The twenty papers included  
in this volume were

presented at an international symposium held in Baltimore and Washington in May, 1986. Planned to coincide with the exhibition of the two largest treasures of Early Byzantine church silver to survive from antiquity, the Kaper Koraon Treasure (found in Syria) and the Sion Treasure (found in Turkey), the symposium sought to place these and other church treasures in their broader contexts examining them from the point of view of economy, history, society, and manufacture. While a number of the papers focus on specific aspects of these two treasures--including six articles devoted to the Sion Treasure--others examine more general questions regarding silver mining, the manufacture of silver vessels, the state control of silver in Byzantium and the Sasanian Empire, the

economic and cultural role of silver objects, and the financial power of the institutional church through its vast holdings of silver plate. The precedent offered by pagan cult treasures is also examined. To ensure a broad interdisciplinary approach, the eighteen authors are authorities in the fields of government administration, economic history, cultural history, art history, archaeology, epigraphy, science and conservation.

highlights the island ' s participation in Roman artistic and cultural production. Each lamp is illustrated, and the accompanying text addresses typology, decoration, and makers ' marks on each of these objects that provide new insights into art, craft, and trade in the ancient Mediterranean.

The Twenty One Nails is the companion teaching to the Six Lamps. It is designed to "nail" the realizations of twenty one perspectives on the natural state, such as cutting through delusion and purifying mistakes of practice; establishing the path of dharmadhatu exhaustion; recognizing awakened awareness, the universal ground, the three-fold embodiment of enlightenment, the pure realms of the sacred mandala as right here, and the five primordial wisdoms; and developing the full measure of

stable enlightenment. The translation includes the root text teachings transmitted from Tapihritsa to sNang bzher Lod po, as well as a detailed explanatory auto-commentary by sNang bzher Lod po.

provides a clear translation of highly secret precepts on Dzogchen practice unlike anything published. The Instructions on the Six Lamps is a profound and important work from the Bön Dzogchen tradition and is one of the root texts of the Zhangzhung Nyengyü (Oral Transmission of Zhangzhung) series of orally transmitted teachings. Considered to be the central work of the inner cycle of these teachings, it expertly details the principles of the natural state

and its visionary marvels. The root text describes highly secret precepts of Dzogchen (Great Perfection) practice—the teachings of Trekchö and Thögel—as revealed by Tapihritsa to Gyerpung Nangzher Löpo. The teachings in this text represent oral instructions transmitted by a single master to a single disciple in the mode known as “single transmission.” It is through such a practice that one can see the clear light of one’s own mind before

achieving complete buddhahood. In this respect, the text contains a complete teaching of
