Integrative Preaching offers a compelling conceptual model of biblical preaching that helps preachers better understand what they are doing when they step into the

pulpit. Kenton Anderson, an experienced preacher and professor, explicates the integrative preaching model he has been honing for a lifetime. His fresh, holistic approach aims at whole-person transformation and is well suited for contemporary listeners. The book includes theoretical underpinnings and practical guidance to both instruct students and motivate working preachers. Sample sermons show how the model unfolds in actual sermons.

Rethinking the Secular Origins of the Novel Regent College Publishing

"Webb offers a carefully and creatively wrought phenomenology of sound, showing its relation to the proclamation of God's Word. His keen insights on the primordial nature of sound, speech, and hearing will force theologians to examine, once again, what it means to be a

'hearer of the Word.' Webb masterfully displays the intrinsic relationship between dynamic listening and speech--how intent hearing and confident proclamation are intimately conjoined. He has the rare gift of combining acute theological insight with a mellifluous, readable style. The nature of God's own Word here becomes clearer: vibrant and tensile, life-giving in tone and texture. Whether examining Jesus as the voice of the Father, the role of voice in innertrinitarian relations, or the relationship between voice and gender, Webb offers the kind of thought-provoking and highly creative reflections rarely found elsewhere. He has a creative and incisive theological mind." --Thomas Guarino, Seton Hall University

"Being appreciative of Webb's earlier work on hyperbolic language in theology and preaching, I welcomed *The Divine Voice*. How risky to

toss a spoken word into a room of silent readers and expect it to be heard! I was reprimanded, instructed, and moved by the sound of this book. Were I still in the seminary classroom, The Divine Voice would be required reading before one word was said about how to preach." --Fred B. Craddock, The Craddock Center "The Divine Voice is a book of academic theology worthy of the Psalmist who sang 'Day after day the word goes forth, night after night the story is told. Soundless the speech, voiceless the talk, yet the story is echoed throughout the world' (Ps 19:2-3). Stephen Webb is an 'acoustemological' theologian, for whom speech can be prayerful as silence, and silence as instructive as proclamation. When the sounds heard by faith reach Webb's ever-insightful and creative mind, only synesthesia could result, and the result is a

gift for us all." --Peter Ochs, University of Virginia
God's Plan for the Ages, 2nd Edition
Mohr Siebeck
What is the destiny of planet earth?
What is going to be the fate of mankind?
We don't have to guess! The Bible spells out God's plan for the ages in great detail through prophecies given thousands of years ago. In this book, Dr. David Reagan presents a panoramic survey of the fundamentals of Bible prophecy, with a focus on the prophecies that relate to the end times. In the process, he reveals God's plan for the redemption of mankind and the

restoration of the creation. The book is written in a down-to-earth, easy-to-understand style. Although all the chapters relate to the overall theme, each chapter is designed to stand alone. This makes it possible for you either to read the book straight through or to skip around, reading only those chapters whose topics appeal to you.

For many, the idea of interfaith engagement is one to be treated with scepticism. Whilst there is fierce discussion around interfaith issues at a scholarly level, this fails to make an impact on the practice of the church. And yet, an

increasing number of those training for church leadership will find themselves in churches which are at the heart of diverse, and often divided, communities. In "Hospitality, Service, Proclamation," Tom Wilson seeks to demystify the interfaith project. Written for ordinands and those preparing to minister in neighbourhoods where interfaith and intercultural dialogue are essential, Wilson argues that rather than a threat to churches, interfaith dialogue is an important tool for discipleship.

In Delivering the Sermon
Teresa Fry Brown
introduces preachers to the effective use of voice and body in the animation of the

word in the preaching moment. Combining the latest research in communications, speech pathology, and homiletics with her own experience as a speech-language pathologist, Fry Brown creatively empowers preachers to improve their effectiveness in proclamation. Practical suggestions and exercises for enhancing voice, diction, and nonverbal engagement of the listener, useable by groups or individuals, are included in each chapter. Delivering the Sermon William Carey Publishing A fresh perspective on how liturgy can support social justice work Proclaim! is an exploration of Episcopal liturgy from a black, queer, millennial perspective, with an eye toward proclamation and justice. Part memoir, part history, part biblical studies, and part practical theology,

Proclaim! suggests that the politics of our liturgical tradition is the ground from which we can engage in the justice work that our world needs. Each chapter explores theology, a biblical story, and the real-world practice of evangelism and mission. The liturgy can serve as the theological well from which we might draw wisdom to engage the issues of justice, equity, and compassion in the world today. The question is not whether or not to engage politics; rather, the question is: whose politics are being reflected? Furthermore, what shape might our lives take if we took our worship of God seriously? People who are curious about what justice looks like in the Church or who are seeking new resources to sustain their work will be affirmed in Halley ' s book. Outline of Christian Ethics is a
Q&A book on moral questions of
today. The book includes a large
number of topics discussed in
ethics, including personal
ethics – – birth, death, sex,
work, wealth, the

supernatural – – and social ethics – – politics, society, human rights, family, international issues. Moral questions are analyzed from an evangelical Christian viewpoint. The emphasis is on explaining ethical principles from the Bible, but arguments on both sides of the questions are examined. Because the author is a statistician, positions taken by the book are frequently supported by actual data from recent statistical surveys. “ Outline of Christian Ethics is a valuable guide for Christians to live a moral life. The book is a rich source of information – – better than most books on ethics that we can find in bookstores ” (Rev. Dr. Jason Yeung, principal, Canadian Chinese School of Theology at Ambrose Seminary [Calgary]). “ Dr. Hung humbly called his book an ‘ outline ’ ; yet the extent of the book is broad and deep. Dr. Hung does not use purely rational and argumentative methods; he employs the method of lighthearted conversation with the reader. Every chapter is introduced with some stories to

stir up the interest of the reader. Furthermore, statistical facts are added to strengthen the persuasive power of the points made. The wealth of information contained in this book will help busy pastors and Christians find the necessary information quickly ” Rev. Dr. Peter Au, principal, Canadian Chinese School of Theology at Tyndale Seminary [Toronto]).

Following up Robert Traina's classic Methodical Bible Study, this book introduces the practice of inductive Bible study to a new generation of students, pastors, and church leaders. The authors, two seasoned educators with over sixty combined years of experience in the classroom, offer guidance on adopting an inductive posture and provide step-by-step instructions on how to do inductive Bible study. They engage in conversation with current hermeneutical issues, setting forth well-grounded principles and processes for biblical interpretation and appropriation. The process they present incorporates various methods of biblical study to help readers hear the message of the Bible on its own terms.

This is a complete and practical introduction to storying, especially for people who want to learn about using biblical storytelling in cross-cultural contexts and who want to train others to become storytellers. It includes many fascinating accounts of the responses of tribal people to the first proclamation of the gospel through storytelling. The result of years of research and field testing, *Telling God's Stories with Power* is a product of the author's own journey as he confronted the challenges of teaching the Bible in parts of the world where people are unaccustomed to a Western style of learning. Full of innovative and groundbreaking insights, this study is packed with ideas, explanations, and constructive suggestions stated in clear and simple language. Throughout the book there are extensive examples from the storytellers' own experiences. Tracing the movement of the biblical stories across multiple generations of

The Divine Voice Chosen Books
A robust scholarly defense of the distinctiveness of the canonical Gospels. Is there anything that makes the four New Testament Gospels different from other early Christian Gospels? The tendency among biblical scholars of late has been to declare the answer to this question no—that the Gospels of Matthew, Mark, Luke, and John were grouped together by happenstance and are defended as canonical today despite there being no essential commonalities between them. Simon Gathercole challenges this prevailing view and argues that there are in fact substantial differences of theological content between the New Testament Gospels and noncanonical Gospels. Gathercole shows how the Gospels of Matthew, Mark, Luke, and John each include four

key points that also formed the core of early Christian preaching and teaching: Jesus' s identity as messiah, the saving death of Jesus, the resurrection of Jesus, and Scripture' s foretelling of the Christ event. In contrast, most noncanonical Gospels—like the Gospel of Thomas, the Gospel of Truth, and Marcion' s Gospel—only selectively appropriated these central concerns of early Christian proclamation.

Did Paul want his congregations to pick up the ministry of evangelism or did he envisage himself and other 'specialist' proclaimers continuing the ministry of the gospel? Dr. Keown begins by outlining the contours of differing responses to this question ranging from exclusively 'specialist' evangelism to believers' full participation

in evangelic mission. He then explores the question through exegetical analysis of Philippians. He argues persuasively that one essential element of the rhetorical appeal of the letter is an injunction to the believers in Philippi to continue to preach the gospel with renewed unity and in the face of pagan opposition. He suggests that Paul envisaged 'specialist proclaimers' leading the evangelical mission and equipping 'general believers' to share the gospel as one dimension of living in the world.

Leading homiletician Jared Alcántara offers a practice-centered, collaborative, technologically innovative, next-generation

introductory preaching textbook. The book breaks new ground by adopting a practice-based approach to teaching preaching and by using innovative technological delivery to enhance the educational experience of learners. Alcántara introduces the basics of Christian preaching and emphasizes the skills preachers must cultivate throughout their lives. He shows that preachers can learn effective preaching by paying keen attention to five key competencies: conviction, context, clarity, concreteness, and creativity. Featuring the perspectives of a diverse team of collaborators, *The Practices of Christian Preaching* is designed to prepare effective communicators for the church's multicultural future. Call-outs in the book direct

readers to a companion website for further information or practice. The online resources include audio and video sermons, video responses from the author, and contributions from collaborators, enabling Alcántara to coach students by showing them instead of just telling them. Emerging Voices Cambridge University Press

Recent research has demonstrated a loss of verbalization, or grasp of the Christian language, in the emerging generations of Western Christianity. As contemporary culture rejects Christian identity more and more, subsequent generations are losing the ability to proclaim their faith well. This is particularly troubling for those on the theological campus seeking to train and

disciple today ' s emerging adults as the next generation of ministers. Emerging Voices attempts to identify factors behind this phenomenon and to map out a better way forward, particularly for the theological campus. As contemporary issues such as the elimination of faith from public discourse and the ubiquitous influence of technology shape students in the years before college, what can be done to reclaim the Christian language for students tasked with preaching the gospel? This project combines a deep dive into some of the leading research regarding religion and spirituality in youth and emerging adulthood, alongside of a focused study group. In uniting these approaches, Emerging Voices attempts to give expression to those who most need to be heard in the coming decades of the Christian church in Western culture.

"Like athletes, preachers carry inside them the voices of their most challenging coaches--people who have encouraged them to dig deeper, stretch farther, and more faithfully pursue their craft and calling. In these crystalline essays, Walter Brueggemann is that voice again, shaking us free of the dust of our own diminished expectations, bolstering our best instincts, and consistently pointing us toward a gospel that would make the powers and principalities tremble." --Scott Black Johnston, Senior Pastor, Fifth Avenue Presbyterian Church "Richly informed by Scripture, this superb book is a must-read for preachers and, indeed, for laity who love the Word.

Brueggemann's theological interpretation of the biblical text strikes the mind and heart and calls out the church as an alternative community to embrace the work of transformation God is doing in the world. Brueggemann's books always inform and inspire, but as

I read this extraordinary text, I found myself over and over again giving thanks to God." --Tex Sample, Professor Emeritus of Church and Society, Saint Paul School of Theology "In this splendid collection of essays, we encounter the Walter Brueggemann we have come to expect--wise, edgy, original, provocative, stimulating to preachers, and deeply encouraging to a church in quest of a prophetic, bold, and vital faith." --Thomas G. Long, Professor of Preaching, Candler School of Theology, Emory University
