Behind the Christmas songs we love to sing lie fascinating stories that will enrich your holiday celebration.

Taking you inside the nativity of over thirty favorite songs and carols, Ace Collins introduces you to people you've never met, stories you've never heard, and meanings you'd never have imagined. The next time you and your family sing "God Rest Ye Merry Gentlemen," you'll have a new understanding of its message and popular roots. You'll discover how "Angels from the Realms of Glory," with its sublime lyrics and profound theology, helped usher in a quiet revolution in worship. You'll learn the strange history of the haunting and powerful "O Holy Night," including the song's surprising place in the history of modern communications. And

you'll step inside the life of Mark Lowry and find out how he came to pen the words to the contemporary classic "Mary, Did You Know?" Still other songs such as "O Come, O Come, Emmanuel" trace back to mysterious origins--to ninth-century monks, nameless clergy, and unknown commoners of ages past. Joining hands with such modern favorites as "White Christmas" and "The Christmas Song," they are part of the legacy of inspiration, faith, tears, love, and spiritual joy that is Christmas. From the rollicking appeal of "Jingle Bells" to the tranquil beauty of "Silent Night," the great songs of Christmas contain messages of peace,

hope, and truth. Each in its own way expresses a facet of God's heart and celebrates the birth of his greatest gift to the world--Jesus, the most wonderful Christmas Song of all. Psalter Hymnal Boyds Mills Press Jesus provides the vision: "Love each other as I have loved you" (John 15:12). Jesus loved generously, even lavishly, surprising people by loving without preconditions or limits. He pursued people to love them, bringing healing and freedom. We need loving relationships when we are struggling with

life's challenges. Unfortunately, the Christian community has not always been a reliable source of support. The strategies used in an effort to be helpful often break relationship because they are rooted in fear, not love. We fear vulnerability, and we feel vulnerable when we go through times of distress or walk with someone who is. Our fear of vulnerability blocks our capacity to connect when we need it most. Restoring Relationship explores the roots

of vulnerability and provides a framework for transforming fear into love through connection. Through stories and exercises, I introduce a new spiritual practice based on the Internal Family Systems (IFS) model, demonstrating the congruence of IFS with biblical and theological truths. Common causes of distress, including loss, betrayal, addiction, and the emotional response to physical and mental illness, are explored through the lens of IFS and the new spiritual

practice. Through this journey of connection, constraints to loving relationships are removed, restoring loving relationships with God, one another, and ourselves. "A master of the story form" (The New York Times) offers a fresh, revealing portrait of the legendary saint
Celebrated novelist Mary Gordon brings Joan of Arc alive as a complex figure full of contradictions and desires, as well as spiritual devotion. A humble peasant girl, Joan transformed

herself into the legendary Maid of Orléans, knight, martyr, and saint. Following the voice of God, she led an army to victory and crowned the king of France, only to be captured and burned at the stake as a heretic—all by the age of nineteen. Gordon does more than tell this gripping story—she explores Joan's mystery and the many facets of her inspiring life. Angel Alert!

Networking means to create nets of relations, where the publisher and the reader, the artist and the audience, act on the same level. The book is a first tentative reconstruction of the history of artistic networking in Italy, through an analysis of media and art projects which during the past twenty years

have given way to a creative, shared and aware use of technologies, from video to computers, contributing to the creation of Italian hacker communities. The Italian network proposes a form of critical information, disseminated through independent and collective projects where the idea of freedom of expression is a central theme. In Italy, thanks to the alternative use of Internet, during the past twenty years a

vast national network of people who share political, cultural and artistic views has been formed. The book describes the evolution of the Italian hacktivism and net culture from the 1980s till today. It builds a reflection on the new role of the artist and author who becomes a networker, operating in collective nets, reconnecting to Neoavant-garde practices of the 1960s (first and foremost Fluxus), but also Mail Art, Neoism and Luther

Blissett. A path which began in BBSes, alternative web platforms spread in Italy through the 1980s even before the Internet even existed, and then moved on to Hackmeetings, to Telestreet and networking art by different artists such as 0 1001011101011 01.ORG, [epidemiC], Jaromil, Giacomo Verde, Giovanotti Mondani Meccanici, Correnti Magnetiche, Candida TV, Tommaso Tozzi, Federico

Bucalossi, Massimo Contrasto, Mariano Equizzi, Pigreca, Molleindustria, Guerriglia Marketing, Sexyshock, Phag Off and many others.
