*Federal Tax Research CCH*

The CCH Federal Tax Course approaches the study of taxation from the perspective of the student who will become a business person faced with business decisions that are inevitably affected by tax considerations. This perspective leads to a very different coverage in this textbook -- coverage that is useful for accounting, finance and general business majors. The new edition focuses on the central concepts that build our tax framework and avoids small exceptions and details to ensure that the student can confidently master the critical underpinnings of federal taxation. It abandons minutia that not only affects a very small number of taxpayers, but also tends to change often. In this way, there are no wasted motions and students gain a stronger, more solid understanding of federal tax principles.

Federal Taxation Basic Principles is a popular first-level tax course textbook that provides a clear concise explanation of the fundamental tax concepts covering both tax planning and compliance. Basic Principles strikes a perfect balance between the AICPA model curriculum (focusing on business tax) and the demands favored by most teachers (covering the fundamentals and building toward the complex). The book is also a favorite in distant learning, because of its clarity and direct approach--and it is also used in special programs like CFP courses. Basic Principles covers the core tax concepts and principles, including individual taxation, gross income, deductions, credits, property transactions, accounting methods and periods, deferred compensation, retirement plans, partnerships, corporations, trusts and estates, and tax planning for individuals. It is written by an editorial board of tax teachers that includes members who are currently active in the American Accounting Association, American Taxation Association, the National Tax Challenge, CFP education, CPE lectures, CPA preparation and
