In this revelatory, authoritative portrait of Donald J. Trump and the toxic family that made him, Mary L. Trump, a trained clinical psychologist and Donald's only niece, shines a bright light on the dark history of their family in order to explain how her uncle became the man who now threatens the world's health, economic security, and social fabric. Mary Trump spent much of her childhood in her grandparents' large, imposing house in the heart of Queens, New York, where Donald and his four siblings grew up. She describes a nightmare of traumas, destructive relationships, and a tragic combination of neglect and abuse. She explains how specific events and general family patterns created the damaged man who currently occupies the Oval Office, including the strange and harmful relationship between Fred Trump and his two oldest sons, Fred Jr. and Donald. A firsthand witness to countless holiday meals and interactions, Mary brings an incisive wit and unexpected humor to sometimes grim, often confounding family events. She recounts in unsparing detail everything from her uncle Donald's place in the family spotlight and Ivana's penchant for regifting to her grandmother's frequent injuries and illnesses and the appalling way Donald, Fred Trump's favorite son, dismissed and derided him when he began to succumb to Alzheimer's. Numerous pundits, armchair psychologists, and journalists have sought to parse Donald J. Trump's lethal flaws. Mary L. Trump has the education, insight, and intimate familiarity needed to reveal what makes Donald, and the rest of her clan, tick. She alone can recount this fascinating, unnerving saga, not just because of her insider's perspective but also because she is the only Trump willing to tell the truth about one of the world's most powerful and dysfunctional families.

Civilization and Its Discontents is considered Freud's most brilliant work. In it he states his views on the broad question of man's place in the world. It has been praised, dissected, lambasted, interpreted, and reinterpreted. Originally published in 1930, it seeks to answer several questions fundamental to human society and its organization—What influences led to the creation of civilization? Why and how did it come to be? What determines civilization's trajectory? This process, argues Freud, is an inherent quality of civilization that instills perpetual feelings of discontent in its citizens. Freud's theme is that what works for civilization doesn't necessarily work for man. Man, by nature aggressive and egotistical, seeks self-satisfaction.

"An impressively researched, documented, and readable biography" of a woman who played a key role in the history of psychology (Library Journal, starred review). Who was Sabina Spielrein? She is probably best known for her notorious affair with Carl Jung, which was dramatized in the film *A Dangerous Method*, starring Keira Knightley. Yet her life story is much more compelling than just one famous relationship. Spielrein overcame family and psychological abuse to become a profoundly original thinker in her own right. *Sex vs. Survival* is the first biography to put her life and ideas at the center of the story and examine Spielrein's key role in the development of psychoanalysis. Drawing on fresh research into Spielrein's diaries, papers, and correspondence, John Launer shows how Spielrein's overlooked ideas—rejected by Freud and Jung but substantially vindicated by later developments in psychology and evolutionary biology—may represent the last and most important stage in the rediscovery of an

extraordinary life. "An invaluable resource for understanding Spielrein's significance, her progressive thinking, and her groundbreaking contributions to the history of psychoanalysis." —Publishers Weekly "By the end of Launer's account, there's no mistaking what the founding fathers of analysis did to this particular founding mother—and probably to many other women. At least this biography offers Spielrein some retrospective justice." —Jewish Book World

Sex vs. Survival Little, Brown

This comparative study of the basic concepts of Freud and Jung is designed to give a comprehensive understanding of Jung's work. The author traces the development of Jung from his initial fascination with Freud's ideas to his gradual liberation from these powerful concepts and the final breakthrough into his own unique theories of man and the cosmos. Jung's fundamental view—and that the psyche is a totality of conscious and unconscious elements that seeks to realize itself—stands in sharp contrast to Freud's early view of the psyche as primarily the effect of prior causes. Hence Freud tends to stress the pathological, whereas Jung looks to the creative and self-transcending aspects of human nature. The final section of the book describes the development of Jung's ideas after the death of Freud, particularly his concept of the archetypes.

The recent upsurge of fresh historical research concerning the early years of psychoanalysis has left many professional readers struggling to keep abreast of the latest findings and more than a little perplexed as to what it all adds up to. *Freud and the History of Psychoanalysis* addresses this state of affairs by providing in a single volume original essays by fourteen leading historians of

psychoanalysis and philosophers of science; it is the most impressive collection of contemporary Freud scholarship yet to appear in print. The contributions span virtually the entirety of Freud's career, from his coming of professional age in Charcot's Paris to his clandestine rendezvous in the Harz Mountains with members of "The Committee" more than 30 years later. The collection also encompasses a host of conceptual issues, ranging from Freud's theory of dream formation to the impact of his conflicting masculine and feminine identifications on his attitude toward treatment. Beyond providing an invaluable overview of Freud's life and times, the volume will challenge readers to deeper reflection on a host of critical episodes and issues that have shaped the special character of the psychoanalytic endeavor. Indispensable as a reference work, Freud and the History of Psychoanalysis constitutes a rewarding and accessible introduction to rigorous historical research. It will be prized by all who care deeply about the past and future of psychoanalytic theory.

American Psychiatric Pub

In this shocking exposé, investigative researcher and author S. K. Bain reveals the truth behind the mass-murdering psychopaths responsible for the events of September 11, 2001, and reconstructs the occult-driven script for this Global Luciferian MegaRitual. As Bain uncovers, the framework for the entire event was a psychological warfare campaign built upon a deadly foundation of black magick and high technology. The book details the sinister nature of the defining event of the 21st century and explains the vast scope of the machinery of oppression that has been constructed around us.

About the author The Reverend Doctor Mark Germine was born December 18, 1954. He has a daughter, Laura, and a grandson, Raphael. He is a scientist and physician, who has studied all of the world's major religions and religious traditions. He has published scores of professional papers in the diverse areas of medicine, psychology, psychiatry, geology, materials science, mineralogy, philosophy, and theology. In theology he has written and published on the merging of all major religions and science. He earned his Master's degree in geology at Rutgers University in 1981, and his Doctor of Medicine degree in 1988 at the University of Medicine and Dentistry of New Jersey in 1988, after a career in geology. He completed his residency in psychiatry at Yale University School of Medicine in 1992. In 1995 he received the Annual Master Award of the American Psychological Foundation for the understanding of the human mind, and is the only physician to ever have won this award. Since his completion of his residency at Yale University School of Medicine he has practiced clinical psychiatry. He entered the ministry in 1997 in the Unitarian Church, and began preaching the Book of Eli in 1999. He is now living in Pennsylvania, and about to open the first Church of Eli as pastor.

Sex Versus Survival Vintage

"Has all the elements of a juicy novel . . . riveting. . . .

Reudite and elegant." —Newsday NOW A MAJOR MOTION PICTURE, Directed by Dabid Cronenberg and STARRING KEIRA KNIGHTLY, VIGGO MORENSEN, MICHAEL FASSBENDER, and VINCENT CASSEL In 1907, Sigmund Freud and Carl Jung began what promised to be both a momentous collaboration and the deepest friendship of each man's life. Six years later they were bitter antagonists, locked in a savage struggle that was as much personal and emotional as it was theoretical and professional. Between them stood a young woman named Sabina Spielrein, who had been both patient and lover to Jung and colleague and confidante to Freud before going on to become an innovative psychoanalyst herself. With the narrative power and emotional impact of great tragedy, *A Dangerous Method* is impossible to put down.

The Most Dangerous Game Princeton University Press

The tale of two American teenagers recruited as killers for

a Mexican cartel, and the Mexican-American detective who realizes the War on Drugs is unstoppable. "A hell of a story...undeniably gripping." (The New York Times) In this astonishing story, journalist Dan Slater recounts the unforgettable odyssey of Gabriel Cardona. At first glance, Gabriel is the poster-boy American teenager: athletic, bright, handsome, and charismatic. But the ghettos of Laredo, Texas—his border town—are full of smugglers and gangsters and patrolled by one of the largest law-enforcement complexes in the world. It isn't long before Gabriel abandons his promising future for the allure of juvenile crime, which leads him across the river to Mexico's most dangerous drug cartel: Los Zetas. Friends from his childhood join him and eventually they catch the eye of the cartel's leadership. As the cartel wars spill over the border, Gabriel and his crew are sent to the States to work. But in Texas, the teen hit men encounter a Mexican-born homicide detective determined to keep cartel violence out of his adopted country. Detective Robert Garcia's pursuit of the boys puts him face-to-face with the urgent consequences and new security threats of a drug war he sees as unwinnable. In *Wolf Boys*, Slater takes readers on a harrowing, often brutal journey into the heart of the Mexican drug trade. Ultimately though, *Wolf Boys* is the intimate story of the lobos: teens turned into pawns for the cartels. A nonfiction thriller, it reads with the emotional clarity of a great novel, yet offers its revelations through extraordinary reporting.

A Secret Symmetry Korsgaard Publishing

Essays on small art films and big-budget blockbusters, including *Antonia's Line*, *American Beauty*, *Schindler's List*, and *The Passion of the Christ*, that view films as life lessons, enlarging our sense of human possibilities. For Alan Stone, a one-time Freudian analyst and former president of the American Psychiatric Society, movies are the great modern, democratic medium for exploring our individual and collective lives. They provide occasions for reflecting on what he calls "the moral adventure of life": the choices people make—beyond the limits of their character and circumstances—in response to life's challenges. The quality of these choices is, for him, the measure of a life well lived. In this collection of his film essays, Stone reads films as life texts. He is engaged more by their ideas than their visual presentation,

more by their power to move us than by their commercial success. Stone writes about both art films and big-budget Hollywood blockbusters. And he commands an extraordinary range of historical, literary, cultural, and scientific reference that reflects his impressive personal history: professor of law and medicine, football player at Harvard in the late 1940s, director of medical training at McLean Hospital, and advisor to Attorney General Janet Reno on behavioral science. In the end, Stone's enthusiasms run particularly to films that embrace the sheer complexity of life, and in doing so enlarge our sense of human possibilities: in *Antonia's Line*, he sees an emotionally vivid picture of a world beyond patriarchy; in *Thirteen Conversations about One Thing*, the power of sheer contingency in human life; and in *American Beauty*, how beauty in ordinary experience draws us outside ourselves, and how beauty and justice are distinct goods, with no intrinsic connection. Other films discussed in these essays (written between 1993 and 2006 for *Boston Review*) include *Un Coeur en Hiver*, *Schindler's List*, *Pulp Fiction*, *Thirteen Days*, the 1997 version of *Lolita*, *The Battle of Algiers*, *The Passion of the Christ*, *Persuasion*, and *Water*.

Sabina Spielrein: Black Belt Communications

Indonesian Ferry Sinks. Peruvian Bus Plunges Off Cliff. African Train Attacked by Mobs. Whenever he picked up the newspaper, Carl Hoffman noticed those short news bulletins, which seemed about as far from the idea of tourism, travel as the pursuit of pleasure, as it was possible to get. So off he went, spending six months circumnavigating the globe on the world's worst conveyances: the statistically most dangerous airlines, the most crowded and dangerous ferries, the slowest buses, and the most rickety trains. *The Lunatic Express* takes us into the heart of the world, to some of its most teeming cities and remotest places: from Havana to Bogotá on the perilous Cuban Airways. Lima to the Amazon on crowded night buses where the road is a washed-out track. Across Indonesia and Bangladesh by overcrowded ferries that kill 1,000 passengers a year. On commuter trains in Mumbai so crowded that dozens perish daily, across Afghanistan as the Taliban closes in, and, scariest of all, Los Angeles to Washington, D.C., by Greyhound. *The Lunatic Express* is the story of traveling with seatmates and deckmates who have left home without American Express cards on conveyances that don't take Visa, and seldom take you anywhere you'd want to go. But it's also the story of traveling as it used to be—a sometimes harrowing trial, of finding adventure in a modern, rapidly urbanizing world

and the generosity of poor strangers, from ear cleaners to urban bus drivers to itinerant roughnecks, who make up most of the world's population. More than just an adventure story, *The Lunatic Express* is a funny, harrowing and insightful look at the world as it is, a planet full of hundreds of millions of people, mostly poor, on the move and seeking their fortunes.

A Dangerous Method HarperCollins UK

In seventy-eight essays, seven prominent social critics question everything. This thought-provoking and empowering, even "criminal," anthology is a major challenge to the establishment, the ruling oligarchy, or whatever we choose to call the deep state, central planners, and mega-criminals who set and control global narratives. Readers are presented with an array of "forbidden" subjects and in-depth analyses that pull the rug underneath the elite and expose the lies that constitute the matrix.

Civilization and Its Discontents MIT Press

Vienna, 1913. It is a fine day in August when Lysander Rief, a young English actor, walks through the city to his first appointment with the eminent psychiatrist Dr Bensimon. Sitting in the waiting room he is anxiously pondering the particularly intimate nature of his neurosis when a young woman enters. She is clearly in distress, but Lysander is immediately drawn to her strange, hazel eyes and her unusual, intense beauty. Her name is Hettie

Bull. They begin a passionate love affair and life in Vienna becomes tinged with a powerful frisson of excitement for Lysander. He meets Sigmund Freud in a café, begins to write a journal, enjoys secret trysts with Hettie and appears - miraculously - to have been cured. Back in London, 1914. War is imminent, and events in Vienna have caught up with Lysander in the most damaging way. Unable to live an ordinary life, he is plunged into the dangerous theatre of wartime intelligence - a world of sex, scandal and spies, where lines of truth and deception blur with every waking day. Lysander must now discover the key to a secret code which is threatening Britain's safety, and use all his skills to keep the murky world of suspicion and betrayal from invading every corner of his life. Moving from Vienna to London's West End, from the battlefields of France to hotel rooms in Geneva, *Waiting for Sunrise* is a feverish and mesmerising journey into the human psyche, a beautifully observed portrait of wartime Europe, a plot-twisting thriller and a literary tour de force from the bestselling author of *Any Human Heart*, *Restless* and *Ordinary Thunderstorms*.

Waiting for Sunrise Parent-Wise Solutions, Incorporated
A sensational, eye-opening account of Emma Jung's complex marriage to Carl Gustav Jung and the hitherto unknown role she played in the early years of the psychoanalytic movement. Clever and ambitious, Emma Jung yearned to study the natural sciences at the University of Zurich. But the strict rules of proper Swiss society at the beginning of the twentieth century dictated that a woman of Emma's stature—one of the richest heiresses in Switzerland—travel to Paris to "finish" her education, to prepare for marriage to a suitable man. Engaged to the son of one of her father's wealthy business colleagues, Emma's conventional and predictable life was upended when she met Carl Jung. The son of a penniless pastor working as an assistant physician in an insane asylum, Jung dazzled Emma with his intelligence, confidence, and good looks. More important, he offered her freedom from the confines of a traditional haute-bourgeois life. But Emma did not know that Jung's charisma masked a dark interior—fostered by a strange, isolated childhood and the sexual abuse he'd suffered as a boy—as well as a compulsive philandering that would threaten their marriage. Using letters, family interviews, and rich, never-before-published archival material, Catrine Clay illuminates the Jungs' unorthodox marriage and explores how it shaped—and

was shaped by—the scandalous new movement of psychoanalysis. Most important, Clay reveals how Carl Jung could never have achieved what he did without Emma supporting him through his private torments. The Emma that emerges in the pages of *Labyrinths* is a strong, brilliant woman, who, with her husband's encouragement, becomes a successful analyst in her own right.

Freud and the History of Psychoanalysis John Wiley & Sons

The play *Mistress of Novices* recounts the story of Bernadette and the miraculous vision she claims to have been granted, and also the conflict that this assertion causes in her relationship with the sceptical and strongwilled Mother of Novices. Set mainly in the convent of St Gildard, Nevers, it follows the life of Bernadette until its agonized end, moves to Lourdes for a final scene when the Mistress of Novices is an aged woman and closes with the announcement of Bernadette's canonization.¹⁴

women, 3 men

Most Dangerous Book in the World SUNY Press

Explores the life and work of psychoanalyst Sabina Spielrein through a feminist and mytho-poetic lens. Long stigmatized as Carl Jung's hysterical mistress, Sabina Spielrein (1885–1942) was in fact a key figure in the history of psychoanalytic thought. Born into a Russian Jewish family, she was institutionalized at nineteen in Zurich and became Jung's patient. Spielrein went on to earn a doctorate in psychiatry, practiced for over thirty years, and published numerous papers, until her untimely death in the Holocaust. She developed innovative theories of female sexuality, child development, mythic archetypes in the human unconscious, and the death instinct. In *Sabina Spielrein*, Angela M. Sells examines Spielrein's life and work from a feminist and mytho-poetic perspective. Drawing on newly translated diaries, papers, and correspondence with Jung and Sigmund Freud, Sells challenges the suppression of Spielrein's ideas and shows her to be a significant thinker in her own right. "This book is a major, perhaps a definitive, contribution to the literature. Angela Sells documents both the demonization of a great psychoanalytic theorist—mainly because she was a woman and worse still, was once Carl Jung's patient. The book's greatest strength is its power to enlighten and inform and in so doing, to arouse indignation and amazement at Spielrein's brilliance and tenacity." — Phyllis Chesler, author of

Women and Madness "This is a pathbreaking piece of research that not only begins to rehabilitate the reputation of a woman patient of Jung's, but also suggests that Spielrein was an important contributor in her own right to the beginnings of psychoanalysis." — Carol P. Christ, coauthor of *Goddess and God in the World: Conversations in Embodied Theology*
