Beatrix Potter created some of the world's most beloved characters, and they will be coming to life in a movie slated for Spring 2018. And this book, written in 1941 but never illustrated, introduces the charming Kitty-in-Boots, who has been imagined by Quentin Blake. When Miss Kitty sneaks out to go hunting in her beautiful boots she gets herself into all sorts of scrapes, but on this particular night she meets the foxiest hunter of them all—Mr. Tod! Economics: Private and Public Choice is an aid for students and general readers to develop a sound economic reasoning. The book discusses several ways to economic thinking including six guideposts as follows: (i) scarce goods have costs; (ii) Decision-makers economize in their choices; (iii) Incentives are important; (iv) Decision-makers are dependent on information scarcity; (v) Economic actions can have secondary effects; and (vi) Economic thinking is scientific. The book explains the Keynesian view of money, employment, and inflation, as well as the monetarist view on the proper macropolicy, business cycle, and inflation. The book also discusses consumer decision making, the elasticity of demand, and how income influences demand. The text analyzes costs and producer decisions, the firm under pure competition, and how a competitive model functions. The book explains monopoly, and also considers the high barriers that prevent entry such as legal barriers, economies of scale, and control over important resources. The author also presents comparative economic systems such as capitalism and socialism. This book can prove useful for students and professors in economics, as well as general readers whose works are related to public service and planning in the area of economic development. A week after breaking up with the girl next door - his girlfriend and travelling companion through Central America - Peter Moore heads off to Africa to lose himself for a while. She is Helena Bosman, from a tiny little town lost in the vast expanses of the Northern Cape, but Grandpa and Grandma call her Vaselinetjie. She is their little angel from the veldt, the beginning and the end of their world. But when Vaselinetjie is ten years old, two officials from Welfare step in and she is sent away to a boarding school in Gauteng - the orphanage where Madiba's reject children have to live. It's a strange, hard, dangerous world of scum children, bad-tempered matrons and a harsh, unfair principal; a world of smoking cigarette butts, having one's hair shaved off and making plans to run away. It's a world where no one bothers about anyone else, where you too learn not to give a damn. But as the months turn into years, there is one name that crops up again and again: Texan Kirby. And that name does strange things to Vaselinetjie's heart.

The Magic If

The South African or Anglo-Boer War rounded off the British conquest of Southern Africa. While ultimate British victory was scarcely in doubt, the unsettling experience of having to field an army of 450,000 troops to break two of the world's tiniest agrarian states gave imperial society much to reflect upon, both during and after the conflict. To the Boer 'bittereinders' the outcome of the war was never anything other than a humiliation. Yet the defeat of Boer interests was less evident. Although much of the black population became involved in the conflict, white supremacy remained intact; and the successes of the Boers in the field, as well as the trials and tribulations of their families in defeat, restoked a nationalist Afrikaner identity, which would go on to become a key element in the policy of apartheid. Only now, a hundred years later, are some of the more baleful legacies of the war being addressed. Bill Nasson's lively new history is a crisp, up-to-date account not only of the military struggle but also of the whole web of miscalculations and shattered illusions that surrounded it and spread far beyond the battlefields.
