Italian cinema has

been an influential, sometimes dominant, force in the world of filmmaking for over 100 years. Many world famous actors and production personnel have made their mark on the Italian screen. This is an encyclopedic reference and filmography to the nearly 5,000 people, Italians and foreigners, who have been involved in Italian filmmaking since 1896. Each entry provides brief

biographical information on the person, along with full filmographic data on his or her films in Italy or for Italian filmmakers. The annotated title index includes Italian titles (and year) and English-language titles and alternate titles where appropriate.

Conjoined to all of the title index references (to serially numbered personal entries), with the exception of acting credits, are mnemonic codes indicating specific areas of production (e.g., director, producer, camera, music, etc.).

Although fictional responses to Caravaggio date back to the painter's lifetime (1571-1610), it was during the second half of the twentieth century that interest in him took off outside the world of art history.

In this new monograph, the first book-length study of Caravaggio's recent impact, Rorato provides a panoramic overview of his appropriation by popular culture.

The extent of the Caravaggio myth, and its self-perpetuating nature, are brought out by a series of case studies involving authors and directors from

numerous countries (Italy, Great Britain, America, Canada, France and Norway) and literary and filmic texts from a number of genres - from straightforward tellings of his life to crime fiction, homoerotic film and postcolonial literature.

remains, in many ways, an enigma, and his art continues to be as elusive as it is compelling. In Dosso's *Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary

sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy.

impact on a wide range of baroque painters of Italian, French, Dutch, Flemish, and Spanish origin who resided in Rome either during his lifetime or immediately afterward. This captivating book illustrates the notion of "Caravaggism," showcasing 65 works by Peter Paul Rubens and other

important artists of the period who drew inspiration from Caravaggio. Also depicted are Caravaggio canvases that fully exhibit his distinctive style, along with ones that had a particularly discernible impact on other practitioners. Caravaggio's influence was greatest in Rome, where his works were

seen by the largest and most international group of artists, and was at its peak in the early decades of the 17th century both before and after his untimely death at the age of 39. Not since Michelangelo or Raphael has one European artist affected so many of his contemporaries and over such broad

geographic territory. Essays by an array of major Caravaggio scholars illuminate the underlying principles of the exhibit, reveal how Caravaggio altered the presentation and interpretation of many traditional subjects and inspired unusual new ones, and explore the artist's legacy and

through the 1600s, he reveals how it came to be considered an artful relic—a divine painting attributed to God’s artistry that contains traces of Christ’s body. Through probing analyses of materials created to perpetuate the Shroud’s cult following—including devotional, historical, and theological treatises as well as printed and painted reproductions—Casper uncovers historicized connections to late Renaissance and Baroque artistic cultures that frame an understanding of the Shroud’s bloodied corporeal impressions as an alloy of material authenticity and divine artifice. This groundbreaking book introduces rich, new material about the Shroud’s emergence as a sacred artifact. It will appeal to art historians specializing in religious and material studies, historians of religion, and to general readers interested in the Shroud of Turin.

La straordinaria esposizione, successiva a quella dal titolo Il Rinascimento a Firenze: capolavori e protagonisti che attraversava il Quattrocento fino al primo Cinquecento fiorentino, prosegue nel percorso di approfondimento tematico delle grandi stagioni dell'Arte Italiana e presenta al pubblico cinese, per la prima volta, opere d'arte irripetibili, appartenenti al patrimonio culturale italiano nelle sue diverse forme espressive, giunte integre fino a noi grazie alla eccellente azione di tutela che impegna quotidianamente il nostro Ministero. All'evento espositivo, allestito presso il Museo Nazionale della celebre Piazza Tienanmen, sono presenti opere di proprietà statale, dai maggiori musei e dalle più importanti chiese di Roma, di proprietà ecclesiastica, dalla chiesa di Santa Maria in Trastevere, e di proprietà comunale, dal Museo del Barocco di Ariccia, nonché di altri Enti presenti sul territorio romano e laziale.
