There is evident lineage between the concepts of teaching English as a foreign language (TEFL) and tourism, represented through evocative marketing material, the commoditisation of the TEFL product, teacher motivations and experiences. Yet, to date there has been no recognition of these links within industry or academia. This book introduces the concept of 'TEFL tourism', outlining the scale of the sector and the rapid commercialization of TEFL teaching across the world, locating it as an emerging form of niche tourism. The text outlines the organisation types and geographical locations, emphasizing the commodification of English language teaching. It also outlines the types of TEFL tourists, the complexities of international education, links with various tourism forms and sustainability considerations of the industry. The book will appeal to tourism academics and students, in particular those with interests in educational and volunteer tourism as well as sustainable tourism and commodification.

In *The Devil behind the Mirror*, Steven Gregory provides a compelling and intimate account of the impact that transnational processes associated with globalization are having on the lives and livelihoods of people in the Dominican Republic. Grounded in ethnographic fieldwork conducted in the adjacent towns of Boca Chica and Andr s, Gregory's study deftly demonstrates how transnational flows of capital, culture, and people are mediated by contextually specific power relations, politics, and history. He explores such topics as the informal economy, the making of a telenova, sex tourism, and racism and discrimination against Haitians, who occupy the lowest rung on the Dominican economic ladder. Innovative, beautifully written, and now updated with a new preface, *The Devil behind the Mirror* masterfully situates the analysis of global economic change in everyday lives.

"1960 DESTINATION ISRAEL," was written by the author for her children who dont know much about this period of her life. In 1960, Israel was not exactly a tourist destination. Instead the country was receiving a fascinating influx of Jewish immigrants from all over the world and Elsa, a "goy," was in the midst of them. The voyage to Israel was at the invitation of a Jewish scientist who had studied in Holland. Elsa van der Laaken found employment in Beer-Sheba and Jerusalem and stayed in Israel for 2 1/2 years. The result was a collection of handwritten journals embellished with photos and historical notes that eventually shaped this book. The authors writing challenge was to stay faithful to her younger self and her impressions of the State of Israel in its formative years. The story describes a series of events experienced by a young adult ready to grow up and leave home. To learn more about the author, as well as her WW II memoir, "A Point of Reference," go to www.vanderlaaken.com.

Immigration Practice guides readers through all aspects of immigration law in one volume, complete with over 3,000 footnote citations to the wide range of statutes, regulations, court and administrative cases, policy memos, operations instructions, agency interpretive letters, and internet sites that a lawyer needs for complete understanding of a particular problem. No other source merges the practical with commentary and analysis so helpfully. The book explains in understandable language and meaningful and dependable detail the substantive issues and the practical procedures a lawyer needs to handle a specific immigration matter, complete with checklists of forms, supporting evidence, and other strategies needed for application/petition packages. The book has unparalleled coherence, integration and consistency. * Liberally cross references to other sections in the book where related topics are discussed (because so many topics are interrelated). * Line-by-line instructions on how to complete the most commonly used forms to avoid embarrassing mistakes. * Lists the contents of packages to file with government agencies: forms and fees, detailed support letters, and other supporting evidence. * Explanations of potentially applicable visa options organized according to the attributes of the foreign national (and the employer), rather than classifications in alphabetical order, so that practitioners can make sense of options in light of the client in the office. * Comparisons and charts of attributes and procedures of such topics as nonimmigrant visa classifications, procedures to permanent residence, and standards of "extreme" hardship. * Citations throughout the book, and collection in the extensive CD-ROM Appendix, to primary source materials and the most useful Internet site URLs with explanation of the increasingly helpful free databases and tools available through each one. • Internet Links: Constantly increased and updated links to government web sites containing current contact information, forms, primary law sources of all types, case status information, and processing and substantive guides--all referenced by pinpoint citations in the text. See Chapter 5 explaining sources of law, Appendix C and D-1 showing web links, and the CD-ROM in the back cover providing one-click access! This book focuses on the importance of technology in tourism. This also highlights, in a comprehensive manner, specific technologies that are impacting the tourism industry in Asia, as well as the constraints the industry is facing. The contents of this book deal with distinct topics, such as mobile computing, new product designs, innovative technology usages in tourism promotion, technology-driven sustainable tourism development, location-based apps, mobility, accessibility and so on. A good number of research studies have conducted outlining the contributions and importance of technologies in tourism, in general. However, the tourism industry of Asia so far has attracted very few researchers. Some contributions have been made but not sufficient. Considering the ongoing trend of technology application in the tourism industry in Asia, very few research attempts have been made aiming to explore diverse aspects. Tourism is expanding enormously across the world. which actually creates more demands for effective technologies. This book will be a reading companion, especially for tourism students in higher academic institutions. This book will also be read by the relevant policy planners and industry professionals. Apart from them, this book will be appreciated by expatriate researchers and researchers having keen interest in the Asian tourism industry.
