The Order of the Temple was founded in 1119 with the limited aim of protecting pilgrims around Jerusalem. It developed into one of the most powerful corporations in the medieval world which lasted for nearly two centuries until its suppression in 1312. Despite the loss of its central archive in the sixteenth century, the Order left many records of its existence as the spearhead of crusading activity in Palestine and Syria, as the administrator of a great network of preceptories and lands in the Latin west, and as a banker and ship-owner. Because of the dramatic nature of its abolition, it has retained its grip on the imagination and consequently there has developed an entirely fictional 'after-history' in which its secret presence has been evoked to explain mysteries which range from masonic conspiracy to the survival of the Turin Shroud. This book offers a concise and up-to-date introduction to the reality and the myth of this extraordinary institution.

The Counts of Tripoli and Lebanon in the Twelfth Century BRILL

The county of Tripoli in what is now North Lebanon is arguably the most neglected of the so-called 'crusader states' established in the Middle East at the beginning of the twelfth century. The present work is the first monograph on the county to be published in English, and the first in any western language since 1945. What little has been written on the subject previously has focused upon the European ancestry of the counts of Tripoli: a specifically Southern French heritage inherited from the famous crusader Raymond IV of Saint-Gilles. Kevin Lewis argues that past historians have at once exaggerated the political importance of the counts' French

descent and ignored the more compelling signs of its cultural impact, highlighting poetry composed by troubadours in Occitan at Tripoli's court. For Lewis, however, even this belies a deeper understanding of the processes that shaped the county. What emerges is an intriguing portrait of the county in which its rulers struggled to exert their power over Lebanon in the face of this region's insurmountable geographical forces and its sometimes bewildering, always beguiling diversity of religions, languages and cultures. The counts of Tripoli and contemporary Muslim onlookers certainly viewed the dynasty as sons of Saint-Gilles, but the county's administration relied upon Arabic, its stability upon the mixed loyalties of its local inhabitants, and its very existence upon the rugged mountains that cradled it. This book challenges prevailing knowledge of this little-known crusader state and by extension the medieval Middle East as a whole. .

Photographer Cindy Sherman, who often uses motifs from exploitation films in her work, pays witty tribute to slasher films in this satiric horror-comedy. Dorine Douglas (Carol Kane) has spent 16 years at the bottom of the totem pole as a copy editor for Constant Consumer magazine when, due to budget cuts, she's downsized into a contract employee and forced to work out of her home. Dorine isn't at all happy about this, and when she's called back into the office to help obnoxious writer Gary (David Thornton) fix a glitch in his computer, she's not at all upset when he's accidentally electrocuted. Dorine brings Gary's corpse home to join her in front of the TV. When pushy publisher Virginia (Barbara Sukowa) orders Dorine and overly ambitious Kim (Molly Ringwald) to salvage Gary's story from his notes, Dorine snaps, and soon Gary has some company in Dorine's increasingly crowded home office. Office Killer also stars Jeanne Tripplehorn and Michael Imperioli as more of Dorine's co-workers. ~ Mark Deming, Rovi

A detailed, illustrated history of UK locomotives exported across Europe, with over 200 previously unpublished photos. Many British main-line diesel and electric locomotives have found further useful employment across Europe after completion of their careers in the United Kingdom. This volume incorporates text and photos into a detailed history of these locomotives and their surprisingly extensive geographical use—including in France, the Netherlands, Spain, Italy, Kosovo, Hungary, Romania, Bulgaria and Croatia in recent decades. A significant amount of exclusive factual information and over 200 previously unpublished photographs combine to provide a comprehensive insight into the British locomotives now finding a second life overseas, including coverage of Class 37, 56, and 58 locomotives on high-speed line construction work in France; Class 37 mishaps in Spain; Class 86s on their day of arrival in Bulgaria; and various types of a.c. electric locomotives in their new habitats across Eastern Europe.

This book examines the strengths and limitations of the two main strands in feminist criticism, the Anglo-American and the French, paying particular attention to the works of Cixous, Irigaray and Kristeva. What are the political implications of a feminist critical practice? How do the problems of the literary text relate to the priorities and perspectives of feminist politics as a whole? Sexual/Textual Politics addresses these fundamental questions and examines the strengths and limitations of the two main strands in feminist criticism, the Anglo-American and the French. It pays particular attention to the works of Cixous, Irigaray and Kristeva, and since publication this book has rightly attained the status of a classic. Although written for readers with little knowledge of the subject, Sexual/Textual Politics makes its own intervention into key debates, arguing provocatively for committedly political and theoretical criticism rather than a textual or apolitical approach. With a new afterword in this edition, Sexual/Textual Politics is a brilliantly accessible must-read for all those interested in feminist literary theory.
