*Military Recruiting in the United States* provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. *The Way of All Flesh* is often considered to be Samuel Butler's masterpiece, and is frequently included in many lists of best English-language novels of the 20th century. Despite this acclaim, Butler never published it in his lifetime—perhaps because the novel, a scathing, funny, and poignant satire of Victorian life, would have hit his contemporaries too close to home. The novel traces four generations of the Pontifex family, though the central character is Ernest Pontifex, the third-generation wayward son. The reader follows Ernest through the eyes of his watchful godfather, Mr. Overton, as he strikes out from home to find his way in life. His struggles along the way illustrate the complex relationships between a son and his family, and especially his father; all while satirizing Victorian ideas about family, church, marriage, and schooling. This book is part of the Standard Ebooks project, which produces free public domain ebooks.
