The Pyramid Texts are the oldest body of extant literature from ancient Egypt. First carved on the walls of the burial chambers in the pyramids of kings and queens of the Old Kingdom, they provide the earliest comprehensive view of the way in which the ancient Egyptians understood the structure of the universe, the role of the gods, and the fate of human beings after death. Their importance lies in their antiquity and in their endurance throughout the entire intellectual history of ancient Egypt. This volume contains the complete translation of the Pyramid Texts, including new texts recently discovered and published. It incorporates full restorations and readings indicated by post-Old Kingdom copies of the texts and is the first translation that presents the texts in the order in which they were meant to be read in each of the original sources.

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over there lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

Ostap Bender is an unemployed con artist living by his wits in postrevolutionary Soviet Russia. He joins forces with Ippolit Matveyevich Vorobyandinov, a former nobleman who has returned to his hometown to find a cache of missing jewels which were hidden in some chairs that have been appropriated by the Soviet authorities. The search for the bejeweled chairs takes these unlikely heroes from the provinces to Moscow to the wilds of Soviet Georgia and the Trans-caucasus mountains; on their quest they encounter a wide variety of characters: from opportunistic Soviet bureaucrats to aging survivors of the prerevolutionary propertied classes, each one more selfish, venal, and ineffective than the one before.

A landmark collection of essays on the Nobel laureate's conception of Latin America, past, present, and future Throughout his career, the Nobel Prize winner Mario Vargas Llosa has grappled with the concept of Latin America on a global stage. Examining liberal claims and searching for cohesion, he continuously weighs the reality of the continent against the image it projects, and considers the political dangers and possibilities that face this diverse set of countries. Now this illuminating and versatile collection assembles these never-before-translated criticisms and meditations. Reflecting the intellectual development of the writer himself, these essays distill the great events of Latin America's recent history, analyze political groups like FARC and Sendero Luminoso, and evaluate the legacies of infamous leaders such as Papa Doc Duvalier and Fidel Castro. Arranged by theme, they trace Vargas Llosa's unwavering demand for freedom, his embrace of and disenchantment with revolutions, and his critique of nationalism, populism, indigenism, and corruption. From the discovery of liberal ideas to a defense of democracy, buoyed by a passionate invocation of Latin American literature and art, *Sabers and Utopias* is a monumental collection from one of our most important writers. Uncompromising and adamantly optimistic, these social and political essays are a paean to thoughtful engagement and a brave indictment of the discrimination and fear that can divide a society.

NATIONAL BOOK AWARD FINALIST • Frank and April Wheeler are a bright, beautiful, talented couple in the 1950s whose perfect suburban life is about to crumble. • Hailed by Kurt Vonnegut as "The Great Gatsby of my time ... one of the best books by a member of my generation." Perhaps Frank and April married too young and started a family too early. Maybe Frank's job is dull. And April never saw herself as a housewife. Yet they have always lived on the assumption that greatness is only just around the corner. But now that certainty is about to unravel. With heartbreaking compassion and remorseless clarity, Richard Yates shows how Frank and April mortgage their spiritual birthright, betraying not only each other, but their best selves. In his introduction to this edition, novelist Richard Ford pays homage to the lasting influence and enduring power of *Revolutionary Road*.

During the Bronze Age, the ancient societies that ringed the Mediterranean, once mostly separate and isolate, began to reach across the great expanse of sea to conduct trade, marking an age of immense cultural growth and technological development. These intersocietal lines of communication and paths for commerce relied on rigorous open-water travel. And, as a potential superhighway, the Mediterranean demanded much in the way of seafaring knowledge and innovative ship design if it were to be successfully navigated. In *Seagoing Ships and Seamanship in the Bronze Age* Levant Shelley Wachsmann presents a one-of-a-kind comprehensive examination of how the early eastern Mediterranean cultures took to the sea--and how they evolved as a result. The author surveys the blue-water ships of the Egyptians, Syro-Canaanites, Cypriots, Early Bronze Age Aegeans, Minoans, Mycenaean, and Sea Peoples, and discusses known Bronze Age shipwrecks. Relying on archaeological, ethnological, iconographic, and textual evidence, Wachsmann delivers a fascinating and intricate rendering of virtually every aspect of early sea travel--from ship construction and propulsion to war on the open water, piracy, and laws pertaining to conduct at sea. This broad study is further enhanced by contributions from other renowned scholars. J. Hoftijzer and W. H. van Soldt offer new and illuminating translations of Ugaritic and Akkadian documents that refer to seafaring. J. R. Lenz delves into the Homeric Greek lexicon to search out possible references to the birdlike shapes that adorned early ships' stem and stern. F. Hocker provides a useful appendix and glossary of nautical terms, and George F. Bass's foreword frames the study's scholarly significance and discusses its place in the nautical archaeological canon. This book brings together for the first time the entire corpus of evidence pertaining to Bronze Age seafaring and will be of special value to archaeologists, maritime historians, philologists, and Bronze Age textual scholars. Offering an abundance of line drawings and photographs and written in a style that makes the material easily accessible to the layperson, Wachsmann's study is certain to become a standard reference for anyone interested in the dawn of sea travel.

Selected by the Modern Library as one of the 100 best novels of all time Published in 1975, *Ragtime* changed our very concept of what a novel could be. An extraordinary tapestry, *Ragtime* captures the spirit of America in the era between the turn of the century and the First World War. The story opens in 1906 in New Rochelle, New York, at the home of an affluent American family. One lazy Sunday afternoon, the famous escape artist Harry Houdini swerves his car into a telephone pole outside their house. And almost magically, the line between fantasy and historical fact, between real and imaginary characters, disappears. Henry Ford, Emma Goldman, J. P. Morgan, Evelyn Nesbit, Sigmund Freud, and Emiliano Zapata slip in and out of the tale, crossing paths with Doctorow's imagined family and other fictional characters, including an immigrant peddler and a ragtime musician from Harlem whose insistence on a point of justice drives him to revolutionary violence.

A searing new collection from the inimitable Amelia Gray. A woman creeps through the ductwork of a quiet home. A medical procedure reveals an object of worship. A carnivorous reptile divides and cauterizes a town. Amelia Gray's curio cabinet expands in Gutshot, where isolation and coupling are pushed to their dark and outrageous edges. These singular stories live and breathe on their own, pulsating with energy and humanness and a glorious sense of humor. Hers are stories that you will read and reread—raw gems that burrow into your brain, reminders of just how strange and beautiful our world is. These collected stories come to us like a vivisectioned body, the whole that is all the more elegant and breathtaking for exploring its most grotesque and intimate lightless viscera.
