The Cornellian Createspace Independent Publishing Platform Robert's Rules of Order by Henry M. Robert There appears to be much needed a work on parliamentary law, based, in its general principles, upon the rules and practice of Congress, and adapted, in its details, to the use of ordinary societies. Such a work should give, not only the methods of organizing and conducting the meetings, the duties of the officers and the names of the ordinary motions, but in addition, should state in a systematic manner, in reference to each motion, its object and effect; whether it can be amended or debated; if debatable, the extent to which it opens the main question to debate; the circumstances under which it can be made, and what other motions can be made while it is pending. This Manual has been prepared with a view to supplying the above information in a condensed and systematic manner, each rule being either complete in itself, or giving references to every section that in any way qualifies it, so that a stranger to the work can refer to any special subject with safety. We are delighted to publish this classic book as part of our extensive Classic Library collection. Sister Resisters advances a robust model of mentorship in support of young Black women on campus. The book offers a multifaceted approach to cross-racial mentoring in higher education that promises growth and change for both mentees and their mentors. Janie Victoria Ward and Tracy L. Robinson-Wood, experts in the developmental and identity challenges of young people of color, provide guidance for the faculty, advisors, and administrators (typically white women) who invest in the success of this historically underserved student group. Through case studies, student narratives, and research

findings, the authors document the specific deterrents young Black women face daily on campus, from cultural pressures and class bias to racist and misogynistic microaggressions. Ward and Robinson-Wood call on campus mentors to increase their own cultural competencies so that they may better support, work with, and advocate for their student mentees. This Sister Resister mentorship model emphasizes the acquisition of cultural knowledge, the power of intersectionality, and the critical role of resistance in the lives of Black (and white) women as they navigate interpersonal and institutional bias and discrimination. Sister Resisters highlights the dual and interactive developmental processes that transpire in both halves of the mentor-mentee relationship. The book provides anti-racist, consciousness-raising self-assessments, and other growth-enhancing recommendations for women who endeavor to mentor as staunch supporters. Suggesting evidence-based strategies that promote healthy resistance to negative social and political experiences, Sister Resisters equips both mentors and mentees with thoughtfully designed, culturally informed skills that can further educational, racial, and gender equality on campus.

This book chronicles the timeless service of Phi Mu Omega chapter of Alpha Kappa Alpha from its humble beginnings as Ivy Omega Interest Group in 1998, to its chartering on January 15, 2000, to its present status as a thriving chapter living out the sorority's motto to be "Supreme in Service to All Mankind". This history book was a time-intensive and labor-intensive assignment for women who are already busy, career-minded, and community-service oriented, but it truly became a labor of love which International President Carolyn House Stewart requested of each chapter of the sorority. Without her directive, this book, in all certainty, would never have been written. The project has indelibly etched valuable lessons in the minds of the historian and chapter members--the need for archiving and documenting the chapter's programs, activities, events, and projects. The assignment also refocused attention on previous and current international initiatives issued by each international president. According to historian Earnestine Green McNealey, Ph.D., author of the sorority's definitive history book *The Pearls of Alpha Kappa Alpha: A History of America's First Black Sorority*, until the lion tells its own story, the story will always glorify the hunter. This project forced chapters across the United States and in other countries to tell our own stories from their perspectives and in the context of historical events and social issues facing the communities we serve. Hopefully, it also reinforced the *raison d'être* for every member, every chapter, every region, and the international sisterhood. The beginning and evolving history of Phi Mu Omega is captured for generations of young women yet to come so that it might inspire and motivate them to become women with a desire to serve all mankind.
