These essays offer readers vivid and varied evidence of the female response to recurring attempts by culture to artificially limit identity along the gendered lines of private and public experience. Calling on voices both familiar and little known, British and American, black and white, young and old, the essayists explore how women used life-writing as a means of both self-understanding and connection to a community of sympathetic others, real or imagined.

Harper Adams was six years old in 2012 when an act of viral terrorism wiped out one-half of the country's population. Out of the ashes rose a new government, the Confederation of the Willing, dedicated to maintaining order at any cost. The populace is controlled via government-sanctioned sex and drugs, a brutal police force known as the Blue Coats, and a device called the slate, a mandatory

implant that monitors every word a person speaks. To utter a Red-Listed, forbidden word is to risk physical punishment or even death. But there are those who resist. Guided by the fabled "Book of Noah," they are determined to shake the people from their apathy and ignorance, and are prepared to start a war in the name of freedom. The newest member of this resistance is Harper -- a woman driven by memories of a daughter lost, a daughter whose very name was erased by the Red List. And she possesses a power that could make her the underground warriors' ultimate weapon -- or the instrument of their destruction. In the tradition of Margaret Atwood's *The Handmaid's Tale*, Laura Bynum has written an astonishing debut novel about a chilling, all-too-plausible future in which speech is a weapon and security comes at the highest price of all.

This is the first substantial reference work in English on the various forms that constitute "life writing." As this term suggests, the Encyclopedia explores not only autobiography and biography proper, but also letters, diaries, memoirs, family histories, case histories, and other ways in which individual lives have been recorded and structured. It includes entries on genres and subgenres, national and regional traditions from around the world, and important autobiographical writers, as well as articles on related areas such as oral history, anthropology, testimonies, and the representation of life stories in non-verbal art forms.

Ranging from the early modern period to the present day, this edited collection uses biography as a window into the history of the Arab-Islamic Middle East. The contributors reinterpret the lives of the famous such as George Antonius and Doria Shafiq and rediscover the lives of individuals previously consigned to the margins of history, including the notorious individuals of 17th-century Syria and the 20th-century Palestinian activist Kulthum Auda. The book also draws on the biographical tradition of Arab historical

writing, including biographical dictionaries, for an understanding of the region's social and cultural history.

Interdisciplinary in scope and theoretically informed, this volume brings to light individual lives which are essential to an understanding of Middle Eastern history.

People often say education is broken, but I don't think that's true. I believe education is simply evolving into something beautiful. No longer are reading, writing, and arithmetic the foundations of learning.

Learning is now rooted in relationships, relationships, and most importantly, relationships. The journey that you are about to embark on in *The Rooted Classroom* is a powerful one. These pages are full of stories, strategies, and successes of what schools can look like when the focus is securing rooted relationships with staff and students. The first section of the book contains seven original essays, arranged in order to coincide with Bill's (chronological) professional career. These essays cover a wide variety of real estate topics, including valuation theory, definition of market value, market analysis, the appraisal process, role of the appraiser as an expert witness, valuation under

environmental contamination, and international real estate issues. The second section of the book reprints eleven of Bill's most influential papers, selected with the help of forty of his colleagues. These articles, written by Bill and various co-authors, represent only a portion of his contributions to real estate theory and practice. They are "classics" in real estate education.

The final section contains personal reflections by colleagues, family and friends of Bill. One of Bill's most influential publications is his classic text, "Income Property Valuation", and is frequently cited in the testimonials. These testimonials provide clear evidence that Bill was an excellent teacher and real estate professional. He truly cared about his students and colleagues and worked hard to move the real estate profession forward.

For the moment Vayl works for the C.I.A. doing what he does best -- assassination. And I help. You could say I'm an Assistant Assassin. But then I'd have to kick your ass. This book is a history of all branches of Mennonites (including the Amish) from their first arrival in the state of Illinois around 1830 to the

present. It deals briefly with Mennonite origins in Europe in the 16th century, points out how the Amish split off from the Mennonites in the 1690s, and depicts Mennonite-Amish migrations to America, especially those who came in the 19th century and settled in Illinois. The work portrays the divisions that developed, mostly after the Civil War, and how the story became more complex. It describes the effect of the Awakening and the influence of Fundamentalism and other forces on the Illinois Mennonites, including the pressures toward American acculturation. The author points out also the significant trend toward cooperation and unity in recent decades, especially among the (Old) Mennonites and the General Conference Mennonites. Smith is uniquely qualified to write this book. He is a native of Illinois with a thorough knowledge and understanding of the customs and beliefs of Illinois Mennonites. His family was among the early Mennonite settlers in the state, and active in the spiritual life of their community. Smith himself has studied and thought history for many years, has written many historical articles, and is the author of several books. As a professor at Goshen College,

he had the support of other Mennonite historians and ready access to library and archival material relating to Illinois Mennonites.

Popati Hiranandani's (1924-2007) autobiography unfolds the experiences of her personal life trapped in the geo-political debris of pre- and post-Partition India. She traces the agony and ecstasy of her life, the critical junctures of becoming and unbecoming in the life of a Sindhi woman-the two phases of her pre-Partition and post-Partition life are fused by the inconsolable and unmitigated trauma triggered by the loss of home. Through an exegesis of gender relations in colonial and postcolonial India and scrutiny of personal experiences and memories, Hiranandani offers her understanding of the real obstacles that come in women's ways of wielding autonomy over their lives. Hiranandani's short stories posit a fictional account of multifaceted existence of womanhood. Caught in the web of nostalgia, agony, pain of separation, and reunion-both imaginary and real-Hiranandani's protagonists attempt to veil their tears and recount the stories of the lives that remained untold and unheard for a long time. Translated, and with an Introduction, by Jyoti Panjwani, this work traces the migration of the Sindhi community in pre- and post-Partition India. The detailed analysis of the development of Sindhi literature is accompanied by Panjwani's re-contextualizing of Hiranandani's life and work in present-day India.

Ethical considerations are a dominant theme in the management literature. As "Ethics and ethical issues surround our lives, ... ethics has become one of the most rapidly growing areas of management research, with over 800 articles and 1,400 books appearing since 1990" (Schminke, Ambrose, and Miles, 1998). Compared to business and business management, however, the research and writing on real estate in an ethics context is in the very early stages of

development. The lack of a developed literature on ethics in real estate is reflected in the response by one highly placed executive to my solicitation for funding to support the publication of this volume: "I didn't know there were any ethics in real estate!"

Fortunately, the Summa Corporation and the American Real Estate Society believe in the importance of ethics in real estate, for their cosponsorship has made possible this special monograph on the subject of Ethics in Real Estate. The support of the Summa Corporation and the American Real Estate Society of this pioneering volume is warmly and appreciatively acknowledged.

"Like many twentieth-century Black families, the Nesbitts achieved an incredible transformation over the course of a single generation: from performing manual labor on the rural farms of the deep south to holding advanced degrees and owning property in the urban midwest, their family's story was lived or dreamed of by

many who moved north during the Great Migration. In *Being Somebody and Black Besides*, George B. Nesbitt recounts the extraordinary struggles he, his parents, and his five siblings faced in their upwardly mobile journey from the Great Migration through the Freedom Struggle. Born in Champaign, Illinois, Nesbitt earned a law degree at the University of Illinois, enduring racist lectures and administrators who sought to penalize him when he advocated for racial equality. After graduating, he served in World War II, facing discrimination and harassment like many Black soldiers. And when the war was over, despite his education he held many jobs, some quite lowly, before he became deputy assistant to the secretary of Housing and Urban Development in the Kennedy administration. A keen observer and narrator of race, Nesbitt recounts with righteous and justified anger his bitter struggles and incredible triumphs, shared by Black men and women in America. His beautifully written memoir is a rare example of a sustained first-person narrative about black life in this era. While many of his experiences will resonate with today's readers, others will provide a crucial glimpse

into a chapter of Black life and its place in the unfinished struggle for racial justice in our country"--

"This biography traces the output of jazz master Charles Mingus--his recordings, his compositions, and his writings--highlighting key moments in his life and musicians who influenced him and were influenced by him. As a young man, Mingus played with Louis Armstrong as well as with Kid Ory. Mingus also played in bands led by Duke Ellington, Charlie Parker, Lionel Hampton, Red Norvo, Art Tatum, and many others. He began leading his own bands in New York City in 1955. Eric Dolphy, Rahsaan Roland Kirk, Jimmy Knepper, Jackie McLean, Toshiko Akiyoshi, Cat Anderson, and Jaki Byard are among the many distinguished jazz artists who made music with Mingus during the 1950s, 1960s, and 1970s. In addition to leaving behind a large collection of compelling recordings by large and small units, Mingus was also a talented writer. His autobiography, *Beneath the Underdog: His World Composed* by Mingus, is unlike any other book by a major jazz artist. Mingus creates vivid portraits of the many people who passed through his life and tells his story with compelling prose. Mingus also wrote a good deal of poetry and prose, all of it reflecting his unique vision. In 1977 he was diagnosed with amyotrophic lateral sclerosis. After several months of steady deterioration, he died in 1979 in Mexico"--Provided by publisher.
