Construction Delay Claims Cambridge University Press

Contracts can be your first line of defense against delays. But they have to be drafted very carefully. *Construction Delay Claims* gives you an in-depth analysis of all the pertinent clauses and details what they can and can't do to minimize delays and avoid litigation. *Construction Delay Claims*, Fourth Edition, by Barry B. Bramble and Michael T. Callahan is written for everyone involved with delay and impact construction claims--the most

common form of disputes in the construction industry. You'll find that this resource presents the most thorough, detailed review of delay claims liability available, including a complete description of the entire process for filing and pursuing claims along with more than 1,950 cases and analyses. *Construction Delay Claims* gives you the information you need to determine your best course of action. The book presents detailed knowledge drawn from the authors' thirty-five years of experience in the industry. You'll learn how to anticipate delays and mitigate damages through the use of advanced planning and immediate responses by the parties involved. You'll also receive helpful instructions about the best use of construction schedules to avert delays, or to prove their impact if they do occur. *Construction Delay Claims* keeps you

completely up-to-date with the changes in the construction industry, and the construction litigation process. Coverage includes: Effective ways to challenge a claimant's use of the Total Cost Method of Calculation The effectiveness of "no damages for delay" clauses The use of ADR methods to resolve delay claims The meaning and implication of concurrent delays Cumulative impact effect of multiple change orders The impact and probability of delays in design-build, construction management, and multiple prime contracting Latest research into the effect and measurement of lost productivity The most recent assessments of how states are applying the Eichleay formula

The JCT standard forms of building contract require a thorough understanding of their procedural requirements, as well as their

legal implications. They require both the contractor and the architect, on behalf of the employer, to send a wide range of notices and letters if each party is to protect its legitimate interests. The main contract forms are also supported by complex sub-contract documentation. Therefore, it is not surprising that when this book of specimen letters, notices and forms was first published, it was widely welcomed by the construction industry. The book provides examples of documentation likely to be required for a contract under the following JCT forms: ? the Standard Form of Building Contract ? the Intermediate Form of Building Contract ? the Agreement for Minor

Building Works ? the Standard Form of Building Contract With Contractor's Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched. The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants, Construction and Regeneration Act 1996, and in particular, the new payment and adjudication provisions. For the first time it features documentation for use with the JCT design and build form.
