During childhood, we are unaware of the power we have to change someone's life. That sometimes, we as children need to take matters into our own hands to save someone we love. On January 18, 1976, I saved two people. I saved my mother (an alcoholic) and I saved myself. A few weeks before that night, a guardian angel gave me a glimpse into how our lives could be if she would just stop drinking. From the age of five until the age of ten, our roles were reversed. I was the adult and she was the child and after that night, the tides began to turn and our new relationship had begun.

Using only the very elementary framework of finite probability spaces, this book treats a number of topics in the modern theory of stochastic processes. This is made possible by using a small amount of Abraham Robinson's nonstandard analysis and not attempting to convert the results into conventional form.

Will, a recovering heroin addict-turned-counselor for whom truth is a championed element to recovery, has a dark secret -- shared with no one outside of his anonymous AA meetings. Over twenty years ago, after an ultimatum from his pregnant ex-wife, Will was forced to assume a new identity and to fake his own death to get out from under his dealer and user-friends once and for all. Now Will is counseling Thea, a young woman who has been diagnosed with a pathological addiction to creating fake social media identities, and who founded a start-up company ("Alibis") that created false internet identities for clients, many with suspect pasts. Thea's addiction has landed her in rehab as a condition of her parole -- after a plea bargain cut short a court case that would have put both Thea and Alibis on trial for a very high-profile crime. As Will works with Thea, the truth is put into motion on a collision course. Both Will's, and his young client's, secrets start to unravel ... and reveal, at long last, the truth about Thea.

"In this outstanding memoir, chef and restaurateur Matsuhisa...shares lessons in humility, gratitude, and empathy that will stick with readers long after they've finished the final chapter." —Publishers Weekly (starred review) "Inspiration by example" (Associated Press) from the acclaimed celebrity chef and international restaurateur, Nobu, as he divulges both his dramatic life story and reflects on the philosophy and passion that has made him one of the world's most widely respected Japanese fusion culinary artists. As one of the world's most widely acclaimed restaurateurs, Nobu's influence on food and hospitality can be found at the highest levels of haute-cuisine to the food trucks you frequent during the work week—this is the Nobu that the public knows. But now, we are finally introduced to the private Nobu: the man who failed three times before starting the restaurant that would grow into an empire; the man who credits the love and support of his family as the only thing keeping him from committing suicide when his first restaurant burned down; and the man who values the busboy who makes sure each glass is crystal clear as highly as the chef who slices the fish for Omakase perfectly. What makes Nobu special, and what made him famous, is the spirit of what exists on these pages. He has the traditional Japanese perspective that there is great pride to be found in every element of doing a job well—no matter how humble that job is. Furthermore, he shows us repeatedly that success is as much about perseverance in the face of adversity as it is about innate talent. Not just for serious foodies, this "insightful peek into the mind of one of the world's most successful restaurateurs" (Library Journal) is perfect for fans of Marie Kondo's *The Life-Changing Magic of Tidying Up* and Danny Meyer's *Setting the Table*. Nobu's writing does what he does best—it marries the philosophies of East and West to create something entirely new and remarkable.

One of Real Simple's Best Books of 2019 "I loved this book. . . . Funny, heartbreaking and clever with a mystery at its heart." —Jojo Moyes "With an eye as keen for human idiosyncrasies as Miranda July's, and a sense of humor as bright and surprising as Maria Semple's, this is a novel of pure velocity." —Publishers Weekly (starred review) Twenty years ago, Abigail Sorenson's brother Robert went missing one day before her sixteenth birthday, never to be seen again. That same year, she began receiving scattered chapters in the mail of a self-help manual, the Guidebook, whose anonymous author promised to

make her life soar to heights beyond her wildest dreams. The Guidebook's missives have remained a constant in Abi's life—a befuddling yet oddly comforting voice through her family's grief over her brother's disappearance, a move across continents, the devastating dissolution of her marriage, and the new beginning as a single mother and café owner in Sydney. Now, two decades after receiving those first pages, Abi is invited to an all-expenses paid weekend retreat to learn "the truth" about the Guidebook. It's an opportunity too intriguing to refuse. If Everything is Connected, then surely the twin mysteries of the Guidebook and a missing brother must be linked? What follows is completely the opposite of what Abi expected—but it will lead her on a journey of discovery that will change her life—and enchant readers. Gravity Is the Thing is a smart, unusual, wickedly funny novel about the search for happiness that will break your heart into a million pieces and put it back together, bigger and better than before.

Welcome to the world of Fine Little Day. Take a peek into the fascinating life of Elisabeth Dunker. This is a woman of many talents: blogger, writer, stylist, designer, photographer and artist. This, her first book, is filled to the brim with inspiring images of everything that she takes joy in. We meet her in the studio, where she presents her workplace and sanctuary, before she introduces us to one of her greatest loves - collecting! With colourful baskets, crochet potholders, vintage embroidery patterns, Scandinavian china and retro novels just as a start... Next a tour of Elisabeth's own eclectic home. Bursting with colour and pattern, her Gothenburg apartment is an enviable mix of handmade blankets, vintage finds, bold printed wallpaper and fabrics, smart storage and classic Scandinavian furniture. She also gives us plenty of ideas for recreating the look, with quick and easy projects to try at home. Press flowers, re-use textiles in a patchwork, make pearl baskets, decorate wooden spoons or print a sweatshirt... Enjoy a trip out of the city as we are shown around Elisabeth's cabin in the woods, with atmospheric pictures of the beautiful Swedish countryside and yet more decorating ideas, this time with a more rustic feel. With home tours of Elisabeth's creative friends and partners we also meet Japanese artist Mogu Takahashi, Swedish illustrator Henning Trollbäck and hear about her successful collaboration with Swedish homewares brand House of Rym, to name a few. This inspiring book is full of pictures, fun and heart.

Fine Little Day Appetite by Random House George and Catherine Stewart share not only the burden of Catherine's heart disease, which could cause her death at any time, but the memory of Jerome Martell, her first husband and George's closest friend. Martel, a brilliant doctor passionately concerned with

social justice, is presumed to have died in a Nazi prison camp. His sudden return to Montreal precipitates the central crisis of the novel. Hugh MacLennan takes the reader into the lives of his three characters and back into the world of Montreal in the thirties, when politics could send an idealist across the world to Spain, France, Auschwitz, Russia, and China before his return home.

Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

"A juicy tale of bad behavior... Very Nice gets pretty mean—but gloriously so." —Entertainment Weekly Rachel Klein never meant to kiss her creative writing professor, but with his long eyelashes, his silky hair, and the sad, beautiful life he laid bare on Twitter, she does, and the kiss is very nice. Zahid Azzam never planned to become a houseguest in his student's sprawling Connecticut home, but with the sparkling swimming pool, the endless supply of Whole Foods strawberries, and Rachel's beautiful mother, he does, and the home is very nice. Becca Klein never thought she'd have a love affair so soon after her divorce, but when her daughter's professor walks into her home, bringing with him an apricot standard poodle named Princess, she does, and the affair is ... a very bad idea. Zigzagging between the rarefied circles of Manhattan investment banking, the achingly self-serious MFA programs of the Midwest, and the private bedrooms of Connecticut, Very Nice is an audacious, addictive, and wickedly smart take on the way we live now.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Seattle Times • The Globe and Mail • Kirkus Reviews • Daily Mail • The Vancouver Sun From the author of *The Italian Teacher* and *The Imperfectionists* comes a brilliant, intricately woven novel about a young woman who travels the world to make sense of her puzzling past. Look in the back of the book for a conversation between Tom Rachman and J. R. Moehringer Following one of the most critically acclaimed fiction debuts in years, New York Times bestselling author Tom Rachman returns with a brilliant, intricately woven novel about a young woman who travels the world to make sense of her puzzling past. Tooty Zylberberg, the American owner of an isolated bookshop in the Welsh countryside, conducts a life full of reading, but with few human beings. Books are safer than people, who might ask awkward questions about her life. She prefers never to mention the strange events of her youth, which mystify and worry her still. Taken from home as a girl, Tooty found herself spirited away by a group of seductive outsiders, implicated in capers from Asia to Europe to the United States. But who were her abductors? Why did they take her? What did they really want? There was Humphrey, the curmudgeonly Russian with a passion for reading; there was the charming but tempestuous Sarah, who sowed chaos in her wake; and there was Venn, the charismatic leader whose worldview transformed Tooty forever. Until, quite suddenly, he disappeared. Years later, Tooty believes she will never understand the true story of her own life. Then startling news arrives from a long-lost boyfriend in New York, raising old mysteries and propelling her on a quest around the world in search of answers. Tom Rachman—an author celebrated for humanity, humor, and wonderful characters—has produced a stunning novel that reveals the tale not just of one woman but of the past quarter-century as well, from the end of the Cold War to the dominance of American empire to the digital revolution of today. Leaping between decades, and from Bangkok to Brooklyn, this is a breathtaking novel about long-buried secrets and how we must choose to make our own place in the world. It will confirm Rachman's reputation as one of the most exciting young writers we have. Praise for *The Rise & Fall of Great Powers* "Ingenious . . . Rachman needs only a few well-drawn characters to fill a large canvas and an impressive swath of history."—Janet Maslin, *The New York Times* "A superb follow-up to 2010's *The Imperfectionists* . . . ambitious and engaging."—*The Seattle Times* "Engaging and inventive . . . full of wonderfully quirky, deeply flawed, but lovable characters . . . On the spectrum of interesting literary childhoods, Tooty Zylberberg—the protagonist of Tom Rachman's second novel—would rank somewhere in the vicinity of *Jane Eyre* and *Oliver Twist*."—*San Francisco Chronicle* "I found it impossible not to fall in love with shape-shifting Tooty. As an adult, she sports an ironical sense of humor and an attraction to dusty old books. As a child, her straight-faced mirth and wordplay are break-your-heart irresistible."—Ron Charles, *The Washington Post* "[A] read-it-all-in-one-weekend book."—*The New Republic* "A compelling page-turner . . . intricate, sprawling, and almost Dickensian."—*USA Today*
