Cultivated: The Elements of Floral Style elevates floral design to fine art in this richly informative work on the principles of floral style. A charming and intelligent mentor, Christin Geall emboldens designers, gardeners, and entrepreneurs to think differently and deeply about their work with flowers as she draws upon the fine arts and historical sources, exploring Baroque music, the paintings of the Impressionists, or the work of floral innovators like Gertrude Jekyll and Constance Spry. Covering all aspects of floral design, including choosing plants to grow and arrange, selecting tools and vessels, balancing color and form, and even photographing and selling arrangements, Cultivated offers universal lessons for all levels of practitioners, budgets, and materials. Geall's stunning photographs of her own lush designs illustrate techniques for creating brilliant arrangements that spark the imagination.

If you think of flower arranging as an occupation for florists in pursuit of the perfect dome, think again. Because there is a generation of radical new artists who are reinventing what it means to arrange flowers, many of them inspired by the Japanese art of Ikebana. Since its origins in the 6th century, Ikebana has been as much a philosophy as an art, with its roots in Zen Buddhism and a reverence for nature. Over hundreds of years it has developed a complex set of unwritten rules, that take a lifetime to master. But in recent years the distinctive look of Ikebana - with its love of the asymmetric shapes to be found in nature and its willingness to embrace simple, natural materials - has found a new audience and opened the eyes of a generation of artists to a new way of working with flowers. This book showcases a selection of this new wave of floral artists, from Tokyo to New York. The authors Victoria Gaiger and Tom Loxley - the editors of the award-winning *rakesprogress*, the UK's leading independent magazine about the art of gardens, plants and flowers - have talked to 25 of the most exciting young florists working today about their art and inspiration. It includes an introduction to the history and evolution of Japanese floral art and beautiful images of the artists' studios and their floral creations.

The true meaning of Ikebana—the traditional Japanese art of flower arrangement—is to take a few beautiful flowers and plants and tastefully present them in very simple containers to enhance home decor. The 53 elegant arrangements featured in Japanese Ikebana for Every Season are perfect for special occasions—Mother's Day, Valentine's Day, birthday, anniversary—or any event that calls for a flower bouquet. The key to good Ikebana arrangements is to understand a few very simple principles—like the idea of *mitate*, seeing old things with new eyes—and to learn a few easy techniques to stabilize and support plants inside a vase or container. Using common

flowers and plants from the garden, a nearby field or forest, or the local florist, anyone can easily create these lovely Ikebana in just a few minutes. Authors Rie Imai and Yuji Ueno explain how to select flowers and containers from things that are already around—and then turn them into something special. The basic instructions in the book cover a wide range of styles that encourage readers to use their own creativity rather than copying traditional and highly technical Ikebana design concepts. No matter what time of year it is and regardless of your taste or budget—the arrangements in this book will lend a touch of Japanese elegance to your home.

The definitive guide to the therapeutic Japanese practice of *shinrin-yoku*, or the art and science of how trees can promote health and happiness. Notice how a tree sways in the wind. Run your hands over its bark. Take in its citrusy scent. As a society we suffer from nature deficit disorder, but studies have shown that spending mindful, intentional time around trees--what the Japanese call *shinrin-yoku*, or forest bathing--can promote health and happiness. In this beautiful book--featuring more than 100 color photographs from forests around the world, including the forest therapy trails that criss-cross Japan--Dr. Qing Li, the world's foremost expert in forest medicine, shows how forest bathing can reduce your stress levels and blood pressure, strengthen your immune and cardiovascular systems, boost your energy, mood, creativity, and concentration, and even help you lose weight and live longer. Once you've discovered the healing power of trees, you can lose yourself in the beauty of your surroundings, leave everyday stress behind, and reach a place of greater calm and wellness.

The contributors to *Affective Trajectories* examine the mutual and highly complex entwinements between religion and affect in urban Africa in the early twenty-first century. Drawing on ethnographic research throughout the continent and in African diasporic communities abroad, they trace the myriad ways religious ideas, practices, and materialities interact with affect to configure life in urban spaces. Whether examining the affective force of the built urban environment or how religious practices contribute to new forms of attachment, identification, and place-making, they illustrate the force of affect as it is shaped by temporality and spatiality in the religious lives of individuals and communities. Among other topics, they explore Masowe Apostolic Christianity in relation to experiences of displacement in Harare, Zimbabwe; Muslim identity, belonging, and the global *ummah* in Ghana; crime, emotions, and conversion to neo-Pentecostalism in Cape Town; and spiritual cleansing in a Congolese branch of a Japanese religious movement. In so doing, the contributors demonstrate how the social and material living conditions of African cities generate diverse affective forms of religious experiences in ways that foster both localized and transnational paths of emotional knowledge. Preparatory to restoring humaneness, *Attunement Through the Body* offers an innovative, philosophical model for overcoming mind-body dualism and its negative consequences through a systematic elucidation of the concept and the phenomenon of attunement. It invites readers to re-evaluate an undue emphasis placed on the cognitive, intellectual knowledge in the West. The book examines the concept of the lived body and then articulates the transformative dimension of our everyday mode of living our bodies vis-a-vis Yuasa Yasuo's concept of body-scheme, demonstrating that the unity disclosed can be brought to a higher degree. The book further describes the transformative dimension of our bodies in theoretical and practical aspects through the concept of the body emerging in the course of meditative self-cultivation that was practiced by Dogen Kigen, a medieval Japanese Zen master. It then develops an original philosophical theory that differs from various Western theories such as Idealism, Empiricism, and Materialism. This theory articulates modes of attunement reflecting degrees of somatic knowledge. The theory implies a lifestyle appropriate for the coming century.

Dealing with worship, the home, scriptures and key beliefs, this is one of three books which constitute an RE course for lower-secondary pupils. This revised edition matches the Locally Agreed Syllabuses and SCAA Models, and is designed to introduce the nature of religious belief and to encourage a greater knowledge and understanding of the six major religions. The three books are organized by religion, and non-specialist teachers are helped by the combination of detailed coverage and self-contained spreads.

"Elegant representations of nature and the four seasons populate a wide range of Japanese genres and media. In *Japan and the Culture of the Four Seasons*, Haruo Shirane shows how, when, and why this practice developed and explicates the richly encoded social, religious, and political meanings of this imagery. Shirane discusses textual, cultivated, material, performative, and gastronomic representations of nature. He reveals how this kind of 'secondary nature,' which flourished in Japan's urban environment, fostered and idealized a sense of harmony with the natural world just at the moment when it began to recede from view. Illuminating the deeper meaning behind Japanese aesthetics and artifacts, Shirane also clarifies the use of natural and seasonal topics as well as the changes in their cultural associations and functions across history, genre, and community over more than a millennium. In this book, the four seasons are revealed to be as much a cultural construction as a reflection of the physical world."--Back cover.

The combination of Ikebana and haiku is a more than successful one. The similarities between the arts go far beyond their Japanese origins. The seductive simplicity of haiku, its subtleties and sparse use of words, its silences and depth of meaning, its rhythms and seasons... these are only some of the characteristics that haiku shares with Ikebana. Both Ikebana and haiku have the power to move people. They evoke emotions using material that has carefully been trimmed of the superfluous. Their minimalism is convincing and reveals the essence. They manage to hold our gaze and temporarily slow down our daily rhythm. Both Ikebana and haiku invite us to see more than what the visible world has to offer. Members of the centre for poetry in Ghent, led by Hedwig Aerts, made a selection of their favourite traditional haiku by master poets such as Basho, Issa and Shiki. On the occasion of this book, they also created some new personal haiku. Poetical Ikebana is the floral translation of these haiku, a collection of evocative floral design that stirs the senses and touches the heart."

Japanese Brazilian Saudades explores the self-definition of Nikkei discourse in Portuguese-language cultural production by Brazilian authors of Japanese ancestry. Ignacio L. Ópez-Calvo uses books and films by twentieth-century Nikkei authors as case studies to redefine the ideas of

Brazilianness and Japaneseness from both a national and a transnational perspective. The result suggests an alternative model of postcoloniality, particularly as it pertains to the post – World War II experience of Nikkei people in Brazil. L ó pez-Calvo addresses the complex creation of Japanese Brazilian identities and the history of immigration, showing how the community has used writing as a form of reconciliation and affirmation of their competing identities as Japanese, Brazilian, and Japanese Brazilian. Japanese in Brazil have employed a twofold strategic, rhetorical engineering: the affirmation of ethno-cultural difference on the one hand, and the collective assertion of citizenship and belonging to the Brazilian nation on the other. L ó pez-Calvo also grapples with the community ’ s inclusion and exclusion in Brazilian history and literature, using the concept of “ epistemicide ” to refer to the government ’ s attempt to impose a Western value system, Brazilian culture, and Portuguese language on the Nikkeijin, while at the same time trying to destroy Japanese language and culture in Brazil by prohibiting Japanese language instruction in schools, Japanese-language publications, and even speaking Japanese in public. Japanese Brazilian Saudades contributes to the literature criticizing the “ cognitive injustice ” that fails to acknowledge the value of the global South and non-Western ways of knowing and being in the world. With important implications for both Latin American studies and Nikkei studies, it expands discourses of race, ethnicity, nationality, and communal belonging through art and narrative.

Just as painters create immortal pieces with their brushes, ikebana artists use nature's palette to express themselves. *Ikebana Inspired by Emotions* demonstrates the eloquence of ikebana and its power to capture and transfer emotions. Ikebana is sometimes accused of being hermetic; difficult to understand or appreciate for outsiders. It is claimed that it is an art which merely involves applying strict, imposed rules and that a lack of spontaneity and frivolity makes it a style of flower arranging that is difficult to enjoy. This beautiful new book demonstrates the opposite. Eight carefully selected black and white photos of strong, universal emotions are the source of inspiration for this publication. Many international artists interpret these visuals and translate them into designs that stir the senses and touch the heart. *Ikebana Inspired by Emotions* shows how ikebana arrangements can pull at the heartstrings and evoke emotions that are recognisable to everyone. 175 colour images
