In Montenegro, United Nations Development Programme (UNDP) focused on the republic's continuing reform efforts. This assessment of Development Results (ADP) reviews the last five years of UNDP's support to Montenegro, from 2001-2005, within the context of its relationship with Serbia and its current and future development challenges. The assessment is based on an evaluation of current and past programmes and extensive stakeholder consultations. It provides an analysis of the extent to which UNDP has positioned itself effectively to identify and respond to national development needs. It also offers an overall assessment of the development results in the areas of post-conflict transition achieved in cooperation with the Government and other

development partners.

The Groundbreaking Strengths

Assessment from the Leader of the Strengths Revolution In the years since the publication of *First, Break All the Rules* and *Now, Discover Your Strengths*, millions have come to the simple but powerful realization that to get the most out of people, you must build on their strengths. And yet, as Marcus Buckingham astutely points out, though the strengths-based approach is now conventional wisdom, the tools and systems inside organizations—performance appraisals, training programs, and succession planning systems—remain stubbornly remedial and exclusively focused on measuring skills, finding

gaps, and attempting to plug them. It's a crisis for individuals and organizations, with management ideas and everyday practice utterly out of sync. That's about to change. *StandOut 2.0* is a revolutionary book and tool that enables you to identify your strengths, and those of your team, and act on them. The original edition of *StandOut* provided top-notch insights from one of the world's foremost authorities on strengths, as well as access to a powerful, cutting-edge online assessment tool. *StandOut 2.0* also includes the assessment and a robust report on your most dominant strengths. The report is

easily exported so you can use it to present the very best of yourself to your team and your company.

StandOut 2.0 is your indispensable guide for building on your strengths to further your career—and help your team and organization win.

An inside look at America's most controversial charter schools, and the moral and political questions around public education and school choice. The promise of public education is excellence for all. But that promise has seldom been kept for low-income children of color in America. In *How the Other Half Learns*, teacher and education journalist Robert Pondiscio focuses on Success Academy, the network of controversial charter schools in New York City founded by Eva Moskowitz, who has created something unprecedented in American education: a way for large numbers of engaged and ambitious low-income

families of color to get an education for their children that equals and even exceeds what wealthy families take for granted. Her results are astonishing, her methods unorthodox. Decades of well-intended efforts to improve our schools and close the "achievement gap" have set equity and excellence at war with each other: If you are wealthy, with the means to pay private school tuition or move to an affluent community, you can get your child into an excellent school. But if you are poor and black or brown, you have to settle for "equity" and a lecture--about fairness. About the need to be patient. And about how school choice for you only damages public schools for everyone else. Thousands of parents have chosen Success Academy, and thousands more sit on waiting lists to get in. But

Moskowitz herself admits Success Academy "is not for everyone," and this raises uncomfortable questions we'd rather not ask, let alone answer: What if the price of giving a first-rate education to children least likely to receive it means acknowledging that you can't do it for everyone? What if some problems are just too hard for schools alone to solve?

An all-new approach to understanding the (in)formal connections of an organization
From the bestselling coauthor of the business classic *The Wisdom of Teams* comes an all-new exploration of the modern workplace, and how leaders and managers must embrace it for success. Katzenbach and Khan examine

how two distinct factions together form the bigger picture for how organizations actually work: the more defined "formal" organization of a company-the management structure, performance metrics, and processes-and the "informal"-the culture, social networks, and ad hoc communities that spring up naturally and can accelerate or hinder how the organization works. With dynamic examples from enterprises around the world, this book takes a timeless organizational approach and creates a powerful paradigm-shifting tool set for applying it. Includes self-assessment guidelines for senior leaders, front-line managers, and individual contributors Features organizations in business, government, the nonprofit sector, and academia-including the New York City schools system, Aetna, the Marines, United

Nations, Orpheus Chamber Orchestra, Home Depot, Bell Canada, and the Houston Police Department Leading Outside the Lines illustrates how leaders can make the two distinct factions work together to get the best of both.

For many organizations, the way in which processes and projects are selected and executed is a

fundamental factor in how well they can prosper in today ' s marketplace. By improving efficiency, driving productivity and reducing costs, organizations can increase throughput, improve service and bring new products to market faster. The aim of this book is to show how to assess chances of project success at the idea stage in order to direct resources to promising projects and conserve resources. In doing that, it presents effective project execution processes, practices, and experiences that help to select the right projects and do them right. This is a mindset changing book from project speed and cost cutting to discipline, execution excellence, and competitive advantage. It is about effective business development using a practical approach to select the right projects and do them successfully. It describes how to evaluate and predict the likelihood of project success at the idea stage before resources are expended to develop projects. Each chapter describes how to evaluate planned project development and implementation, rate its performance, and identify gaps to be filled to

achieve project execution excellence. The book is designed to guide the assessment of each project stage to uncover areas in need of improvement with focus on prediction of project success. Hence, each chapter stands on its own and assesses key elements of project stages to determine how well they are executed. The journey of project execution described is based on predicting project success at the idea stage and begins with understanding differences in large project requirements and their effects on the way they should be done. The evaluation of the idea ' s origin and reasons for pursuing a project is done with help from an experienced facilitator/moderator. The reason for it is that this individual is engaged to assess likelihood of success from an external, independent, critical, and objective perspective before the project begins.

The Food and Feelings Workbook Pearson
Education ESL

An extraordinary, powerful connection exists between feeling and feeding that, if damaged, may lead to one relying on food for emotional support, rather than seeking authentic happiness. This unique workbook takes on the seven emotions that plague problem eaters — guilt, shame, helplessness, anxiety, disappointment, confusion, and loneliness — and shows readers how to embrace and learn from their feelings. Written with honesty and humor, the book explains how to identify and label a specific emotion, the function of that emotion, and why the emotion drives food and eating problems. Each chapter has two sets of exercises: experiential exercises that relate to emotions and eating, and questionnaires that

provoke thinking about and understanding feelings and their purpose. Supplemental pages help readers identify emotions and chart emotional development. The final part of the workbook focuses on strategies for disconnecting feeling from food, discovering emotional triggers, and using one's feelings to get what one wants out of life.
