One of TIME's Best New Books to Read This Summer "Brilliant—a keen, elegantly written, and scorching account of the American family today. Through vivid stories, sharp analysis and wit, Quart anatomizes the middle class's fall while also offering solutions and hope." — Barbara Ehrenreich, author of *Nickel and Dimed* Families today are squeezed on every side—from high

childcare costs and harsh employment policies to workplaces without paid family leave or even dependable and regular working hours. Many realize that attaining the standard of living their parents managed has become impossible. Alissa Quart, executive editor of the Economic Hardship Reporting Project, examines the lives of many middle-class Americans who can now barely afford to raise children. Through gripping firsthand storytelling, Quart shows how our country has failed its families. Her subjects—from professors to lawyers to caregivers to nurses—have been wrung out by a system that doesn't support them, and enriches only a tiny elite. Interlacing her own experience with close-up reporting on families that are just getting by, Quart reveals parenthood itself to be financially overwhelming, except for the wealthiest. She offers real solutions to these problems, including outlining necessary policy shifts, as well as detailing the DIY tactics some families are already putting into motion, and argues for the cultural reevaluation of parenthood and caregiving. Written in the spirit of Barbara Ehrenreich and Jennifer Senior, *Squeezed* is an eye-opening page-turner. Powerfully argued, deeply reported, and ultimately hopeful, it casts a bright, clarifying light on

families struggling to thrive in an economy that holds too few options. It will make readers think differently about their lives and those of their neighbors.

Teach the Way the Brain Learns discusses organizing learning experiences under themes. Once the brain has stored basic concepts in the curriculum, the storing-by-association system of

the brain attaches new information to those basic concepts, building new ones as students have learning experiences that involve them in integrated subject matter. Thematic teaching has been around for quite a while, stemming from John Dewey and 'learning by doing.' Teachers need to return to it in view of the effects of narrowed curricula resulting from nationwide emphasis on testing and on rating schools based on student achievement. This book provides ways for teachers to link subjects and areas of learning for various teaching situations and takes readers from simple correlation through using published thematic units now available and on to developing their own interdisciplinary themes or in team efforts with other colleagues.

Young writers will love these useful tips for how to use notes and jottings to create stories and poems of their own.

A poetry collection that both illustrates what mindfulness is and encourages young, growing minds to be present, from poet and educator Georgia Heard, with art by Isabel Roxas. Poets have long observed the world in a mindful way. They point out beauty we might have missed, draw our attention to our inner thoughts, and call us to see our society in new ways. But as daily life become more and more chaotic, children grow distracted. According

to the CDC, 9.4% of children have ADHD and 7% have anxiety/depression. And these numbers continue to climb. As treatment doctors recommend healthy eating, physical activity, plenty of sleep, and mindfulness techniques. Georgia Heard is a poet and educator—and she has long had her own meditation practice. In *My Thoughts Are Clouds*, she uses poetry to demonstrate what mindfulness is and gives kids—and their parents and teachers—accessible ways to learn mindfulness tools.

Above and Beyond the Writing Workshop Chronicle Books

As I was writing about my surprise, unplanned retirement, I came to realize I needed to go back into my past in order to answer my questions about my present and to move into my future. I needed to find some peace about this latest transition. I had reached the top of the pay scale, and my principal, needing to reinforce her power status, recently pushed me into an early, unplanned retirement, which is the basis of this book. Her constant harassment tore me into pieces, but God was able

to use this transition along with some of my others to reassemble the pieces and guide me into a new life. Transitions may involve an end, but they can also usher in a bright new beginning! I hope and pray that experiencing how God and I have faced some of the disturbing transitions in my life might help you or a loved one through some of the challenges you face in life.

From the author of the highly acclaimed, New York Times bestselling novel *Pax* comes a gorgeous and moving middle grade novel that is an ode to introverts, dreamers, and misfits everywhere. Ware can't wait to spend summer "off in his own world"—dreaming of knights in the Middle Ages and generally being left alone. But then his parents sign him up for dreaded Rec camp, where he must endure Meaningful Social Interaction and whatever activities so-called "normal" kids do. On his first day Ware meets Jolene, a tough, secretive girl planting a garden in the rubble of an abandoned church next to the camp. Soon he starts skipping Rec, creating a castle-like space of his own in the church lot. Jolene scoffs, calling him a dreamer—he doesn't live in the "real world" like she does. As different as Ware and Jolene are, though, they have one thing in common: for them, the lot is a refuge. But when their sanctuary is threatened, Ware looks to the knights' Code of Chivalry: Thou shalt do

battle against unfairness wherever faced with it. Thou shalt be always the champion of the Right and Good—and vows to save the lot. But what does a hero look like in real life? And what can two misfit kids do?

The Wanton Sublime

HarperCollins

Writing the Empire is a collective biography of the McIlwraiths, a family of politicians, entrepreneurs, businesspeople, scientists, and scholars. Known for their contributions to literature, politics, and anthropology, the McIlwraiths originated

in Ayrshire, Scotland, and spread across the British Empire, specifically North America and Australia, from the mid-nineteenth century onwards.

Focusing on imperial networking, *Writing the Empire* reflects on three generations of the McIlwraiths' life writing, including correspondence, diaries, memoirs, and estate papers, along with published works by members of the family. By moving from generation to generation, but also from one stage of a person's life to the next, the author investigates how various McIlwraiths, both men and women, articulated their identity as subjects of the British Empire over time. Eva-Marie Kröller identifies parallel and competing forms of communication that involved major public figures beyond the family's immediate circle, and explores the challenges issued by Indigenous people to imperial ideologies. Drawing from private papers and public archives, *Writing the Empire* is an illuminating biography that will appeal to readers interested in the

links between life writing and imperial history.
