Nordic Runes National Geographic Books

Snorri Sturluson was one of the great writers of medieval Europe. Through years of hard work and dedication, he had gained a deep understanding of Icelandic tradition. The Younger Edda tells us the story of the Norse pantheon of Gods and Goddesses and the creation story of the world according to the Norse belief system. This book is divided in three parts: The fooling of Gylfe, a narrative of Norse mythology (Odin, Thor, Balder...), the Brage's Talk

and the Skáldskaparmál, extracts from the poetical diction. This is a wonderful, erudite, enjoyable translation of Snorri Sturluson's original 'Edda'. This large print edition contains an informative introduction that explains the beginning of the Edda, numerous notes and a useful vocabulary. For ease of consultation, the text is followed by a detailed table of contents. This book is a must-read for the studies of Norse mythology. So if you're wanting to gain more knowledge about the pagan beliefs then this is a must-have.

The Elder Edda Univ of California Press

Written in Iceland a century after the close of the Viking Age, The Prose Edda is the source of most of what we know of Norse mythology. Its tales are peopled by giants, dwarves, and elves, superhuman heroes and indomitable

warrior queens. Its gods live with the tragic knowledge of their own impending destruction in the cataclysmic battle of Ragnarok. Its time scale spans the eons from the world's creation to its violent end. This robust new translation captures the magisterial sweep and startling psychological complexity of the Old Icelandic original. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Saga of King Hrolf Kraki Penguin UK
The Prose Edda, also known as the Younger Edda, is an Old Norse textbook written in Iceland during the early 13th century. It consists of several parts Gylfaginning, Skáldskaparmál, and Háttatal. This book presents the first part of Prose Edda - Gylfaginning or The Fooling of Glyfe deals with different aspects of Norse mythology.

The Prose Edda - Tales from Norse Mythology OUP Oxford
Part of a new series Legends from the Ancient North, The Elder Edda is one of the classic books that influenced JRR Tolkien's The Hobbit and The Lord of the Rings 'So the company of men led a careless life, All was well with them: until One began To encompass evil, an enemy from hell. Grendel they called this cruel spirit...' J.R.R. Tolkien spent much of his life studying, translating and teaching the

great epic stories of northern Europe, filled with heroes, dragons, trolls, dwarves and magic. He was hugely influential for his advocacy of Beowulf as a great work of literature and, even if he had never written The Hobbit and The Lord of the Rings, would be recognised today as a significant figure in the rediscovery of these extraordinary tales. Legends from the Ancient North brings together from Penguin Classics five of the key works behind Tolkien's fiction. They are startling, brutal, strange pieces of writing, with an elemental power brilliantly preserved in these translations. They plunge the reader into a world of treachery, quests, chivalry, trials of strength. They are the most ancient narratives that exist from northern Europe and bring us as near as we will ever get to the origins of the magical landscape of Middle-earth (Midgard) which Tolkien remade in the 20th century.

Norse Mythology Hackett Publishing
The Prose Edda, also known as the Younger Edda, Snorri's Edda (Icelandic: Snorra Edda) or simply Edda, is an Old Norse work of literature written in Iceland in the early 13th century. Together with the Poetic Edda, it comprises the major store of Scandinavian mythology. The work is often assumed to have been written, or at least compiled, by the Icelandic scholar and historian Snorri Sturluson around the year 1220. It begins with a euhemerized Prologue, a section on the Norse cosmogony, pantheon and myths. This is followed by three distinct books: Gylfaginning (consisting of around 20,000 words), Skáldskaparmál (around 50,000 words) and Háttatal (around 20,000 words). Seven manuscripts, dating from around 1300 to around 1600, have independent textual value. Sturluson planned the collection as a textbook. It was to enable Icelandic poets and readers to understand the subtleties of alliterative verse, and to grasp the meaning behind the many kenningar

(compounds) that were used in skaldic poetry. The Saga of the Volsungs Penguin UK The Poetic Edda comprises a treasure trove of mythic and spiritual verse holding an important place in Nordic culture, literature, and heritage. Its tales of strife and death form a repository, in poetic form, of Norse mythology and heroic lore, embodying both the ethical views and the cultural life of the North during the late heathen and early Christian times. Collected by an unidentified Icelander, probably during the twelfth or thirteenth century, The Poetic Edda was rediscovered in Iceland in the seventeenth century by Danish scholars. Even then its value as poetry, as a source of historical information, and as a collection of entertaining stories was recognized. This meticulous translation succeeds in reproducing the verse patterns, the rhythm, the mood, and the dignity of the original in a revision that Scandinavian Studies says "may well grace anyone's bookshelf."

Prose Edda Puffin Carcass

Fantastic sagas of Norse mythology, these 17 imaginative retellings include Odin's search for knowledge, origins of Thor's hammer, loss of Idun's wondrous apples, securing the dreaded Fenris-wolf, and much more.

Icelandic Poetry Courier Corporation

" Remarkable... Gaiman has provided an enchanting contemporary interpretation of the Viking ethos. " —Lisa L. Hannett, Atlantic Neil Gaiman, long inspired by ancient mythology in creating the fantastical realms of his fiction, presents a bravura rendition of the Norse gods and their world from their origin though their upheaval in Ragnarok. In Norse Mythology, Gaiman stays true to the myths in envisioning the major Norse pantheon: Odin, the highest of the high, wise, daring, and cunning; Thor,

Odin ' s son, incredibly strong yet not the wisest of gods; and Loki—son of a giant—blood brother to Odin and a trickster and unsurpassable manipulator. Gaiman fashions these primeval stories into a novelistic arc that begins with the genesis of the legendary nine worlds and delves into the exploits of deities, dwarfs, and giants. Through Gaiman ' s deft and witty prose, these gods emerge with their fiercely competitive natures, their susceptibility to being duped and to duping others, and their tendency to let passion ignite their actions, making these long-ago myths breathe pungent life again.

The Sagas of the Icelanders Everyman Paperback Classics

A humorous compendium of the ancient Norse myths, as well as some new ones, as told by an irate Bostonian. Based on the long-running McSweeney's Internet Tendency web column, Norse History for Bostonians.

The Prose Or Younger Edda Commonly

Ascribed to Snorri Sturluson Viking Society

for Northern Research University College Composed in medieval Iceland, Hrolf's Saga is one of the greatest of all mythic-legendary sagas, relating half-fantastical events that were said to have occurred in fifth-century Denmark. It tells of the exploits of King Hrolf and of his famous champions, including Bodvar Bjarki, the 'bear-warrior': a powerful figure whose might and bear-like nature are inspired by the same legendary heritage as Beowulf. Depicting a world of wizards, sorceresses and 'berserker' fighters - originally members of a cult of Odin - this is a compelling tale of ancient magic. A work of timeless power and beauty, it offers both a treasury of Icelandic prose and a masterful gathering of epic, cultic memory, traditional folk tale and myths from the Viking age and far earlier.

Norse Mythology Leaves of Gold Press

Myths & Legends. The Vikings and their Norse gods fought a constant battle with nature. Their landscape, with its stark mountains and long nights created a particularly rough mythology, with profound contrasts and unforgettable heroes: Odin, Thor and Loki are just some of the familiar characters that maintain an influence over us today through movies, TV series and comics, to great fiction and epic poetry. This fabulous new book offers all the main tales with an introduction to the characters and the land that inspired them. FLAME TREE 451: From mystery to crime, supernatural to horror and myth, fantasy and science fiction, Flame Tree 451 offers a healthy diet of werewolves and mechanical men, blood-lusty vampires, dastardly villains, mad scientists, secret worlds, lost civilizations and escapist fantasies. Discover a storehouse of tales gathered specifically for the reader of the fantastic.

The Prose Edda W. W. Norton & Company
The Prose or Younger Edda : Commonly Ascribed to Snorri Sturluson by George Webber Dasent, first published in 1842, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

Gods and Supernatural Creatures Penguin UK
The Prose Edda, first systemized and captured as a coherent document by the Icelandic scholar Snorri Sturluson in the year 1220, contain the collection of traditional stories and legends handed down since the age of the Vikings, and has become the main source for all subsequent iterations of Norse mythology. Based on the earlier, and untitled "Poetic Edda," the Prose

Edda covers the entire spectrum of Norse mythology from the creation to the prophesized destruction of the world. The work consists of three major parts: The Prologue, which is an euhemerized Christian account of the origins of Nordic mythology: the Nordic gods are described as human Trojan warriors who left Troy after the fall of that city and who settled in northern Europe, where they were accepted as divine kings because of their superior culture and technology. The second part, The Fooling of Gylfe, tells of the creation and destruction of the Nordic gods' world, and deals with many other aspects of Norse mythology. The third part, The Skáldskaparmál, consists of a dialogue between Ægir, a god associated with the sea, and Bragi, a skaldic god, in which both Nordic mythology and discourse on the nature of poetry are intertwined. This edition also contains an important introduction, a full set of explanatory notes, a vocabulary list, and an index.

The Prose Edda Simon and Schuster

The Prose Edda: Norse Mythology By Snorri Sturluson, Rasmus B. Anderson (Translated by) Edda OUP USA

She sees, coming up a second time, earth from the ocean, eternally green; the waterfalls plunge, an eagle soars above them, over the mountain hunting fish. After the terrible conflagration of Ragnarok, the earth rises serenely again from the ocean, and life is renewed. The Poetic Edda begins with The Seeress's Prophecy which recounts the creation of the world, and looks forward to its destruction and rebirth. In this great collection of Norse-Icelandic mythological and heroic poetry, the exploits of gods and humans are related. The one-eyed Odin, red-bearded Thor, Loki the trickster, the lovely goddesses, and the giants who are their enemies walk beside the heroic Helgi, Sigurd the Dragon-Slayer, Brynhild the shield-maiden, and the implacable Gudrun. This translation also features the quest-poem The Lay of Svipdag and The Waking of Angantyr, in which a girl faces down her dead father to retrieve his sword. Comic,

tragic, instructive, grandiose, witty, and profound, the poems of the Edda have influenced artists from Wagner to Tolkien and speak to us as freely as when they were first written down seven hundred and fifty years ago.

"This is a book of the highest importance. No one should attempt to teach about Viking society or claim to understand it without being familiar with this chilling and enduring myth."—Eleanor Searle, author of *Predatory Kinship & the Creation of Norman Power* "Byock's translation is excellent, but his thorough introduction is of equal scholarly importance. . . . His section on Richard Wagner's use of the Volsung material in writing his Ring will expand the topic toward modern Wagnerians."—Michael Bell, University of Colorado "The Saga of the Volsungs is one of the most important texts of Old Icelandic literature, with its treatment of Old Scandinavian heroic traditions. . . . The most difficult part of the text to translate is, of course, the poetry, but also here the translator has been successful."—V é steinn Olason, University of Oslo
