"For a long time, we humans have excelled in mimicking nature with the goal of exploiting it. Now, with the existential threat of global climate change on the horizon, the ever-provocative Michael Taussig asks what it would take to change ourselves so as to save our world. Acknowledging the possibility of collapse and our all-too-human impotence in the face of

accelerating disaster, this book is not solely a reflection on our tragic condition but also a theoretical effort to reckon with those human faculties that have fed our ambition for dominance over nature. At stake is an ultimate undoing of our sense of control--a "mastery of non-mastery." Animated by the urgency of a planet approaching meltdown, Taussig captures our moment, and all its attendant mythologies, with luminescent clarity"--

I am sitting on my front stoop. I think it's about midnight. I was busy reading up until an hour ago, but my eyes started to hurt from squinting. Now it's just me and the waiting. It's 1987 and fourteen-year-old Ellie Roma doesn't have much of a family. She lives with her mother, who has taken a break from parenting; and her older sister, Gwen, who is on her way to becoming a juvenile delinquent. Her father left them to start a new life. So Ellie spends a lot of time alone, especially at night, when all she has to keep her company are the fireflies that flicker in the summer air. Then one day a mysterious stranger enters her dark world. He is Leo, twenty-one, who is on his way to Hollywood to become a rock star. Ellie and Leo connect instantly, and Ellie hopes Leo will be the one to rescue her from her unhappy life. But instead, Leo teaches Ellie that no one can save you. You have to go after what you

want. So one night -- one terrible, frightening, thrilling night -- that's exactly what Ellie decides to do. With a fresh perspective, first-time novelist Dominique Paul deftly weaves a family drama about chaos and dysfunction, with a young girl's journey of triumph. Full of humor and sorrow, heartbreak and hope, *The Possibility of Fireflies* is really a story that we all have to tell: the story of the summer we grew up.

NOW A MAJOR MOTION PICTURE The #1 New York Times bestselling worldwide sensation with more than 15 million copies sold, “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature” (The New York Times Book Review). For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. *Where the Crawdads Sing* is at once an

exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Delia Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

Tales Of Dark Matter And Fireflies University of Georgia Press Born and raised in northern Manchuria during the colonial period of Korea, Yun Dong-ju was a poet of the utmost purity, beauty, and sincerity. His posthumously published collection of poems under the title *Sky, wind, stars, and poems* is one of the all-time favorites of Korean readers. Wishing not to have so much as a speck of shame toward heaven until the day I die, I suffered, even when the wind stirred the leaves. (From Foreword) In simple diction and straightforward expressions, his poems sing of his love for his people, his compassion for the poor and destitute, and his hopes for freedom and independence. These themes still resonate deep within the hearts of the Korean people. His imprisonment and eventual death in 1945 in a Japanese prison lend great poignancy to his work.

About Book: If there is a book that throws light on the quirks, beliefs and vanities of humans in a style that's refreshingly new, impactful, thought-provoking and then this is it. Fireflies at 3 am. The book gives birth to a new genre of writing, 'Shoetry'. Where you experience the flow of poetry and the ebb of stories in one book. All in all, every title is short, simple and insightful. Many of them will linger with you, like the taste of the finest single malt whiskey or the first kiss, for a long time to come. About the Author: As a child, Daniil was known to cook up stories to save his little ass or to pass his exams. Then he grew up a bit, only in age and size, and went to college. There, he wrote plays, won a few awards and was told to try his luck in advertising. Some kind soul, who had limited knowledge about advertising, told him that this field was all about wearing jeans to work and late-night parties. He needed no further persuasion, and without losing any more time, got into advertising. Over the last 18 years, he got to work on big brands, made some memorable ads, won international recognition for his work, and learned how to manage acid reflux. Life was OK, but he decided to complicate it by writing a book. People nowadays avoid him like the plague lest he ask them to review his work. His children have started studying harder and his wife has taken up baking so that they can escape his nagging requests, every now and then, to read what he's written. But all said and done, none of that has dampened his spirits. Currently, he is looking forward to selling over a million copies and is busy convincing each of his friends to buy more than 3 copies of the book.
