The Hacker's Dictionary

With a history of more than 30 years, media art plays an increasingly important role in the international discourse on contemporary art. The reception of canonical video works and electronic media installations is however restricted to temporary and locally defined displays in museum

exhibitions or confined to incomplete catalogue documentations. This volume provides a unique combination of theoretical reflections on the reproducibility, preservation of authenticity and juridical implications of emulation techniques with practical approaches to archiving methods and commercial aspects of media art's accessibility. It is an indispensable guide to the pro's and con's for new forms of de-centralized

systems of mediation and the growing demands for liberal rules and easy access to online-presentations of media art. Uncomparable to other current publications, the book offers a practical manual with checklists for relevant websites and content profiles of major distribution companies.

From the British-West Indian novelist who is rapidly emerging as the bard of the African diaspora comes a haunting work about “the final passage”—the exodus of black West Indians from their impoverished islands to the uncertain opportunities of England. In her village of St. Patrick’s, Leila Preston has no prospects, a young

son, and a husband, Michael, who seems to prefer the company of his mistress. So when her ailing mother travels to England for medical care, Leila decides to follow her. As Caryl Phillips follows the Prestons' outward voyage—and their bewildered attempt to find a home in a country whose rooming houses post signs announcing “No vacancies for coloureds”—he produces a tragicomic portrait of hope and dislocation. *The Final Passage* is a novel rich in language, acute in its grasp of

character, and unforgettable in its vision of the colonial legacy. “Like Isabel Allende and Gabriel García Márquez, Phillips writes of times so heady and chaotic and of characters so compelling that time moves as if guided by the moon and dreams.”—Los Angeles Times Book Review

This book aims to identify, present and discuss key driving forces and pressures on ecosystem services. Ecosystem services are the contributions that ecosystems provide to human well-being. The scope of this atlas is on identifying solutions and lessons to be applied across science, policy and practice. The atlas will

address different components of ecosystem services, assess risks and vulnerabilities, and outline governance and management opportunities. The atlas will therefore attract a wide audience, both from policy and practice and from different scientific disciplines. The emphasis will be on ecosystems in Europe, as the available data on service provision is best developed for this region and recognizes the strengths of the contributing authors. Ecosystems of regions outside Europe will be covered where possible.

"The real value of Lakota Belief and Ritual is that it provides raw narratives without any pretension of synthesis or analysis, as well

as insightful biographical information on the man who contributed more than any other individual to our understanding of early Oglala ritual and belief." Plains Anthropologist "In the writing of Indian history, historians and other scholars seldom have the opportunity to look at the past through 'native eyes' or to immerse themselves in documents created by Indians. For the Oglala and some of the other divisions of the Lakota, the Walker materials provide this kind of experience in

fascinating and rich detail during an important transition period in their history."
