Encyclopaedia of Occupational Health and Safety Indiana University Press

Developed through an extensive process of consultation with leading professionals and health and safety institutions worldwide, the new, expanded, and long-awaited Fourth Edition of this well-respected reference provides comprehensive, timely, and accurate coverage of occupational health and safety. Aimed at the specialist and non-specialist alike, such as lawyers, doctors, nurses, engineers, toxicologists, regulators, and other safety professionals, this compendium is organized and designed to provide the most critical information in an easy-to-read format. It uses more than 1,000 illustrations, a new attractive layout, and provides thousands of cited references that provide up-to-date literature reviews. Indexes by subject, chemical name, and author make navigating through information quick and easy. The CD-ROM version includes the same information as the print volumes, plus the benefit of a powerful search and retrieval engine to make searching for information as easy as a mouse click. Here's a sampling of what's covered in each volume and the CD-ROM: Volume 1: The body, health care, management and policy, tools and approaches Volume 2: Psychological and organizational factors, hazards, the environment, accidents, and safety Volume 3: Chemicals, industries and occupations Volume 4: Index by subject, chemical name, author, cross-reference guide, directory of contributors.

Routledge Encyclopedia of Translation Studies Springer Science & Business Media

The SAGE Encyclopedia of the Sociology of Religion takes a three-pronged look at this, namely investigating the role of religion in society; unpacking and evaluating the significance of religion in and on human history; and tracing and outlining the social forces and influences that shape religion. This encyclopedia covers a range of themes from: • fundamental topics like definitions • secularization • dimensions of religiosity to such emerging issues as civil religion • new religious movements This Encyclopedia also addresses contemporary dilemmas such as fundamentalism and extremism and the role of gender in religion.

The Encyclopaedia Britannica: Fra to Har Routledge

With more than 1,700 cross-referenced entries covering every aspect of World War II, the events and developments of the era, and myriad related subjects as well as a documents volume, this is the most comprehensive reference work available on the war. • Provides a clear understanding of the causes of World War II, reaching back to World War I and the role of the Western democracies in its origin • Examines home front developments in major countries during the war, such as race and gender relations in the United States • Recognizes the important roles played by women in the war and describes how the United States mobilized its economy and citizenry for total war • Discusses the Holocaust and establishes responsibility for this genocide • Details the changing attitudes toward the war as expressed in film and literature

The Encyclopaedia Britannica: Payn-Polka SAGE Publications

Here, at last, is the massively updated and augmented second edition of this landmark encyclopedia. It contains approximately 1000 entries dealing in depth with the history of the scientific, technological and medical accomplishments of cultures outside of the United States and Europe. The entries consist of fully updated articles together with hundreds of entirely new topics. This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non-Western Science, such as rationality, objectivity, and method. You'll also find material on religion and science, East and West, and magic and science.

Standard Encyclopedia of the Alcohol Problem Elsevier

The International Encyclopedia of Human Geography provides an authoritative and comprehensive source of information on the discipline of human geography and its constituent, and related, subject areas. The encyclopedia includes over 1,000 detailed entries on philosophy and theory, key concepts, methods and practices, biographies of notable geographers, and geographical thought and praxis in different parts of the world. This groundbreaking project covers every field of human geography and the discipline's relationships to other disciplines, and is global in scope, involving an international set of contributors. Given its broad, inclusive scope and unique online accessibility, it is anticipated that the International Encyclopedia of Human Geography will become the major reference work for the discipline over the coming decades. The Encyclopedia will be available in both limited edition print and online via ScienceDirect – featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit http://info.sciencedirect.com/content/books/ref_works/coming/ Available online on ScienceDirect and in limited edition print format Broad, interdisciplinary coverage across human geography: Philosophy, Methods, People, Social/Cultural, Political, Economic, Development, Health, Cartography, Urban, Historical, Regional Comprehensive and unique - the first of its kind in human geography

Encyclopaedia Britannica International Labour Organization

Designed with the more visual needs of today's student in mind, this landmark encyclopedia covers the entire scope of the Second World War, from its earliest roots to its continuing impact on global politics and human society. Over 1,000 illustrations, maps, and primary source materials enhance the text and make history come alive for students and faculty alike. ABC-CLIO's World War II: A Student Encyclopedia captures the monumental sweep of the "Big One" with accessible scholarship, a student-friendly, image-rich design, and a variety of tools specifically crafted for the novice researcher. For teachers and curriculum specialists, it is a thoroughly contemporary and authoritative work with everything they need to enrich their syllabi and meet state and national standards. Ranging from the conflict's historic origins to VJ Day and beyond, it brings all aspects of the war vividly to life—its origins in the rubble of World War I, its inevitable outbreak, its succession of tumultuous battles and unforgettable personalities. Students will understand what the war meant to the leaders, the soldiers, and

everyday families on home fronts around the world. Featured essays look at Pearl Harbor, the Holocaust, the atomic bomb, and other crucial events, as well as fascinating topics such as signals intelligence and the role of women in war. A separate primary source volume provides essential source material for homework, test preparation or special projects. With a wealth of new information and new ideas about the war's causes, course, and consequences, World War II will be the first place students turn for the who, what, when, where, and—more importantly—the why, behind this historic conflict. 950 A–Z entries, including lengthy biographies of individuals, studies of battles, details of weapons systems, and analyses of wartime conferences—all of the topics students look for, and teachers and educators need to have for their classes Over 270 contributors, including an unprecedented number of non-U.S. authorities, many from Japan and China, giving students a truly global understanding of the war An inviting design incorporating 600 photographs, including contemporaneous images of individuals, scenes from the front lines, posters, and weapon technologies A separate primary source volume offering a wide array of materials ranging from official documents to personal correspondence An early section of 70 detailed geopolitical and military maps, show students the basic sweep of the war

The Encyclopaedia Britannica: Pay to Reel SAGE

Revised and expanded, this edition provides comprehensive coverage of occupational health and safety. A new CD-ROM version is available which provides the benefits of computer-assisted search capabilities

Nelson's Perpetual Loose-leaf Encyclopaedia ABC-CLIO

For any organization to be successful, it must operate in such a manner that knowledge and information, human resources, and technology are continually taken into consideration and managed effectively. Business concepts are always present regardless of the field or industry – in education, government, healthcare, not-for-profit, engineering, hospitality/tourism, among others. Maintaining organizational awareness and a strategic frame of mind is critical to meeting goals, gaining competitive advantage, and ultimately ensuring sustainability. The Encyclopedia of Organizational Knowledge, Administration, and Technology is an inaugural five-volume publication that offers 193 completely new and previously unpublished articles authored by leading experts on the latest concepts, issues, challenges, innovations, and opportunities covering all aspects of modern organizations. Moreover, it is comprised of content that highlights major breakthroughs, discoveries, and authoritative research results as they pertain to all aspects of organizational growth and development including methodologies that can help companies thrive and analytical tools that assess an organization's internal health and performance. Insights are offered in key topics such as organizational structure, strategic leadership, information technology management, and business analytics, among others. The knowledge compiled in this publication is designed for entrepreneurs, managers, executives, investors, economic analysts, computer engineers, software programmers, human resource departments, and other industry professionals seeking to understand the latest tools to emerge from this field and who are looking to incorporate them in their practice. Additionally, academicians, researchers, and students in fields that include but are not limited to business, management science, organizational development, entrepreneurship, sociology, corporate psychology, computer science, and information technology will benefit from the research compiled within this publication.

World War II: The Definitive Encyclopedia and Document Collection [5 volumes] IGI Global

This one-volume Encyclopedia covers both the conceptual framework and history of translation. Organised alphabetically for ease of access, a team of experts from around the world has been gathered together to provide unique, new insights.

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933–1945: Volume III ABC-CLIO

Accounts of significant sites in Hungary, Vichy France, Italy, and other nations, part of the multi-volume reference praised as a "staggering achievement" (Jewish Daily Forward). This third volume in the monumental seven-volume encyclopedia, prepared by the Jack, Joseph, and Morton Mandel Center for Advanced Holocaust Studies at the United States Holocaust Memorial Museum, offers a comprehensive account of camps and ghettos in, or run by, Croatia, Hungary, Italy, Romania, Bulgaria, Slovakia, and Vichy France (including North Africa). Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes; and details of the ghetto's liquidation. Personal testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites—previously unknown or overlooked in the historiography of the Holocaust—make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe.

An Encyclopaedia of Gardening

The Grove Encyclopedia of Medieval Art and Architecture offers unparalleled coverage of all aspects of art and architecture from Medieval Western Europe, from the 6th century to the early 16th century. Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries on topics not previously covered, as well as fully updated and expanded entries and bibliographies, The Grove Encyclopedia of Medieval Art and Architecture offers students, researchers, and the general public a reliable, up-to-date, and convenient resource covering this field of major importance in the development of Western history and international art and architecture. The Encyclopedia offers scholarly material on Medieval art in intelligent, well-written, and informative articles, each of which is followed by a bibliography to support further research. These include a mixture of shorter, more factual articles and larger, multi-section articles tracing the development of the arts in major regions. There are articles on all subject areas in Medieval art including biographies of major artists, architects and patrons; countries, cities, and sites; cultures and styles (Anglo-Saxon art, Carolingian art, Coptic art, Early Christian art, Romanesque, Gothic, Insular art, Lombard art, Merovingian art, Ottonian art, and Viking art); ivories, books and illuminated manuscripts, metalwork, architecture, painting, tapestries, sculpture, mosaics, reliquaries, and more. Part of the acclaimed Grove Art family of print encyclopedias, The Grove Encyclopedia of Medieval Art and Architecture is lavishly

illustrated with more than 460 halftones and 170 color plates. The 6 volumes are organized into a cohesive A-Z format, with a comprehensive index.

The Catholic Encyclopedia

As a continuation of the older tradition of classical liberalism, libertarian thinking draws on a rich body of thought and scholarship. Contemporary libertarian scholars are continuing that tradition by making substantial contributions to such fields as philosophy, jurisprudence, economics, evolutionary psychology, political theory, and history, in both academia and politics. With more than 300 A-to-Z signed entries written by top scholars, The Encyclopedia of Libertarianism is purposed to be a useful compilation of and introduction to libertarian scholarship. The Encyclopedia starts with an introductory essay offering an extensive historical and thematic overview of key thinkers, events, and publications in the development of libertarian thought. The Reader's Guide groups content for researchers and students alike, allowing them to study libertarianism topically, biographically, and by public policy issues. Key Features Entries conclude with bibliographies and references for further reading and cross-references to related entries. Each entry provides an introduction to a topic or policy question relevant to libertarianism or a biography of a person who has had an impact on libertarianism. Editors take special care to ensure entries clearly explain libertarian approaches to issues, do not take sides on disputed matters or engage in polemics, and represent the views of all sides fairly and accurately.
