of disciplinary approaches, and encompassing anthropology, sociology and political science, Private Security in Africa offers unique insight into the lives and experiences of security providers and those affected by them, as well as into the fragile state context which has allowed them to thrive.

---

Featuring original empirical research and case studies ranging from private policing in South Africa to the recruitment of Sierra Leoneans for private security work in Iraq, the book considers the full implications of PSPs for security and the state, not only for Africa but for the world as a whole.

This book examines British collectors of so-called Persian art (a broad umbrella term then covering a large portion of Islamic art) in the late 19th century, including ceramics, metalwork, carpets, textiles and woodwork. Based on a foundational event, the very first exhibition of “Persian and Arab Art”

held by a London Gentlemen’s Club in 1885, this book follows one generation of men, retracing the subtle shades of difference among “amateurs,” “connoisseurs,” “experts” and “collectors,” and exploring all the mechanisms of the construction of a collective fascination for the Orient. Isabelle Gadoin uncovers some of the first “scientific” analyses of Islamic objects and of the first private notebooks or exhibition catalogues, to provide an in-depth study of the way Westerners talked about Islamic objects and began to define what would become Islamic art history. All the while, Gadoin unravels the skein of Western prejudice, Romantic fancy, sincere admiration and ruthless appropriation, in art collecting, to write a new chapter of

---

Orientalist history. The book will be of interest to scholars working in art history, history of collecting, colonialism and postcolonialism, and Orientalism.

The Westway is, for most of us, a mundane slab of tarmac, a facilitator to get to a destination (it connects London to south England's motorways) - but for a group of travellers it's the roof of their home. Paul Wenham-Clarke spent many months gaining the trust of the community's leaders for unrivalled access to this otherwise closed world. His resulting portraits, accompanied by quotes, are intimate, arresting and at times comic. They reveal a strong and unique identity of a people fighting

against the sweeping currents of London and modern life.

In Victorian London, filth was everywhere: horse traffic filled the streets with dung, household rubbish went uncollected, cesspools brimmed with "night soil," graveyards teemed with rotting corpses, the air itself was choked with smoke. In this intimately visceral book, Lee Jackson guides us through the underbelly of the Victorian metropolis, introducing us to the men and women who struggled to stem a rising tide of pollution and dirt, and the forces that opposed them. Through thematic chapters, Jackson describes how Victorian reformers met with both triumph and disaster. Full of individual stories and overlooked details--from the dustmen who

---

grew rich from recycling, to the peculiar history of the public toilet--this riveting book gives us a fresh insight into the minutiae of daily life and the wider challenges posed by the unprecedented growth of the Victorian capital.
