This book addresses a specific subset of nonprofits that are chartered with a single mission: decrease the burden of government. Designing and engaging nonprofits to lessen the burden of government requires a specific description and acknowledgement of the burden to be lessened, and these may include the provision of infrastructure, the relief of debt, or the provision of general public services that are not motivated by charity. It also requires the assignment of specific operating powers to the nonprofit including the power of eminent domain. This book explores these and other related topics including the avoidance of resource dependence on government when attempting to reduce its burden. The book is addressed to the policy makers and rule makers who design policies that affect the ability of the nonprofit to effectively lessen the burden of government. It is also addressed to public administrators in search of innovative ways of implementing these policies consistent with the laws, and to the creative nonprofit managers who are charged with carrying out the mission often in collaboration with the government or other entities. To the advanced student in all related fields, the author offers not only material for discussion, but enables discovery of what is possible by giving key examples of organizations meeting the terms and objective of lessening a significant burden of government.

World War I fighter pilot William C. Lambert of Ironton, Ohio, flew for the British Royal Air Force in 1918. When he left the Western Front in August, he had 22 victories--then the most achieved by any American pilot. (By the time of the Armistice in November, his total was surpassed by Eddie Rickenbacker, the former race car driver from Columbus, Ohio, with 26 victories.) Lambert survived the war and lived into his eighties, unwilling until late in life to seek public acclaim for his war record. This book examines his life and the wartime experiences that defined it.

THE HISTORY OF THE DECATUR, ILLINOIS POLICE DEPARTMENT: VOLUME 4 Princeton University Press  
Larry Broadfellow is a world-renowned televangelist whose charisma has built The Church of Gods Love into a multi-million-dollar empire. When Larry parades across the stage before the camera, exhorting his devotees to follow him on the glory path to salvation, they assume he knows the way. In fact, he is floundering, doubting the very words that pour effortlessly from his mouth. Though Larry is the star of the church, Reverend Patrick Brannigan and his wife, Gillian, are its foundation. Larry lost his family to a fire when he was just five years old. The Brannigans have become his surrogate parents, and Larry is in love with their daughter, Fiona. Gillian Brannigans pending death prompts her to write Larry a letter saying she suspects that his performances are less than genuine. She asks Larry if he is a charlatan. Already insecure and shocked that Gillian would suspect that of him, Larry is plunged into a spiral of self-doubt and depression. Thousands upon thousands of times he has preached the significance of sacrifice, devotion and trust in God, but he must now learn what those words truly mean.

This monograph is dedicated to the lives and scientific achievements of the physiology pioneers Warren and Margaret Lewis. Their story spans the first half of the 20th century, from their respective educations through early, independent research to joint research from 1910 to 1955. Among the numerous developments they initiated, were the discovery of pinocytosis, the beginnings of video microscopy and the development of the first mammalian tissue cultures. Their research expanded the theoretical knowledge of cell structure and function. On a more practical level, they advanced many laboratory methods, like the first recipes for culture media. The text is beautifully enriched with personal anecdotes about their lives. This is the story of two

scientific pioneers in the context of early 20th century biology and physiology. It is an inspiration for senior and aspiring researchers.

A dramatic, playful, brutal, sweeping, and always entertaining reimagining of New York City history, presaging today's political tyranny. "A postmodern masterwork that outdoes Pynchon in eccentricity--and electricity, with all its dazzling prose." --Kirkus Reviews, Starred review "Mr. Nersesian's work is a tale of extremes. The finished product weighs more than 4 pounds. If he stacked all his manuscript pages since he began the book back in 1993 it would stand 6 feet tall, a shade taller than himself, Mr. Nersesian says...Main characters include a fictionalized Robert Moses, the powerful public official who reshaped New York City and its environs, and his brother Paul, an electrical engineer. A difficult relationship between the two has dire consequences. There are also pop-culture favorites from the period, including psychedelic evangelist Timothy Leary; urbanologist Jane Jacobs, and poet Allen Ginsberg. All are intended to show readers how the value of culture erodes in an isolated world." --Wall Street Journal "Arthur Nersesian is the Bard of Lower East Side Manhattan...He knows every street corner, every bar, store, book stall, and even the famous 100-year-old Russian shvitz on 10th Street. Nobody does it better. Not Don DeLillo, not Richard Price, and not William Burroughs." --On the Seawall "A sprawling, engrossing Pentateuch of an alternate New York City...Nersesian's binge-worthy odyssey is a singularly wild ride." --Publishers Weekly "Nersesian is one of my favorite New York authors; this tome is one to lose yourself in." --Bob Odenkirk, actor, Breaking Bad After a domestic terrorist unleashes a dirty bomb in Manhattan in 1970, making the borough uninhabitable, FBI agent Uli Sarkisian finds himself in a world that is suddenly unrecognizable as the United States is faced with its greatest immigration crisis ever: finding housing for millions of its own citizens. The federal government hastily retrofits an abandoned military installation in the Nevada desert, vast in size. Despite the government's best intentions, as the military pulls out of "Rescue City," the residents are increasingly left to their own devices, and tribal warfare fuses with democracy, forming a frightening evolution of the two-party system: the gangocracy. Years after the Manhattan cleanup was supposed to have been finished, Uli travels through this bizarre new New York City, where he is forced to reckon with his past, while desperately trying to get out alive. The Five Books of (Robert) Moses alternates between the outrageous present of Rescue City and earlier in the twentieth century, detailing the events leading up to the destruction of Manhattan. We simultaneously follow legendary urban planner Robert Moses through his early years and are introduced to his equally ambitious older brother Paul, a brilliant electrical engineer whose jealousy toward Robert and anger at the devastation caused by the man's "urban renewal" projects lead to a dire outcome. Arthur Nersesian's most important work to date examines the political chaos of today's world through the lens of the past. Fictional versions of real historical figures populate the pages, from major politicians and downtown drag queens to notorious revolutionaries and obscure poets.

Nonprofits as Policy Solutions to the Burden of Government Penn State Press

A cult figure among loyalists, despised and feared by nationalists, Billy 'King Rat' Wright is reputed to have been involved in a number of sectarian murders before he himself was shot dead by republican gunmen inside the Maze Prison in 1997. Wright became involved with loyalist paramilitaries at the age of 16, and in the early 1990s he emerged as the UVF commander in the Mid-Ulster area. The Billy Boy documents Wright's role in the Drumcree dispute of 1995-96 and his split from the UVF, recounting how he ignored both a death threat and an order to leave Northern Ireland, only to remain in Portadown and form the Loyalist Volunteer Force. It covers Wright's trial and subsequent imprisonment for a crime it has been claimed was set up by the State; recounts the circumstances of his killing inside a top-security prison; and investigates the allegations of State collusion in Wright's death. Terrifically gripping and often disturbing, The Billy Boy is an exhaustive account of a notorious figure of the Troubles, whose life and death were surrounded by controversy and political debate.

A charming Christmas entry in Patrick Taylor's beloved internationally bestselling Irish Country series, *An Irish Country Yuletide*. December 1965. 'Tis the season once again in the cozy Irish village of Ballybucklebo, which means that Doctor Fingal Flahertie O'Reilly, his young colleague Barry Laverty, and their assorted friends, neighbors, and patients are enjoying all their favorite holiday traditions: caroling, trimming the tree, finding the perfect gifts for their near and dear ones, and anticipating a proper Yuletide feast complete with roast turkey and chestnut stuffing. There's even the promise of snow in the air, raising the prospect of a white Christmas. Not that trouble has entirely taken a holiday as the season brings its fair share of challenges as well, including a black-sheep brother hoping to reconcile with his estranged family before it's too late, a worrisome outbreak of chickenpox, and a sick little girl whose faith in Christmas is in danger of being crushed in the worst way. As roaring fireplaces combat the brisk December chill, it's up to O'Reilly to play Santa, both literally and figuratively, to make sure that Ballybucklebo has a Christmas it will never forget! Bonus: This heartwarming Yuletide tale also includes several mouth-watering recipes, straight from an Irish country kitchen. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

By the time Amelia Hall died suddenly in December 1984 she had become one of Canada's most respected and well-loved actresses. In this book she has left an incomparable record of her early years in the professional theatre in Canada. In particular, these memoirs chronicle the history of the Canadian Repertory Theatre of Ottawa, one of the first professional repertory theatres in Canada. Under Amelia Hall's direction in the late forties and early fifties, the CRT gave a start to the careers of such notable Canadian actors as Christopher Plummer, Eric House, William Hutt, Ted Follows and William Shatner. In these days of long-running corporate subsidized extravaganzas, it is instructive to read of the struggles and accomplishments of these pioneers of theatre in Canada, performing weekly repertory on a shoestring budget, with few facilities and minuscule salaries. Yet it was these enthusiasts who provided the basis for the flowering of the Canadian theatrical scene in the 1960s and 1970s. It is appropriate that these memoirs should culminate in Amelia Hall's portrayal of the Lady Anne in *Richard III* opposite Alec Guinness at the first Stratford Festival in 1953, making her the first Canadian and the first woman to speak on the Stratford stage. This book is lavishly illustrated with photographs from Amelia Hall's personal collection, now housed at the National Archives of Canada.

In one minute, delivering a not guilty verdict at the end of the trial for a disturbing murder of a child, Matthew Rice's life begins to unravel. The very structures his life is built upon start to collapse. Matthew retreats to Quarry Island in Georgian Bay, where he loses his wallet in a boating mishap. Among the pieces of identification he needs to replace is his birth certificate, but he's informed it's not on file. His birth certificate was a forgery. Not only have the foundations of his life given way, his very identity is shattered. Matthew learns that the woman who raised him was his father's second wife, and that his real mother died when he was a baby. What began as a search for a replacement for his birth certificate becomes a search for a woman who was a trailblazing journalist. His search takes him on a journey to Sydney, Australia, Boston, and Dublin; it results in the possession of the journals his mother kept up to her dying days in 1952. These entries are a window into a fascinating woman and a distant time not so different from our own. Still unsure of his place in a world that has changed in ways he has difficulty completely understanding, he returns to Quarry Island in Georgian Bay, where he stocks up on books and a case of good Scotch to sit out the end of his world as he knew it. But fate has more in store for Matthew than he can understand.
